IN HARVEST DAYS  
BY LENA G. BROWN

"I gather them in, I gather them in, in the nook and cranny of the vine. And their stalks are glancing here and there. While they bid their shaves with parasols. And their feet are in the grass. They dig over again the harvest. And I gather them in, I gather them in."

**All Were Saved.**

"For years I suffered such untold misery from Bronchitis," writes J. H. Johnson of Ironton, Ga., "that when I was unable to work. Then when everything else failed, I was wholly cured by Dr. King's New Discovery. It cost me \$10.00. My wife suffered intensely from Asthma, till it cured her, and our experience goes to show it is the best cough medicine in the world." A trial will convince you it's unrivaled for throat and lung ailments. Guaranteed bottles for \$1.00. Trial bottles free at Whitehead & Mitchell's and Cobb & Cobb's drug stores.

Would you think that anyone in this civilized community would buy a bag of peanuts, go to the cemetery and there scatter bag, peanuts and etc., for some one to pick up? But they do.

The W. H. & F. Missionary society of the Presbyterian church will meet with Mrs. German next Wednesday afternoon. Subject, "The Philippines." All the ladies of the congregation are invited.

Miss Belle Ward's Sunday school class of the Presbyterian church will sell lemonade on the lawn of John Hanna's store, for the benefit of the church, Saturday evening. All visit them and help along a good cause.

Mr. and Mrs. Wiley Peirce of Detroit were the guests of Mr. and Mrs. James Cobb and other friends in town last Friday and attended the farewell reception to Prof. Wald, under whose auspices Mr. Peirce graduated.

L. I. Houghton of Big Beaver was a Sunday guest in town. We are pleased to learn that Mr. Houghton, who has been so severely afflicted for nearly three months through an injury to her hip, is improving and has begun to get around the house on crutches.

The reception tendered to the families of Mr. Wald and James Brooks at the M. E. church last Friday evening was a delightful occasion and largely attended. The Sunday school room was beautifully decorated. The refreshments consisted of ice cream, cake and lemonade.

Miss Ethel McVein of Pontiac township visited \$200.00 from the Detroit United railway as part compensation for being nearly killed by one of the company's cars last fall. She alleges that the car was "scratching" within the city limits at the rate of 90 miles an hour when the allowable speed is only eight miles.

Rev. M. H. Bartram and Rev. Maxwell Maxwell made their annual exchange of pulpits last Sunday, Mr. Bartram preaching at Mr. Maxwell's morning and afternoon appointments and Mr. Maxwell preaching in the M. E. church morning and evening. Pastors and people were both well pleased.

We received a short call on Tuesday last from Alderman McKee of Lansing. "Billy" is one of the capital city's best, has accumulated a snug fortune, owns seven houses that he rents, owns a fine farm of 137 acres, a family of two good boys and the best wire in Michigan. Now what more can be asked in this life!

The first birth recorded in the Oakland county jail occurred on July 19. The mother is Eva Ross, the fourteen-year-old colored girl who is being held as a witness in the case against Rev. Joseph St. John of Cole Station. The case, which is a most revolting one, is of a nature that reminds one of the curse of slavery days.

The choir of St. James' church will take a trip to Sugar Island, Friday, August 8th, leaving Birmingham at 8:30 and Detroit at 9:30 a. m.; returning, leaving Sugar Island at 6:30 and Detroit at 9:00 p. m. Friends of the choir wishing to attend can procure tickets from members. Adults' tickets 35c; and children's 25c.

Last week Mr. Arthur J. Beer, wife and daughter, a bright young Miss named Florence, of Anadilla Pa., were the welcome guests of Mr. and Mrs. S. C. Mills. Mr. Beer was in business in Birmingham twenty-five years ago and since leaving has been greatly prospered, and we are glad of it for he always was good Beer.

Apple growers are advised by the buyers to spray and otherwise care for their trees, as it will undoubtedly be labor well repaid, for the fruit will all be needed this year. The crop of apples in the east will not be nearly as large as was expected, as advices from there state that much damage was done by frost and ice about the 8th to 10th of May, which will curtail the output.

