THE BIRMINGHAM ECCENTRIC

ONE DOLLAR PER YEAR IN ADVANCE
WHITEHEAD & MITCHELL, PUBS.

BIRMINGHAM, FRIDAY, JAN. 30.

To Our Friends.

When trading with any of our advertisers either in Birmingham, Pontiac or Detroit, it will be a great favor to us if you will mention the fact that you noticed their advertisement in our paper. A word from you at the time of trading, costs you nothing and benefits us greatly. Will you be good and do so?

THE BIRMINGHAM ECCENTRIC.

HOME NOTES.

How's your coal bin?

Born to Mr. and Mrs. Joe Dee on Sunday, Jan. 25, a son.

The next holiday is Washington's birthday, the 22nd of February.

Mrs. J. H. Wilson is suffering from a severe cold and is under the doctor's care.

Miss Alta W. Poppleton attended the charity ball in Pontiac last Friday evening.

The famous Mrs. Jarley with her wax figures will be at the Baptist church soon.

C. H. Hoffman attended the funeral of his aunt, Mrs. High, at Mt. Clemens, Sunday.

Mrs. Jarley will exhibit her famous wax figures at the Baptist church in the near future.

M. S. Michael is going to rent his farm near Sand Hill and will sell his stock and farm implements at public auction Wednesday next, at 1 o'clock. M. H. Blunt, auctioneer

The W. C. T. U. annual meeting and election of officers will be held with Mrs. Dawson next Tuesday afternoon at 3 o'clock.

C. J. Shain is home for a few days' visit. He has a fine position with the Church Drug Co. at Holly and is doing nicely.

Mrs. Quick is a sufferer from an attack of pneumonia. We trust the good lady will have a speedy recovery.

The adjourned annual meeting of the L. L. A. will be held in Library hall this Saturday afternoon at the hour appointed.

Dr. C. M. Leonard of Ishpheming is home for a short visit. He is that city's leading dentist and is making money. Here's our best wishes.

Anyone wanting a horse of any kind will do well to peruse the new ad. of F. E. Brooks in this issue. All kinds and sizes, and you can't get left if you buy any one of them.

It's a cold week when some one does not buy either a disc graphophone or a Victor talking machine at Whitehead & Mitchell's. Machines sold on the installment plan.

Say, do you want a Regina music box, 46 records and a beautiful oak cabinet? Say, do you? Whisper! Call on Mitchell at Whitehead & Mitchell's, hear it, see it and buy a ticket.

The public is requested to attend the Howes entertainment to be given by Mr. Howes, baritone soloist, and Mrs. Howes, reader and impersonator, under the auspices of the senior class of the B. H. S., Friday evening, Feb. 6. Admission 25c.

Last Friday the relatives and friends of Mrs. G. Simpson gave that lady a very pleasant surprise, it being the occasion of her 66th birthday anniversary. She was the recipient of many handsome and useful presents.

Spencer E. Lawrence of Southfield has leased his farm and will sell his stock and implements, also a quantity of household furniture, at public auction on Thursday, Feb. 19, at 10 o'clock. Martin Blunt, auctioneer.

The best hit of the season—the Howes entertainment at the M. E. church next week Friday evening. Mr. and Mrs Howes come highly recommended. The proceeds are to help defray the expenses of commencement.

We heard a good careful farmer who has 400 chickens say recently that eggs at 45c per dozen are no better to the farmer than eggs at 25c or 30c per dozen a year or two ago. Well, the egg question doesn't bother us any more now. We have cut 'em out.

The coal question is the absorbing topic of the day and nights and Sundays. Smith & Co. say they are all in and don't expect to receive any more anthracite before next July. They have used the public fine, have kept the price as low as any dealer in the U. S. and have divided their supply fairly to all.

We recently received a short and pleasant call from Geo. H. Maxwell, who is still with that popular company, the Rose Melville's "Sis Hopkins" Co., and plays the part of Pa Hopkins in his usual satisfactory manner.

