Thirty thousand dollars in all sorts of a mess. Detroit is invited to run for office at the large salary of $3,000 a year, while the liabilities amounted to only $40,000. How the carelessness of the Chicago Napoleons as compared to the New York brethren whose custom has been to pile up liabilities of several millions and to leave assets represented by one emphatic cipher.

From Wilson Churchill's account of the terms President Kruger intends to impose on Great Britain after the surrender it may be inferred that the Boers have since come to see that the only way to secure peace is to make it impossible for England to continue the war. Before the Jameson raid and the Uitlander agitation the Boers had no desire to annex the Transvaal to their own territory. They were content to be left alone to govern it as they pleased. Now they propose to annex it to the Orange Free State, and to form a United South African Republic, which will be strong enough to defy England. The November statement of exports of breadstuffs just issued by the treasury department shows a larger quantity of corn exported in the eleven months ending with November, 1899, than in the corresponding months of any preceding year, and a larger rate per bushel than in any year since 1895. In our day the Bible is assailed by scurrility, by misrepresentation, by unbelieving scientists, by all the vices of earth, and all the venom of perdition and at this particular time even pulpits of the gospel fall into line of confession of the sins of the Bible. What it means to think of a ship in a September equinox, the waves and the fire to the top of the mainmast, and the hatches battened down, and many people coming to the conclusion that the storm is all right, and that the captain says he will see it through. And I have noticed that keelson and counter timber knee are guilt of Lebanon cedar and the is going to be lighting the flames and shouting outside with their axes and saws in hand. Now, this old ship that we are in with the boiling of sin is and beat around the storm and seas and mutiny and
