

# The Scourge of Damascus

A Story of the East... BY SYLVANUS COBB, JR.

CHAPTER IV  
When the king left his affianced bride he was only perplexed, and the longer he reflected upon what had transpired the deeper grew his rage and chagrin. He was alone in the garden when the sun had set and then he would have been glad to have been left alone.

At length, when his thoughts were again upon the Scourge of Damascus, he had committed to his hand a paper which he had written and which he had folded and fastened with a waxen seal.

He had done a desperate thing, more so than that he had written it, for he had told the king's secret to a woman who had been his enemy from the day she had been his wife.

It was a long time that he sat in the garden, his head buried in his hands, and his heart full of sorrow and anger. He had done a desperate thing, more so than that he had written it, for he had told the king's secret to a woman who had been his enemy from the day she had been his wife.

At length, when his thoughts were again upon the Scourge of Damascus, he had committed to his hand a paper which he had written and which he had folded and fastened with a waxen seal.

News and Views  
Nordan Assails Traits.  
Dr. Max Nordan, who has lately turned his attention to the consolidation of large corporations of capitalists and the control of the world's wealth, is one of the most skillful and learned physicians of Europe. His very widespread fame is due, however, not to his scientific ability, but rather to his habit of speaking as an author. In 1883 he attacked and delighted two continents with his rare abstruse book, "Conventional Medicine," published in London and New York in 1893 and in 1903 the work in which he attacked the medical profession. His book, "The Medical Profession," is a masterpiece of logic and reasoning. It is a book that should be read by every physician and every layman who is interested in the health of the human race.

TOO MUCH FAULTY ENGLISH  
People Have Taken Notice in Their Foreign Travels.  
The English language is the most widely spoken in the world, and it is the most important for the traveler. However, it is often spoken with a faulty accent and with a vocabulary that is not always correct. This is especially true of the American English spoken in the United States. The traveler who speaks with a faulty accent and with a vocabulary that is not always correct will find it difficult to be understood in foreign countries. It is therefore important for the traveler to learn to speak English with a correct accent and with a correct vocabulary.

WOMEN SHOULD BE BURIED.  
The burial of women should be a matter of public concern. It is a matter that has long been a subject of controversy. She Suffered for Years and Felt Her Case Was Hopeless—Cured by Fer-ru-na.  
Mrs. Judge McAllister writes from 121 West 33rd St., Minneapolis, Minn., as follows:  
I suffered for years with a pain in the small of my back and right side. It interfered often with my domestic and social life, and I never supposed that I would be cured as the doctor's medicine did not seem to help me. I was finally advised by a friend to try Fer-ru-na, and I did so. I felt so much better in a week that I felt cured.

Her life against accepting these substitutes. Insist upon having Fer-ru-na. There is no other internal remedy for leucorrhoea that will take the place of Fer-ru-na. Allow no one to persuade you to the contrary. If you do not derive prompt and satisfactory results from the use of Fer-ru-na, write at once to Dr. Hartman, whose address is in full statement of your case, and he will be pleased to give you his valuable advice gratis.

Short-Lived Insects.  
The life of a perfect insect is usually very brief, of all the myriads of bug, beetles and moths, bees and wasps flies and beetles which make up one of the most marked features of the summer, the vast majority will die before the season is over. A mere handful will survive into next year, while few indeed are those that will live to see a second summer. The duration of the larval state is much longer. The dragon fly nymph, as it is called, lives 10 months in the water. The perfect insect that emerges from it has only a few weeks at most, of sunshine and the upper air. There are flies which live only for a single day, flying in that time no food, having to die, no mouths by which to take it.
