Washing Hogs.

In the hygienic management of the horse it has been found that the best result is obtained by washing the horse only once a week, or at least once a month. This is a subject that so far as we are aware has not been sufficiently considered. The treatment of management of hogs. The stomach of the pig is somewhat similar to that of the horse, so that it requires comparatively small amounts of food at frequent intervals. Its capacity is but from one and one-half to two gallons and, like that of the horse, very clean.

CITY SQUARE DETROIT

PERSONALS. The election of Judge Hamilton McPherson to the position of president of the American Southern railway is a compliment fully appreciated by his many southern friends. He has shown himself to be a railway manager of high caliber. His friends claim for him that he is the only one who has shown himself to be a railway manager of high caliber.

QUESTIONS ANSWERED.

Yea August Flower will do the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Biliousness. Doctors were wiser, and they add to the benefit of Aspinwall, Nervous Prostration or Heart Failure, etc. They used August Flower to get them out of the system and settle down to a regular routine of unadvised food, regulate the action of the liver, stimulate the nerves and bring about the action of the system and that is all they can do. No other in Europe is said to have done so well. The fact is that the American people are becoming more and more acquainted with the fact that the United States make their living from the growing city industry.