The railroad scene in "The Heart of Chicago" is one of the most complete efforts at realism ever put on the stage; the engine is seen advancing upon the audience for ten minutes. It grows from an imperceptible speck on the horizon to an almost full sized engine when it reaches the foot lights. "The Heart of Chicago" will be the opening attraction at the Whitney theater, commencing with a matinee text Sunday.

Henry Quick of near Ortonville, who was so great a sufferer from the cyclone of 1896, is dead. Mr. Quick's house was entirely swept away and his wife, his son Abraham and three grandchildren were also killed. Mr. Quick was in an outside hatchway at the time of the cyclone, having gone down to close

a door when he saw the storm approaching and although covered with debris from his ruined home, he escaped unhurt.

Last Tuesday afternoon there was a pleasant gathering at the home of George Caswell. The house was decorated with wild flowers and potted plants. Miss Inez Estelle Caswell gave a "poppy tea" in honor of her friend, Mrs. Purcell of Schoolcraft. Covers were laid for nine, and the prevailing flowers were poppies. Guests from Pontiac, Detroit and Kentucky were present, and notwithstanding the soporific effects attributed to poppies, everyone had a delightful time.

Dr. Holcomb of Farmington orders that his reputation has suffered to the amount of \$5,000 on account of remarks alleged to have been made by Mrs. Grace Skinner of the same place and has instituted a suit for that amount in the Oakland courts. The charge alleged is that the defendant has asserted that the plaintiff is only a horse doctor and a dog trainer and not fit to doctor people, and thereby injured his practice. It is not often that a woman's utterances are estimated at so high a figure.

It is a remarkable fact and one that does not seem to find a logical explanation, that while the people of Detroit and Pontiac are complaining of the unusual size and severity of this season's crop of mosquitoes, reports say they never knew a summer when the insect pest was less troublesome. It is, in fact, only after a hot sultry day that the mosquitoes are making their presence felt at the lakes and then their welcome visits seldom last over an hour.

On Sunday, August 3d, there will be the usual morning service at St. James' church with the sacrament of the Lord's supper. In the afternoon, at 4:30 o'clock, there will be a special service, at which an address will be delivered by Mr. George Chisler, who has been recently appointed to accompany Bishop Knox of Alaska on his perilous journey through that country. Mr. Chisler leaves for his work on August 15th. The Rev. John McCreel will also be present. He is Dean of the Detroit Convocation. Miss Barrett of Detroit will sing.

This is certainly the age of organizations, and now the boss barbers of the state of Michigan will hold a meeting at Lansing, September 17, to organize a state association. The object of the association will be to better the barber trade by improving the condition of all shops and also the grade of work. In addition to this there are a number of measures relative to the barber's trade that ought to be passed by the legislature, but up to this time it has been impossible to have them properly presented, owing to the lack of organization on the part of the boss barbers.

Commenting on the advantages of eating nuts Emile la Croix, in an address before the vegetarian society the other day, said: "You have heard bread spoken of as 'the staff of life,' but I think it should be called the 'club of death.' It is full of calcium matter, which goes into the arteries and clings to the walls. The reason why you are still in the morning when you wake is that your pulse has been beating slowly during the night and has not wasted away any of this calcareous matter. It is necessary for fowls because they lay eggs with hard shells, but not for man."—Argonaut.

The slickest outing this summer, at very little cost, will be given Saturday, Aug. 9, by the base ball team of the Detroit White Lead Works' employees, who will give an excursion to Sugar Island. Fair from Detroit to Sugar Island and return will be 35c, and children 25c. There will be a rousing ball game at the island and a fine band on the boat, and anyone around this section who intends to take a day's vacation during the hot spell can't plan better than to visit in this cheap trip. The boat (Wyandotte) leaves the foot of First st. at 9 a. m. We are going. We faint says the boys who are getting up the excursion and it will be a jolly good thing from start to finish.

