INTERESTING TO WOMEN.

Mrs. Katherine Richardson of Maers is the most prominent of lady mountaineers at the present time. She has climbed more than a hundred peaks of over 10,000 feet, and once, in the course of a week, ascended Mount Rosa, the Weisbach, the Matterhorn and the Zinal Rothhorn.

An intelligent and charming daughter, who would, no doubt, make an excellent sovereign and might rule as a second Maria Theresa. She is, however, barred from the throne. It was Mrs. Clarence Mackay, then Miss Kitty Duer, who started the orchid craze. She loved the big, beautiful flowers and in her famous portrait she is represented with a cluster of them in the deep violet shade as liked best. She always carried her orchid flowers and in her famous portrait she is represented with a cluster of them in the deep violet shade as liked best.

THE KIDNEY COMPLEXION.

The pale, sallow, sunken-cheeked, diseased-looking people you so often meet are afflicted with "Kidney Complexion." Their kidneys are turning to a parasitic color. So is their complexion. They may also have rheumatism, suffer from sleeplessness, rheumatoid neuralgia, brain trouble, nervous exhaustion and sometimes the heart acts badly. Usually the sufferer from kidney disease does not find out what the trouble is until it is almost too late, because the symptoms are so little noticed until they do not think they need a medicine or a doctor until they find themselves sick in bed. Dr. Kilmer's Swamp-Root will build up and strengthen their weak and diseased kidneys, purify their blood, cleanse their system and soon they will enjoy better health. You can get the regular sizes at the drug store, at fifty cents and one dollar, or you may prove for yourself the wonderful virtues of this great discovery, Swamp-Root, by sending your address to Dr. Kilmer & Co., Binghamton, N. Y. for a sample bottle and a book that tells about it, both sent to you absolutely free by mail. When writing kindly mention that you read this liberal offer in the Birmingham Post-Dispatch.

An improved cut cuff button has a telescoping shank, one of the members having an interior projection which engages a groove cut in the surface of the other shank, to prevent removal until a half-turn is given to either part of the button.

What Shall Be Done FOR THE DELICATE GIRL

You have tried iron and other tonics. But she keeps pale and thin. Her sallow complexion worries you. Perhaps she has a little hacking cough also. Her head aches, and she cannot study. Give her Scott's Emulsion. The oil will feed her wasting body; the glycercine will soothe her cough, and the hypophosphites will give new power and vigor to her nerves and brain. Never say "you cannot take cod-liver oil" until you have tried Scott's Emulsion. You will be obliged to change your opinion at once. Children who become very fond of it; and infants do not know when it is added to their food.

G. H. TURK, THE CLOTHIER, Pontiac, Mich.

Rev. Dr. Joseph T. Smith, the venerable pastor emeritus of the Central Presbyterian church of Baltimore, will celebrate his eightieth birthday on Nov. 6 by preaching a sermon in the church of which he was pastor for 31 years. The poet: "These wild, delirious loves do not last as do the sane and sober kind." The colonel: "Just so; and whisky would last longer if you made it half water, but who would like such a fool?" Indianapolis Journal. "It's all up with us now," he remarked, as he raised the umbrella. "No," he replied, "you mean it's all over between us. And if it was laughter that shook the ribs of the umbrella, it must have been the wind." Philadelphia Bulletin. "Oh, yes, made Young Robinson (who has a very good opinion of himself, and has just been introduced): "I think I've met you once, Mr. Ernest Brown, at dog show." Miss Brown—"Oh, yes, made will go to those dog shows and meet the most appalling people!"—Punch.
