WE SELL SHOES!

Come and see us at....

LOSEE BROS. & CO.

20 N. Saginaw St., Pontiac, Mich.

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the United States. It is the only medicine that has been used for over 100 years and is still the most popular.

TESTIMONIALS.

Dr. J. H. Brown, of Detroit, writes: 'I have used August Flower for many years and it has cured me of many ailments...'

DR. A. W. CHASE'S KIDNEY LIVER PILLS.

And if They are Discused Use the World's Greatest Kidney Cure

TEST THE KIDNEYS

First simple matter to test the kidneys. You need not consult a doctor. By asking yourself certain questions you can determine whether or not your kidneys are deranged.

NOT A DREAM.

I slept, I dreamed, I awoke to separate from this body which we drag about through life with us as an incubator, and I found that I had become a bee. I thought, 'What the combined intelligence of Earth, Heaven and Hell been used for the purpose of planning the construction of a machine to suffer the pain of the real world, but have seen a more perfect one than this human body.'

AGRICULTURISTS.

Some Up-to-Date Hints About Cultivation of the Soil and Yields of Cereals, Horticulture, Viticulture and Floriculture.

FARM AND GARDEN.

The Grain Farmer and Sheep Feeder. A bulletin of the South Dakota Experiment Station says: 'It is a desirable fact and one that does not speak well for the enterprise or intelligence of either our sheep-raiser or farmer, that of the small number of sheep which are annually sold a large percentage is shipped east in the "unfinished" condition. At the same time hundreds of thousands of sheep are annually sold in the "finished" condition, and it is a fact that entails an actual loss to the producer. In the past and to a large extent at present, our cheap sheep and lambs are annually shipped east at a handsome profit. We are glad to note, however, that some of the more progressive farmers are now availing themselves of these favorable conditions and are thereby realizing handsome profits. We would like to see every farmer who has sheep to go to raising grain, not that all grain farmers should go into the sheep business. Neither do we believe that sheep should be kept as a hobby, but that they should be kept as a business, and that they should be kept in the best possible condition, free from insect pests, and keeping the trunks as free as possible from the attacks of insects. The only safe thing to do is to keep the condition free from insect pests, and to keep the trunks as free as possible from the attacks of insects.'

AGRICULTURAL NOTES.

With a general amount of stock on the market, the dairy cow and her calf have been pulled over for the most part, and have been sold at a profit. The price of the stock has been very low, and it is expected that the price will continue to be low for some time.
