Henry Ward Beecher used to say that a sum in mathematics taught him reliance. He told this story to prove it.

"My teacher of mathematics, taught me to depend on myself in this wise.

"I was sent to the blackboard, and went,

rewarded with 'Very well.'

"Why!' whippered I. I recited it just as he did, and you said 'No!"

"Why didn't you say 'Ves,' and stick to lift. It is not enough to know your leason; you must know 'tat you know 't. You have learned nothing till you are sure. If all the werd says 'No!' your business is to say 'Yes,' and prove it.'"
