

EXPOSITION FIGURES.

SOME ASTONISHING FACTS ABOUT THE PAN-AMERICAN.

Niagara Falls Will Supply Power, and Over 500,000 Electric Lights Will Be Used in the Illumination of the Tower and Courts.

Forty million people live within a night's ride of Buffalo. It is expected that a large proportion of these will visit the Pan-American Exposition at some time during its progress. Many will visit it for the first time or more than once. Niagara Falls will power a great part of the illumination of the exposition. The Niagara Falls Power Development Company has secured the rights to the falls for the purpose of generating electricity for the illumination of the exposition.

Two thousand independent lamps will be used in the illumination of one feature of the Midway across the Thompson-Alexander. A main cable will be used to support the lamps. The lamps will be arranged in three main lines. The lamps will be arranged in three main lines. The lamps will be arranged in three main lines.

LASSEND DOGS.

The dog catcher of a town in the Indian Territory can give a city dog catcher cards and spoils, and then beat him as a catcher of canine crime. An expert cowboy hunts dogs as he does cattle. He ropes them the same way. Clad in a pair of buckskin trousers and wearing a big sombrero with rope in hand or in the saddle horn, and a six-shooter in his belt, he starts down the street on his broncho looking for dogs. As he approaches which has no legal right to roam at large he slips the spurs to his pons-grabs the rope and begins operating. He usually ropes the dog around the neck, draws him to the pony's side and shoots him. He then stuffs the carcass into a sack attached to the saddle and gallops off after more game.
