There are lots of tasks going through the country now and the farmer should give them a wide berth as they particularly like to work the farmer because they have a better chance to get away before being discovered than they would in town. The best way is to buy from those you know and who are here to buy your produce as well as to sell you goods.—Ex.

At the shoot given at Pontiac Thursday of last week by the Pontiac Shooting Club, E. E. Daniels won the Oakland county gold medal. Should he win it twice more in succession it becomes his property. The south 4 Gardner Lake, now owned by his daughters, Mrs. M. Frances O'Brien, of Detroit, who has got the property in fine shape for the market. Lots are being rapidly taken up and it is an unquestionable fact that most desirable lots on the Bank and Whitehead about it.

That most desirable lots on Nature for spring are becoming in Kentucky with the rain clouds for her water buckets and the woods for her gems. And that's just the season invitations through the Courier Journal the girls to come and spend the summer in Kentucky. The invitations are sent out in March and are accepted in April and May and by June the house is full of visitors.

The above is quoted from James Lane Allen's exquisite little book, "A Kentucky Cardinal," a book that has been many times called for and is now in the library.

David Lowe, who lives two miles west of this place, met with a painful accident, one that will confine him to the house for some time, on Saturday last. While drawing wood in the woods on a sleigh, Mr. Lowe, thinking that the load was going to upset jumped and in some way struck the sleigh in such a manner as to cause a dislocation and fracture of his knee cap. Interment in Oakland cemetery.

Charles Rose, of Detroit, spent Sunday last with his family at this place. Mr. Rose is one of those jolly birds that is a ride to the ground at the sound of chances to be slept underneath the Exchange Bank and are often seen during the summer months. Last year this one should come out of his den at this time of the year is a mystery that Mr. Hibernal would like to have solved. Perhaps it thought it was time to appear and look for its shadow. Years ago it was very lively and after a brief visit to the outside world hibernated for a year under the ground. Just keep track of the weather for a few years and perhaps a theory of the same sign may be established.

Friday night of last week the Ladies Foresters of this place gave their first entertainment and ball. The entertainment was a success in every particular, a good program being rendered by home talent. Dancing followed and those present report a most enjoyable time. Cards and refreshments were served at 12 o'clock, after which dancing was resumed and kept up until the wee sma' hours. The boys are to be congratulated on the success of their first effort and hope to be favored with their presence at the next entertainment and ball.

How a Chinaman Says It.

The difficulty of understanding just what a Chinaman means by what he says or rather how he says it, was illustrated in a street car in Portland one morning recently. An Irish woman was aboard the car, in which there was no one, when an amiable looking celestial in native dress entered. He took a seat near her, briskly rubbed his hands and remarked: "It's cold this morning." She glared at him a moment and then retorted shrilly: "Tuck your shirt tail inside your trousers, ye heathen, and see if it won't be cold."
