PHYSICIANS' ADVICE TO HEALTH BEHELD.

Hot Water and Hot Bagg Should Be Kept Near in the Very Warmest Weather - Keep the Feet Dry and Warm.

It may seem a far-fetched caution to tell my patients to keep the feet warm when the thermometer is ranging around the seventy-degree mark, but in fact, it is a matter of life and death.

And just how vital it is, I have had many a patient who is and has for many years been almost an invalid. Only the most painstaking care has kept her from going to the great beyond.

It is one of the most important things I must make people understand the value of heat in almost all minor disorders. Whenever the system becomes what is popularly spoken of as "run down," there is a falling temperature which is not only exceedingly uncomfortable, but may be the forerunner of illness.

There are certain things that we know will produce certain results, and many of these are exceedingly simple. One of the most important is to keep the feet dry and warm, the body protected from chills, and the digestive organs moderately well supplied with nourishing food.

Italy has a music trade, a well-known firm of music publishers connected with the city of Rome, and no opera can be given without its consent and no singer engaged save at its direction.

Many religious people in England are criticizing Dr. Nansen's book because it is no recognition of God in it. Archduke Franz Ferdinand of Austria has recently been despaired of on account of his sufferings from consumption.

There are innumerable small cases, made of wood and wire, in this room, and also two of three large cages. In a number of the cages, several birds are kept together.

MR. ASTOR'S BIG SLAB.

HE WILL MAKE A GREAT BANQUET TABLE OF IT.

And then he'll send the slab to the Port of Good Harbor Cash from his British Cousins - A Giant Tree - The Ways of Wealth.
