A Southern trip is an ideal trip when it is taken on the Queen and Crescent Route. Truly the best trip you can take on the Queen and Crescent Route and Southern Ry.

And over a truck that is as sturdy as steel.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a help to get their digestive machinery working properly.

will generally correct the difficulty. If you will put from one-fourth to half a teaspoon in baby's bottle three or four times a day you will soon see a marked improvement in larger children, from a teaspoonful, according to age, dissolved in their milk. If you so desire, will soon show its great strengthening power. If the milk does not nourish the baby, she needs the emulsion. It will show its effect at once both upon the child.

Discovered by a Woman. Another great discovery has been made, that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its sycrastic tests, but her vital forces were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery by purchasing of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved that she took first dose that she slept all night, and with two bottles has been absolutely cured. Her name is Mrs. Lutz. This writes C. Hammond & Co. of Shelby, N. C. Trial bottles free at Whitehead & Mitchell's Drug store. Regular bottles \$1.00 and \$1.00. Every bottle guaranteed.

H. C. Wilson.

A DICTATED LETTER.

When Howard Moore completed his college course he expected to find the world waiting impatiently to avail itself of his services. That he had not prepared himself for anything in particular, he felt capable of doing everything in general. He wondered where he could go to be best appreciated; where, in fact, his learning and uncommon intellect would find the most good.

He was impressively hurt when he found that no one noticed him at all. The crowd jostled him on the street contemptuously, there was no good fellowship abroad in the busy city as far as he could find, no one gave him any dinners, he was not invited to join the clubs, and most emphatically he was not invited to any occupations. He tried to be patient with this unusual situation on the part of Chicago, but it was difficult. He then went outside the city to look for work, but it was not to be found. He was forced to find himself in a way that cost him a great deal of money and the interest of a great many people. He was told to go to the city and look for work, but it was not to be found. He was forced to find himself in a way that cost him a great deal of money and the interest of a great many people.

who his poverty and position proved him at a disadvantage. At last he found a way out of his predicament. He was told to go to the city and look for work, but it was not to be found. He was forced to find himself in a way that cost him a great deal of money and the interest of a great many people.

Over-Work Weakens Your Kidneys. Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers; they filter out the waste and impurities in the blood. If they are sick or out of order, the impurities in the blood are not filtered out, and the blood becomes impure. This impure blood causes a variety of ailments, such as headache, dizziness, and general weakness.