Will Brown, florist of Detroit, of the firm of Brown & Northcot, and sister, Miss Lillie Brown, were the guests of their cousin, Miss Tillie Walker, last Sunday. The whole party surprised Mrs. John Baldwin with a short call which was heartily enjoyed by all.

A very beautiful calendar graces our desk sent to us by the secretary of the State Agricultural College, A. M. Brown. It is a fine one and shows up the many beautiful buildings on the grounds, the handsome driveways, beautiful scenery, all enclosed in their 700 acres of land. It is a fine calendar.

The excellent comedy drama "The Minister's Daughter," will be seen at the Whitney theater all next week with matinees Wednesday and Saturday. At the Lyceum teeater the attraction will be George Sidney, the funny little comedian in the "Busy Iz . Usual matinees.

The Ladies' Aid society of the M. E. church will meet at the home of Mrs. Dr. Shaw Friday, Feb. 6, at 2 o'clock. Supper will be served from 6 to 8. Table committee: Mesdames Chatfield, Kerr, Lee, Todd, Uzter, Corson, Blakeslee and Swackhamer.

Sliding down hill is not all fun all the time. Not long ago a little visitor of Dean Johnston, George Gaston, of Detroit, was run into by a fellow slider and his head cut severely. It took three stitches to make gobd and the boy bore it like a hero.

Miss M. Baldwin, with Mesdames Adams of Chicago and Bartram of Birmingham are all nicely housed under one roof in Riverside, Cal., and while they are not worrying about the coal question, the cold weather has to be considered even in Southern California.

Rev. Thomas Middlemiss, a former beloved pastor of the Presbyterian church in this place, died at his home in Alpena last week, after three weeks' illness. He will be long remembered by a host of friends in Birmingham.

Julian Leet slipped and fell in front of the Exchange Bank cutting the back of his head, so that Dr. N. T. Shaw took three stitches to make the good man good again. It was a heavy fall and Mr. Leet was fortunate to get off so easily.

Wesley Beebinhiser, who works on the Watkins farm, received the sad news Saturday night of the probable fatal illness of his mother at Commerce. He started for her bedside hardly in time to be with her at her last moments. Funeral was held Wednesday and was largely attended.

Wes Faint has renewed the covenant again with his old company, the Detroit White Lead Co., and say, if you should see him flying around Detroit with the city salesman working the dealers for sales it would break your heart. Whisper! He goes around the city in his automobile—a red one, too.

Mrs. John Bodine is home again from Chicago, where she passed the winter with Mrs. Percivale Pease who came home with her. Mrs. Bodine will spend a few weeks with her daughter Ida at Ann Arbor. She will then come to Birmingham for a visit, after which she will go 'way down East" and give her sons Allie and Ed a call. Good luck to the good lady wherever she goes

The meeting at the school house was not remarkable for its numbers last Monday night but the consensus of opinion was that the school building must be heated, and a motion to call a meeting to vote on the question of raising $1,300 was carried. This meeting is to be held next Monday evening. All tax payers are urged to be present and voice their sentiments.

What is the matter with the Lansing journalists? On the trip recently to that city not a member of the fraternity showed up. We heard that the president of our organization invited the fraternity to Lansing to accompany us on our visits. Don't the journalists of the capital mix with country printers? We wot not.

The Real Estate business under A. Whitehead's careful eye is moving very lively. John Laidlaw who bid off the Hood place at the auction sale recently, sold it through the Exchange Bank real estate department to Mrs. Julian Leet of Milwaukee and John pocketed a tidy profit in his deal. Mr. Laidlaw also purchased the A. W. Wooster farm in Southfield, sold last week by Frank Denison, administrator.

Lost—on car leaving Detroit at 10 30 a. m., Jan. 28, a lady's black leather wrist bag. Reward if returned to 32 Garfield ave., Detroit.

Lester's High-class Entertainers will give an entertainment in San Sara hall, Royal Oak, next week Thursday evening for the benefit of the Royal Oak school. It promises to be a treat. It's for a good cause. Let's all go. Admission 10 and 15 cents.

