

BY LAND FROM PARIS TO NEW YORK.

Harry De Witt and his companions, who will attempt to reach New York by traveling overland, have started from Paris on their way to Behring strait.

How the Governor Was Received. When the governor of Newfoundland, Sir Henry McCallum, K. C. M. G., went ashore at a small harbor of the east coast he was met at the landing place by a grizzled old fisherman, who sought to make the stranger welcome, whoever he might be.

How the Timber Wolf Preys. The keepers of Belle Isle park, at Detroit, recently had an opportunity to see how the timber wolf gets its food when wild. A peacock got out of its pen and after flying some distance, started to alight in the section fenced off for the timber wolves.

Steel in Ocean Liners. The boiler tubes of a liner, if placed in a straight line, would reach nearly ten miles and the condenser tubes more than twenty-five miles.

"Surrender Tree" in Cuba.

During his recent visit in Santiago General Wood brought for the government the principal part of the San Juan battlefields including San Juan Hill, the site of the clubhouse and Bloody Hill. The tract comprises 200 acres and cost \$15,000.

It will be considered a United States reservation, and the government intends to lay out a beautiful park on the old battle field.

Formerly most opals came from Hungary, and more recently from Mexico, in 1889 an Australian hunter, while pursuing a wounded kangaroo, came across an opal. Since that time Australia has yielded nearly \$2,000,000 worth of that gem.

Gold Dredging in the Ural. Gold placers have been working in the Ural and in Siberia for several years, but with rare exceptions no efforts have been made to extract gold from the gravel lying below the level of the surface water.

German Engineer in Paris. Paris leads the world in dressmaking. It is estimated that there are 75,000 persons employed in the dressmaking establishments of the city, and it once includes the workers who design and make the materials used by the dressmakers, about 140,000 persons are engaged in the business.

Formerly most opals came from Hungary, and more recently from Mexico, in 1889 an Australian hunter, while pursuing a wounded kangaroo, came across an opal.

THE TIME TO LAUGH.

Some good jokes, original and selected. Where the Higher Education Was Disputed. A Successor—Why He Was a Green Grocer.

How the Governor Was Received. When the governor of Newfoundland, Sir Henry McCallum, K. C. M. G., went ashore at a small harbor of the east coast he was met at the landing place by a grizzled old fisherman, who sought to make the stranger welcome, whoever he might be.

Not His Past at All. They were nearly married and she was much too young to understand why a man takes little interest in shopping expeditions.

The Ring to Him. Con Sec—'I'm offered one to Miss Roxley last night and she wouldn't have it at all.'

Higher Education. They tell me, Miss Newton," said Professor Thinkington, "that your brother is making a great name for himself at the university."

Over Floss. "Very fond of dress, isn't he?" "Yes, and in that respect he's the most peculiar fellow I know, most remarkable in fact."

Prepared for the Worst. A digger in a western Australia town considered a doctor and then went to get the prescription. "How much?" he asked the chemist.

A Practiced Feature. "Do you think that any flying machines will ever be commonly employed?" "I am sure of it," answered the inventor.

Destitute Fortune. "But these chairs," she said, "however fashionable they may be are very uncomfortable."

Mistaken Identity. "I should think the Spink girls would feel their disgrace. Their father has been arrested."

Real Estate Exchange

Of Whitehead & Mitchell at the Exchange Bank, Birmingham, Mich. The following is a partial list of farms, city and village lots and real estate generally which we have for sale.
