# WHEN YOU PAY

A low price for a gallon of paint you can depend upon it that you are paying altogether too much for what you are getting. Cheap paint is worse than useless. All the ingredients that enter into first-class paint are expensive and when you buy cheap paint you are buying a mixture of adulterants which common sense will teach you cannot last like the genuine. A well painted house is an ear-mark of success and prosperity, and confidentially we believe that everyone will think the better of you, if you have nice, clean, fresh, handsome paint on your buildings.

**Detroit White Lead Works' Best Liquid Paints** stand at the head of the list of good paints and we will take pleasure in showing you the experience we've had with their paints.

**BIG BEAVER.**

Comers and Goers—Heavy Electric Storm  
A Freak of Nature—Death of a Well Known Lady—Sad Death of Mrs. Harris.  
Mrs. Fisher is slowly fading.  
Rev. L. H. Houghton filed the pulp at Warren last Sunday.  
George Terry has returned from an extended visit to his daughter in Gratiot county.  
There's a great attraction over at Birmingham now for Grandpa and Grandma Houghton.  
Will Ebling expects his sister, Mrs. Jennie Morse of Belding, for a visit the latter part of this week.  
Mrs. G. L. Gibbs visited friends in Birmingham last Friday.  
Mrs. Oscar George and Mrs. George Switzer of Rochester were guests of Mr. and Mrs. Henry George one day last week.  
The W. C. T. U. will meet with Mrs. Quick next Tuesday afternoon.  
Miss Iceleno Houghton spent last week with friends in Birmingham and Clawson.

Your correspondent "got track" the other day of a four-legged chicken and concluded to follow it up. Had the chick been scratching for worms in the garden this might have proved a difficult task, but as much as it was bottled in alcohol all he had to do was to ask to see it at the home of Clark Harris. We had heard of such freaks of nature but he had not heard even one. This is the real thing, of the crop of 1902. The legs are attached to the body at the appropriate "four corners" like any other quadruped, and the superfluous members do not take the place of wings as the latter are properly developed also. The oddest thing is that the hind feet front forward and the front feet back forward.

Your postmistress, Miss Bingham, received the sad intelligence one day last week of the death of her aunt, Mrs. Lizzie Patterson who lived in New Jersey. A strange coincidence was the fact that it was just eleven years ago that day that Miss Bingham received the announcement of the death of her uncle, Mr. Patterson. Mrs. Patterson was well known in this vicinity, making frequent visits to this place, and was anticipating a visit here this season when death overtook her. Her older sister, Mrs. Patterson, who is now in the hands of the commission, was also present at the commission's were conducted by their absence the next time such a meeting is requested by the tax commission, it is fair to presume that the tables will be turned.

The annual mite box opening of the Home Missionary society which was held at Mrs. Houghton's, as announced, proved a very interesting occasion. The principal feature was the opening of the boxes and counting the money which they contained, which amounted to \$22. This is the largest amount yet raised by the society in this manner. There are only fourteen members in the society but several friends of the society took boxes and one of these, filled by Miss Pepper of Birmingham, contained \$5.

The worst thunder, lightning and Carrie Nation storm of the season visited this place Sunday night, May 8. The lightning followed the general wire into L. H. Houghton's general store, frolicked with the telephone instrument and cracked the 8-foot cellar wall from top to bottom. It is a great wonder that the building did not catch fire.
