OBSERVATIONS.

It's a poor wedding ceremony that hasn't a hitch in it.

Brokers who sell short and wait for a fall often get a hard one.

Wise is the married man who keeps his private opinions to himself.

If a man is unable to stand prosperity he should sit down and enjoy it.

It isn't what a man doesn't possess that makes him poor, but rather what he wants.

A manless baby carriage would fill a block-fet want in some populous community.

No man ever sees a pretty married woman without feeling just the least bit envious of her husband.

It wouldn't be a difficult matter to convince the average man that green backs are printed on fly-paper.

OBJECTS OF HORROR.

The sorrow-faced girl with a bright blue veil.

The fat woman with her skirt dragged tight around her.

The child in a crowded trolley car, one sticky mass of candy.

The unfortunate people who have to stand between the seats of an open trolley car.

Hoover Potato Digger and Sorter

W. I. McCLELLAND, Birmingham, Mich.
Who is agent for the Townships of Bloomfield, Truett, Parkers, Corners, West, Bloomfield, White Lake, Springfield, Waterford, Independence, Holly, Millers, and Highland.

"The only good size Digger manufactured. We guarantee to do all that is claimed. The Hoover digger is the only one that separates the stems from the potatoes and other root matter. The post as being destroyed behind the machine in a narrow row on the ground, while the vines are carried to the left side. The upper set of teeth doing this work with the aid of constantly moving links. Another set of teeth, in front of the main set, breaks up the soil. If you set it with run over the ground, weeds and potatoes over together, like straw over the straw carrier, don't get the digger."

A Wonderful Invention.

It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to benefit the people and meet the popular condition, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, 1890. These wonderful combs positively cure dandruff, hair falling out, lice and various headaches, and when used in connection with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curl in 20 days' time. Thousands of these electric combs have been sold in various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich selling these combs. They positively sell on sight. Send for sample. Men's size 30c, ladies' 35c—half price while we are introducing them. See "want column" of this paper. The Dr. White Electric Comb Co., Decatur, Ill. April 10th

These illusive temptations—they remind us that the threads which kept Gulliver down were very small threads, but there were so many of them.