An exchange calls attention to the fact, which is well to remember just now, that a damp cellar is a menace to the health of the family above. Not only does it afford conditions favorable for the culture and spread of the germs of malaria and typhoid, but the chill moisture from it may permeate the house aiding from on attacks of rheumatism. Moreover, the presence of foulness in the atmosphere has the effect of lowering vitality and predisposing the inmates of the house to contract almost any disease. Many physicians, puzzled at first in the attempt to account for a family's ill health or slow progress under treatment, solve the mystery by opening the cellar door and getting a whiff of the unsanitary material imprisoned there.

Swindlers carrying several thousand dollars' worth of notes and contracts are working the farmers of central Michigan. Possibly some of our readers may have cause to remember that eighteen years ago agents of a hedge fence company of southern Michigan sold thousands of dollars' worth of hedge fence through Michigan for \$1 per rod, agreeing to cultivate the fence at four regular periods and plant it in a way to make it stock proof, taking the purchase price in four installments. They made two visits, as per agreement, and then the company failed. The fences were not kept up and many of them were pulled out. The notes and contracts now turn up in the hands of speculators, who are traveling over the country threatening the farmers with court proceedings unless they settle, notwithstanding the fact that a deed was outlawed years ago.

Doubtless many of our readers have asked with us why it is that so many people are suffering nowadays from appendicitis and have to submit to operations, when there was formerly nothing of the kind was known. A prominent physician is quoted as answering the question in this wise: "This disease has been in the world ever since Adam was. Perhaps that story of his losing a rib may have arisen because he was operated on for appendicitis. When your grandfather was a boy his neighbors had it all around him, and so they did when you were a boy. But they called it inflammation of the liver, stomachache, acute indigestion, bowel trouble or something of that sort. The patient got well or died, but no one ever opened him when living to see what the matter was. Perhaps it is as well that they did not, for much of the surgery of those days was more dangerous than yours."

**Look Pleasant, Please.**

Photographer C. C. Harmon, of Boston, Okla., is so now, though for years he had been in southern and northern Michigan from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a God-send to suffer from indigestion and stomach troubles. "I suffered for diseases of the Stomach, Liver and Kidneys. They build up and give tone to the whole system. Try them. Only 50c. Guaranteed by Whitehead & Mitchell and Cobb & Cobb, druggists."

**TRIALS OF A LADY EDITOR.**

Houston Post Describes Her Dispar When Abused in a Newspaper Controversy.

The beautiful young girl who had graduated a year ago from the University of Iowa, rushed into the family sitting room, and flung herself with a storm of sob, upon the sofa.

"What is the matter?" asked her father, soothing her gently. "Has anything happened to discourage you?"

" Papa," said the maiden, raising her eyes to his face, "I am not discouraged, I am forever. When you allowed me to purchase that weekly newspaper, I thought that no occupation on earth could be so noble, so elevating and powerful to scatter good and wisdom throughout the world. When I began editing the paper, everything appeared bright and rosy."

"My editors were praised by the entire state press, and I got flattering words of encouragement from every large station. I was only too proud of the fact that, although a woman, I had been admitted as an equal member of the great brotherhood that exercises such an influence upon the minds and morals of the people. Last week I wrote a gentle criticism of an article that appeared in a little weekly. To another country. This paper is what I find in the next issue of that horrid paper."

The lovely girl handed her father the paper, and he read the following: "We would say to the loathsome, acknowledged, puffed-up, black-headed editor of the Weekly Herald, keep your shirt on! The disgusting idiotic drivel that emanates from the clapped-out, squirrel-headed, slab-sided puddle duck that scribbles paper for fact and newspaper journalism should get a pair of bookskin, kickpaw, or else quit scribbling such jobs of back-headed putrefied slime as decent papers. If the hump-backed putty-faced vermin referred to doesn't like our remarks, we will call any day and scatter a few locks of hair and brass buttons around his neck. Herald office, or forfeit a year's subscription."

" Papa," said the girl graduate, in a small but decided voice, "I want you to get me a cookbook and some long apron. I'm going to stay at home and help mother about the house."