The many friends of Mr. and Mrs. Thos. Westlake will be much grieved to learn of the death of their eight-months-old baby, which occurred under very trying circumstances Monday last. The child was taken suddenly on Saturday with what proved to be a very severe case of obstruction of the bowel, known as intessusception, or telescoping of the bowel—a very rare disease. After resorting to the usual remedies without success, an operation was decided upon as a last resort. Dr. Geo. P. Raynale of St. Mary's hospital, assisted by Drs. Raynale and Shaw of this place, performed the operation on Monday evening. Upon opening the abdomen, the condition above described was found. Three and one half inches of intestine was removed, the severed ends brought together and stitched. The operation, although skillfully done was of no avail, the little patient dying in a few hours.

Natural Gas In England.

The first town in England to be lighted by natural gas is Heathfield, Sussex. At a public meeting of ratepayers it has been resolved to accept an offer from the Natural Gas Fields of England to have the streets illuminated by this means at the rate of £2 15s. per lamp for eight months in the year. Heathfield is the locality in which large sources of natural gas abound.

Keeping Up War's Memories.

Ladysmith is preparing to make herself another such center for the historic scenes around her as Brussels is for Waterloo. A regular coach service, it seems, is to be organized to Spion Kop, and when the passengers have walked over the fatal summit they will find refreshment and lodging at a "Spion Kop Hotel" which is to be built forthwith on Three-Tree Hill.

Fish at 23,000 Feet.

The statistician has been at work again. On the arrival of the United States Fish Commission steamship Albatross, which recently explored the ocean to a depth of 23,000 feet, the man of figures has calculated that the pressure of water is so great at that depth that a fish ten feet in length must support a weight equal to a large building.

Skilled Woodmen.

In the South Sea islands tree-felling contests are of such importance that specially made axes are imported for the work from America. So skilled are these woodmen of the South seas in felling timber that a dozen blows on the trunk of a tree will show but the one gash, as though done by a single blow of mighty power.

Newspaper for Nervous People.

There is talk in Austria of establishing a newspaper especially for nervous persons in which accounts of catastrophes will be treated in a soothing style. This will give a new color name to journalism. If it is "yellow" to jar sensitive nerves it may be considered "gray" to leave them undisturbed.

Japan's Coal Production.

The value of the coal mined in Japan is almost equal to that of all other minerals combined. It varies from the hardest anthracite to peat, but the quality is usually inferior to that of American coal. Modern machinery and methods have been introduced in the operation of many mines.

DON'T WORRY.

This is easies said than done, yet it may be of some help to consider the matter. If the cause is something over which you have no control it is obvious that worrying will not help the matter in the least. On the other hand, if within your control you have only to act. When you have a cold and fear an attack of pneumonia, buy a bottle of Chamberlain's Cough Remedy and use it judiciously and all cause for worry as to the outcome will quickly disappear. There is no danger of pneumonia when it is used. For sale by Whitehead & Mitchell.

Calumny is like a coal; if it does not burn it will soil.

Sorrow kills not, but it blights.

For a bad taste in the mouth take a few doses of Chamberlain's Stomach and Liver Tablets. Price 25c. Wanted to cure. For sale by Whitehead & Mitchell.

"The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's Stomach and Liver Tablets," says Meiard F. Craig, of Middlegrove, N. Y. "They work like a charm and do not gripe or have any unpleasant effect." For sale by Whitehead & Mitchell.

Mrs ", anna Soderholm, of Fergus Falls Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by Whitehead & Mitchell.

AGRICULTURE

Notes of Agricultural Advance.

Hampton Normal and Agricultural Institute has introduced the teaching of agriculture into all its courses, necessitating the employing of two assistant instructors in agriculture.

* * *

During the past summer there were set out on the grounds of the Tuskegee Station in Alabama 300 mulberry trees, with a view to making experiments in silk culture in the future.

* * *

Prof. H. M. Cottrell, formerly director of the Kansas Experiment station, is now professor of agriculture in Ruskin College, located at Trenton, Missouri. This college is the educational institution of a large co-operative movement that has obtained considerable prestige in Kansas, Missouri and adjacent states.

