NEVER OUT OF SEASON.

NEVER OUT OF SEASON. There is no time in the year when the efficacy of any medicine in the civilized world is greater than in the summer months. It is during this season that the system is most susceptible to the influence of the weather, and it is also the time when the body is most likely to become overheated and the digestive organs are most likely to become deranged. Therefore, it is important to keep the system cool and the digestive organs in good condition during the summer months. The best way to do this is to take a course of treatment with a medicine that will cool the system and regulate the digestive organs. Such a medicine is the one advertised in this advertisement. It is the best medicine for the summer months and is the only one that will keep the system cool and the digestive organs in good condition throughout the season.

AN Ounce of Preventive.

AN Ounce of Preventive. An ounce of preventive is worth a pound of cure. This is the motto of the people who are wise enough to take care of their health. The best way to prevent disease is to keep the system in good condition. This can be done by taking a course of treatment with a medicine that will cool the system and regulate the digestive organs. Such a medicine is the one advertised in this advertisement. It is the best medicine for the summer months and is the only one that will keep the system cool and the digestive organs in good condition throughout the season.

MARCH AND APRIL.

MARCH AND APRIL. Are the most disagreeable Months of the Year in the North. In the South they are the pleasantest and most agreeable. The trees and shrubs put forth their buds and flowers, and the birds and insects are busy with their work. The weather is just what is needed for the crops, and the people are enjoying the pleasures of the season. The best way to enjoy the season is to take a course of treatment with a medicine that will cool the system and regulate the digestive organs. Such a medicine is the one advertised in this advertisement. It is the best medicine for the summer months and is the only one that will keep the system cool and the digestive organs in good condition throughout the season.
