CAUGHT BY THE GRIP.

Released by Pe-ru-na---Congressman Howard's Recovery---Congressman Geo. H. White's Case

La Grippe is epidemic entails it appears in the form of influenza. It is the first time I ever had the grippe and it caught me when I was not prepared for it. I was sick in bed for a week and was under the care of a physician. Some one recommended Peruna to me and I began taking it. I have used two bottles of Peruna and am entirely well. I am now able to attend to my business. I cannot say too much in favor of Peruna.—Mrs. Mary Wagner, 1 Ogden Ave., Chicago, Ill.

Have you the grippe? Or have you had it? Or are you afraid you will have it? The grippe is epidemic. Everybody has been afflicted by it, or has been afraid he would be. Many a man has been heard to declare that he would rather have had the smallpox than the grippe. Many a man who thought he was immune has been caught in the fatal clasp. Men, women, children—all are vulnerable, and all are caught in the baneful grip of a terrible monster.

Peruna For Grippe.

Mrs. Dr. C. D. Powell, President of Epworth League, Secretary of Local Temperance Society, Member Christian Woman's Board of Missions, Walla Walla, Wash.

"I have used several bottles in cases of severe colds and la grippe but none I consider of more value than Peruna."—Mrs. Dr. C. D. Powell.

After Effects of La Grippe.

Miss Emma Bowie, President Golden Rod Sewing Circle, writes from 4 Hurlbut street, Chicago, Ill., as follows:

"This spring I suffered severely from the after effects of la grippe. As the doctors did not seem to help me, I bought a bottle of Peruna. It did Emma Bowie.

Congressman Howard's Letter.

Fort Payne, Ala.

The Peruna Medicine Co., Columbus, Ohio:

Gentlemen—I have taken Peruna now for two weeks and find I am very much relieved. I feel that my cure will be permanent. I have also taken it for la grippe and I take pleasure in recommending Peruna as an excellent remedy to all fellow sufferers."—M. W. Howard, Member of Congress.

La Grippe Leaves the System in a Deplorable Condition.

D. L. Wallace, a charter member of the International Harmony Union, writes from 15 Western avenue, Minneapolis, Minn.:

"I am so nervous and wretched." "I feel as if I should die." "How familiar these expressions are! Little things annoy you and make you irritable. You can't sleep, you are unfit for ordinary duties, and are subject to dizziness.

That bearing-down sensation helps to make you feel miserable.

You have backache and pains low down in the side, pain in top of head, later on at the base of the brain.

Such a condition points unerringly to serious uterine trouble.

If you had written to Mrs. Pinkham when you first experienced unusual vitality, you would have been spared these hours of mental suffering.

Happiness will be gone out of your life forever, my sister, unless you act promptly. Procure **Lydia E. Pinkham's Vegetable Compound** at once. It is absolutely sure to help you. Then write to Mrs. Pinkham, at Lynn, Mass., if there is anything about your case you do not understand.

You need not be afraid to tell her the things you could not explain to the doctor—your letter is seen only by women and is absolutely confidential. Mrs. Pinkham's vast experience with such troubles enables her to tell you just what is best for you, and she will charge you nothing for her advice.

Mrs. Valentine Telis of Happy Results Accomplished by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—It is with pleasure that I add my testimony to your list in praise of what I consider the best blood purifier and female remedy. Before taking **Lydia E. Pinkham's Vegetable Compound**, I felt very bad. I was terribly nervous and tired, had sick headaches, no appetite, grieving pain in stomach, pain in my back and right side, and so weak I could scarcely stand. I was not able to do anything. Had pains all the time in my body. Before I had taken half a bottle of your medicine, I found myself improving. I continued to use until I had taken four bottles, and felt as well as I ever did. I did not need to take more. I am like a new person, and your medicine shall always have my praise." Mrs. W. P. Valentine, 926 Ferry Avenue, Camden, N. J.

$5000 REWARD

We have the fact that some skeptical [illegible] have deposited with the National City Bank, Lynn, Mass., a sum of money, which will be paid to any person who will show that the above testimonial is not genuine, or was published without our authority.

CHAPTER IX.

"You are she

It was a very happy evening that was the only occasion who lived

Beryl spent at Dynecote. Mrs. Dynecote had wanted to forget she was

tion, for you are the first visitor we have had to stay in the house for years."

Mrs. Dynecote's welcome was almost motherly in its goodness, but it was Harold's greeting which went straight to Beryl's heart. She happened to be alone in the oak parlor when he came in, and as he took her hand he said gravely:

"Remember, no one here knows your secret; no one ever will know it from me; but if it is learnt from another source there will be comment at, as I do not wish you are Aunt Nina's

NEW BREAD AT PARIS.

Long Loaf Flour and Country Is Forbidden.

Optical Phenomena of the Sky.

Professor C. F. Brackling, in continuation of his course on light at the Worcester Free Institute of Science, spoke on "The Optical Phenomena of the Sky," says the Philadelphia Times. Professor Brackling described and explained the rainbow, the color of the clouds, halos and the mirage. In explanation of the color of the sky he said:

"When light falls upon a surface which is large in comparison with the wave length all waves are reflected equally. If, on the other hand, the reflecting surface is small in comparison with the wave length the short waves will be more reflected than the long waves. When sunlight falls on the air, which always has small particles suspended in it, the longer waves, the yellow and red pass through and the shorter waves are reflected. Hence the sky is blue by reflected light, varying in color with the dimensions of the suspended particles. The longer the path of the light through the air the farther towards the red end of the spectrum does the color of the transmitted light move. For this reason objects at sunrise and sunset are red. The scattering effect of particles explains the blueness of smoke and of fogs when seen against a dark background."