* * *

The Bureau of Plant Industry of the United States Department of Agriculture has had an agent in Europe studying the sand-binding grasses and their management in Holland, Belgium, France and Germany. This work is likely to have very important results on the utilization of millions of acres of drifting sand along our seacoasts, lakes and rivers.

* * *

The North Carolina State Board of Agriculture is doing some work of a very valuable kind. It has established three experiment farms in different parts of the state, two on the light soils along the coast, and one on the red Piedmont clay. Experiments are being carried on to test fertilizers, cultural methods, rotations, and varieties of corn, cotton and peanuts. Some of the work is co-operative. This work is entirely distinct from that of the state experiment station at Raleigh or of the horticultural experiment station at Southern Pines.

* * *

At the New Mexico Station the interest in the irrigation experiments continue. One good result of the work of the station has been the discovery of the fact that in the Mesilla Valley at least, the supply of underground water is very much larger than was considered possible. This water is reached at a depth of only 20 feet in some cases, and is well adapted to irrigation purposes. Using steam made by the use of wood it was found that land could be irrigated at an expense of about 55 cents per acre. This was the case, too, when the water had to be raised 48 feet. A series of tests with various pumps under varying conditions and with a variety of fuels is in progress.

Possibilities in Truck Growing.

Recently the writer was favored with a visit from Mr. Fred Engel, of Dolton, Illinois. That gentleman is a truck gardener, and on a little over 25 acres of land makes a living for his family of six persons. He says he could make a living off 10 acres if he had that. Asked as to his most profitable crop this year, he replied that it was asparagus. Off this he had in the past cleared $200 per acre. This is an illustration of what intensive farming can do. He had also, he said, made good profits from his crops of potatoes, cabbages and onions. Intensive culture must be looked to for profits in the future. It is not so much a problem of how to get more land to farm, as it is a question of how to get off the land now under cultivation double the amount we now obtain. That such an increase is possible on the average is absolutely certain, as the average production per acre is very low. The use of fertilizers makes it possible to increase the products of the garden, and the draining of the land, where natural drainage is not perfect, is another means to make the land more productive.

There are great possibilities of development in this part of the farm work. By the last census more than 150,000 farms are shown to be growing such large quantities of this kind of produce that they are put down under the head of vegetable farms. We can learn much in methods from the French and Belgian farmers, who grow tremendous crops on small areas. The gardeners around our great cities are also making some good records, which should be taken to heart by the men whose methods needs intensifying.—Farmers' Review.

Importance of Good Seed Corn.

There are nine and a quarter millions of acres in corn in this state. By adding five bushels per acre to the yield of the Iowa cornfields it means an addition to the profits of the Iowa farmers of over $20,000,000 every year. An important factor in the improvement of corn is good seed corn. Good seed is secured only by careful and intelligent selection. The unfavorable conditions for the corn crop this fall, resulting from the early frosts in many portions of Iowa, will make necessary unusual care in the selection of seed corn for next year's crop. Successful breeders agree that the best seed corn is that which possesses the greatest vitality or germinating power, and which will yield the most corn per acre and of the best quality, and therefore prove the most profitable to grow. Good seed corn will increase the yield per acre five to twenty bushels. Hence the importance this year of taking unusual care in selecting and storing the seed corn which is to be used next spring in the fields of Iowa.—Prof. P. G. Holden.

Manley Miles says that the most serious objections to the Cochins is their frequent and persistent inclination to sit. This fever generally comes on after every dozen or twenty eggs laid. It requires about three days' absence from the nest to break up this tendency.

The total of British emigration to all parts of the world for the eight months just ended is 127,596, against 108,984.

Boys' Clothing ¼ Off.

Fur Scarfs and Collarettes Cut Very Low in Price

William H. Elliott Co. Detroit

Corner Woodward and Grand River Aves.

Heavy Cotton Vestings for Waists are the proper thing now and for spring. Our buyer secured a fine assortment in New York which are now on sale. Our specialty is our heavy cord Fancy Vesting at 25c a yard.

We will be pleased to send an expert to measure and give estimates. Prices for Carpets are going higher. You can't make any mistake buying NOW.

