# 1898== Holiday GiftS==1899

Sensible purchases that will gladden hearts and make Christmas pleasant. I am showing the best line of useful presents of any one in town—a showing that from the standpoint of Quantity, Quality and Prices cannot be surpassed by my competitors who rey "cellarworn goods." Kindly note a few items I mention here.

#### HANDKERCHIEFS

More styles to show than ever before rices range from 2c to 50c.

Ladies' and Gent's Linen and Sill andkerchiefs from 15 to 50c.

In Men's White Handkerchiefs at 1 or 3 for 25c is the finest value in town.

#### MEN'S NECKWEAR

A full line of

#### LADIES' SKIRTS 75c to \$2.00. This is the finest

In Men's and Boys

CAPS

I down them all in quality and price Prices range from 25c to \$2.00.

#### A full line of Men's SWEATERS

UNDERWEAR

can save you money, as I have argest, line and the best goods in to Men's half-wool Underwear at hese goods are what I sold for 65c rst part of the season.

#### **BOOTS AND SHOES**

In this line I can give you better value or the money than any store in town. Men's Shippers from 75c to \$1.25. Ladies Warm Shoes from 1.25 to \$1.75. Sive me a chance and I will convince you hat these goods are the greatest value wer offered to the public.

Canvas Jackets at \$1.00

Bed Blankets in cotton and wo Horse Blankets and Comfortables

All fixed prices—there will be no jockeying allowed in quality any more than prices and I know the public in this age of circus advertising and largain days will welcome the change to standard goods of absolutely fixed prices in which their interest not only commences with purchases, but continues by a liberal guarantee of the manufacturer, both as to quality of material and workmanship. No merchant can do it by buying through third and fourth class houses. I buy my goods direct from the best factories in the world. I fear no competition from these people who cry "cellar-worn goods" all the time, as I never sold as many goods in two months as I have in the last two moths. Fair dealing, good goods and low prices are what tells. good goods and low prices are what tells.

Thanking you all for the confidence you have be-stowed upon me, I shall try in the future as well as in the past to give you good goods and lower prices.

Whiten's for Christians week, openine with
the matinee Sunday last. It is said to be
on, as to the number of people, scenery,
and electrical and mechanical effects. The
story is one of piscess interest. It is the lof
the wonderful adventures of Tom Edson,
who rase from the humble position of electrician to that of a philasthropist and millionaire mine owner.

#### AT THE LYCEUM

Matthews and Bulger, the popular comic erformers who introduced us to "Gay oney Island," are to play in the Lycoum it this week. "They have a new piece call 1 "By the Sad Sea Waves," the success ed "By the Sad Sea Waves," the success of which is really astonishing. The affair content of the same success of the same success of the same success of the same success of chorus, scenery and cost common success and is point of numbers largely exceeding many of the opera companion now travelling. It was considered an ambittous undertaking when first breached, but now that it is sailing on the waves of success, there are those who claim that nothing could fail where Mathewa and Bulger are concerned.

#### The Clairvoyant's Vision.

One day lately a Birmingham farmer went to Detroit to sell a load of potatos. In some manuer he was swindled out of his profiles. Now this progressive farmer had hard of those wonderful clairvoyants who reside in Detroit and who can help a man out of any sort of trouble. So he thiched his team by the curb and hastened to Miami Ave, where he was presently closert, with one of

arms.
"What's the matter," gasped the frightened wife, seeing her husband's frantic and disheveled condition. He glared about a moment, then declared

cleased."
Said another on Bates street: "I got up at five in the morning to clean mise and here are my neighbors gone for a month; with and in us slip were the ion." "Yes," and is poor man, "and I went there and begged for the work and was nearly on Mapile Ave. a very spirited dialogue was carried on between two neighbors, one of whose waits is in a dangerous condition.

To Disband Third Illinois.
Col. Fred. Bennitt of the Third Illinois regiment, has received orders directing the colonel to muster out the men of his regiment at their home cities.

Afro-Americans to Meet.
A call has been made by the National Afro-American council, for a convention of colored people, under the auspices of the council at Wash-

is so deeply rooted that on fair soil it is almost impossible to pull it up. To tout it off with a mowing machine or even with a scythe is impractical, as the atump sends out new shoots that soon flower and bear seeds. Where land is baddly infested it may be used for heed crops or often for pasturage, especially of sheep. The plants made to a part of the past of t

claircoyants who reside in Detroit and was can help a man out of any sort of trouble. So he hitched his team by the curb and hastended to Miam May where he was presently closetel with one of the prophetic claim.

"All yeal yeal cried the seer, passing into a 'tranec, minor troubles are not worth worrying about, compared with what can tell. Jou. You must harry what it can tell. Jou. You must harry hard, as fast as you can, and you will catch them, red, hadd, as it were."

The farmer waited to hear no move, and you will catch them, red, hadd, as it were."

The farmer waited to hear no move, and be boarded the electric can. Reaching his destination he took to the woods, running across lost, scaling harbed wire fences, tearing his clothes woods, running across lost, scaling harbed wire fences, tearing his clothes and his hands, losing his hard and ervert stopping to look for it, tumbling down and brusing his shim and fairly, with the perspiration pouring from every topping to look for it, tumbling down and brusing his shim and fairly, with the perspiration pouring from every topping to look for it, tumbling down and brusing his shim and fairly, with the perspiration pouring from every topping to look for it, tumbling down and brusing his shim and fairly, with the perspiration pouring from every topping to look for it, tumbling down and brusing his shim and fairly, with the perspiration pouring from every topping to look for it, tumbling down and brusing his shim and fairly, with the perspiration pouring from every topping to look for it, tumbling down and brusing the ship to the perspiration pouring from every topping to look for it, tumbling down and brusing the ship to the perspiration pouring from every topping to look for it, tumbling down and brusing the propertion of the proposition of

results of certain methods of treatment.

Things Fruit Growers Should Do.—
There are several things fruit producers should resolve to do, viz.: Grade
their fruits, wrap in paper the fine
fruit, evaporate the second grade and
not have any third grade. The Southwest should profit from the experience
of California and make the start. Fruit
put up in fancy packages will self from
50 cents to it. Des crothe more than
that highest price will not be for the
une reapped fruit.—Our Horticultural
Visitor.

# POSITIVELY
