

# Board of Arbitration To Settle Labor Dispute.

The appointment by President Roosevelt of a board of arbitrators to decide between operators and miners brought to an end the long and costly strike in the Pennsylvania coal regions. The decision of the board is to be final. It personnel is as follows:

General John M. Wilson ("an officer in the engineer corps of either the military or naval service of the United States") is the late chief of the engineer department of the United States. He was born in 1837, was graduated from West Point in 1860, entering the artillery branch of the service. He was transferred to the engineers in 1862. He reached the grade of lieutenant colonel at the end of the war, although in the war he was brevetted colonel of volunteers for gallantry in various battles. For thirty years he has had charge of engineering work on rivers, harbors, canals and other public enterprises.

**Good Memory for Faces.**  
The late Lord Charles Russell had a wonderful memory for faces. On one occasion he visited a theater in Manchester and between acts went behind the scenes to see an old friend. While they were chatting and after passing Lord Charles said to his friend, "I remember that man in the Colleen Bawn." I saw that character the night the play was produced twenty years ago. Lord Russell had not seen the actor in all that time he remembered him at once.

**Wassur Graduate's Good Luck.**  
A Vassar graduate of 1889, Miss Helen D. Thompson, is turning her knowledge of sanitation and social work to the advantage of a whole community at Orange, N. J., where she has been introduced twenty years ago. Her efforts to instruct people in unsanitary surroundings in better ways of living have not with success where men have failed in their attempts.

**Kaiser Gives Away Cigars.**  
At the annual dinner of the miners, near Frankfort-on-Oder, the Kaiser distributed a number of his private brand of cigars to soldiers, sailors, officers and pickets. When he found an isolated soldier, he stopped a moment, had a chat with him, and left behind one of his cigars.

**The Largest Cave in Europe.**  
In the mountains of Schwarzwald, Switzerland, there is probably the largest cave in Europe. The existence of the cave had long been known, but it was not until 1898 that the discovery of one had been made. The cave is about a mile long and is divided into three parts. The first part is a large chamber, the second is a narrow passage, and the third is a large chamber. The cave is filled with stalactites and stalagmites.

**Better Than the Genuine.**  
The philosopher Epictetus found his daughter in tears. When he asked her why she was crying, she replied that she was weeping because she had married a man who was not Epictetus.

**The Father of Standard Time.**  
At Saratoga a few days ago the Rev. Charles F. Johnson, a member of the Rev. Mr. Johnson's congregation, was preaching in that state for thirty-five years, had eight sons in the Union army during the civil war. Six were killed in the service.

**Did Well for Union Cause.**

**Bishop's Brother Writes Opera.**  
Edward T. Potter, a brother of the bishop of New York, has written an opera, two acts, and is writing a third act or two in his residence at Newport, R. I. Professional musicians pronounce it clever.

# WHAT MADE IT VALUABLE MORMONISM OF TO-DAY.

How Polygamous Relations are Maintained in Utah.  
The "thrifty" practice" of polygamy among the Mormons, which appears to be in dispute among some of our correspondents, is presumably contained in some of the passages from a letter in which Mrs. J. K. Lawson, who is sending her "Impressions on a visit to Salt Lake City," describes a visit to Salt Lake City. A person with whom she discussed this subject, said:

"It is not that I was before the law forbidding it was passed. Only it is now shunned instead of open. I'll tell you how it is. A man can have as many wives as he likes, but he can have another wife in another house—the next door over the way, and so on. As a friend of mine who wishes to be a Mormon on business was directed to a house in the suburbs—one of five adjoining houses, he was told that he must live in the same house as his wife. 'Does Mr. So-and-so live in this house?' he inquired of a little boy on the doorstep.

"Does Mr. So-and-so live in this house?" he inquired of a little boy on the doorstep. "Yes," said the boy, "he lives there." "Does Mr. So-and-so live in this house?" he inquired of a little boy on the doorstep. "Yes," said the boy, "he lives there."

How to stop betting? Only by the evolution of a code of public sentiment which made it a misdemeanor to gamble for profit or for pleasure, and which made it a crime to be a gambler.

Could Have It All.  
Secretary Windom's Liberal Offer to Governor Hunter.

A charitable story told concerning the late Secretary Windom, who was held in an unusual extent in New York to be in possession of a proposed piece of important legislation in the interests of which a very well-looked lobby was at work.

"Thank you," said Mr. Windom, "I should so much like to have a souvenir of you to take home to my wife."