18 BELOW IN MINNESOTA.

Zero Weather Prevalent All Over the Central West.

Seven degrees below zero was the record at St. Paul, Monday night. Moorhead, Minn., reports 18 below, Duluth 6 below, Lacrosse, Wis., 8 below. Fuel is scarce, and, although there is not yet an actual famine, there is much suffering.

Zero weather prevailed in Kansas City at 7 o'clock Monday morning. Suffering because of lack of fuel is severe. Similar conditions exist at all points throughout this part of the southwest.

Two-tenths of a degree above zero was the record at Cincinnati, O., Monday morning. Fortunately Cincinnati has no coal famine.

The lowest temperature of the winter was recorded at Cleveland Monday, 4 degrees below zero. At other points in northern Ohio the temperature fell to 8 below. The scarcity of fuel in many quarters caused much suffering.

Tillman's Victim.

Narcisso Gener Gonzales, editor of the Columbia State, Columbia, S. C., who was shot down Thursday in the street by Lieut.-Gov. James H. Tillman, is still alive. His physicians reported that he was holding his own, with indications of improvement. They express satisfaction at the outcome of the operation performed. Gonzales' strong constitution and good habits give him a great fighting chance for life, they say. Tillman spent the night in jail. While Gonzales' friends are very bitter, there is said to be no danger of mob violence to Tillman.

In a statement to the hospital physicians before the operation was performed yesterday Mr. Gonzales said:

"I was unarmed and there was no cause for my assassination, but I die a martyr to a good cause gladly. I have done nothing but my duty and have nothing to regret."

However precious the gift of humor may be, it is a question whether those who possess it make the truest friends. Terror of the laugh, and the fear that it can be justified is often a misfortune, oftener a restraint on confidence, and oftener still it gives an ironical tinge to sympathy.

It might require a large reward to find one woman who was true to answer.

A Cough

"I have made a most thorough trial of Ayer's Cherry Pectoral and am prepared to say that for all diseases of the lungs it never disappoints."—J. E. Finley, Ironton, O.

Ayer's Cherry Pectoral won't cure rheumatism; we never said it would. It won't cure dyspepsia; we never claimed it. But it will cure coughs and colds of all kinds. We first said this sixty years ago; we've been saying it ever since. 25c., 50c., $1.00. All druggists.

Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows.

The first law of health—"Keep the bowels regular." Ayer's Pills are gently laxative. One is a dose. J. C. AYER CO., Lowell, Mass.

E. W. Grove

This signature is on every box of the genuine Laxative Bromo-Quinine Tablets the remedy that cures "Grip" in one day

The peculiar cough which indicates croup, is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine a

MY BABY WAS SICK

My baby is 4 months old and is teething. He was sick and tried a good many things, but nothing seemed to relieve him.

I had a doctor, who said it was inflammation of the bowels, and that I would never pull him through—perhaps, if he was under his care. When I saw he was getting worse I stopped giving him his medicine, as he could keep nothing on his stomach. He was troubled with colic very much, and used to scream when he had a touch of it. I did not know what it was to close my eyes, day or night. I gave him a few drops of LAXAKOLA and it relieved him. I gave it to him a few times and it worked like a charm, and he now rests pretty fair all night. He is a great deal better looking baby since I gave him LAXAKOLA, and I think if all mothers knew how good it was they would use nothing else.—Mrs. MARY DALEY. Price—25 cents. 507 First St., South Boston, Mass.

For sale by Whitehead & Mitchell, drug gists, Birmingham, Mich.

Stops the Cough and Works off the Cold.

Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cents.

Trusses Fitted Perfectly

Manufacturers of Trusses can say what they will, we know that the same make of truss does not fit all persons equally well. Different persons and different cases of Hernia, call for different kinds of trusses. We have all kinds and we fit every person perfectly. That is why our trusses have such a reputation for ease and comfort. It is because we pick the right truss for each particular case and then adjust it until the fit is perfect. Come in and talk the matter over with us. We guarantee satisfation on every truss or money refunded.
