

FALL ANNOUNCEMENT

FORMAL OPENING OF FALL LINES OF
TAILOR MADE SUITS
.....

WE START the season with a MAGNIFICENT COLLECTION of the Newest Products designed by the foremost Fashion Authorities. They are on display in our Suit Department.

A noticeable feature is the unusual beauty of the fabrics. In texture and richness of appearance, the NEW SUITINGS are by far the most handsome we have ever shown.

THE PRINCE ALBERT EFFECT COAT, coming in different lengths gives them rather a manly appearance, yet they possess an artistic beauty seldom seen in a stockily tailored garment. Every suit from \$12.50 to \$75.00 shows this.

Rain Coats The new Rain Coats made up in the long green-felt effects make one of the most practical and stylish garments a woman can have. Absolutely waterproof, yet of very fine materials. They answer for dress occasions as well as rainy weather. We are showing a good selection, among them the CRAVENETTES, ranging in price from \$5.00 up to \$25.00 each.

Cravenette Umbrellas, Handsome Umbrellas made of substitute material of English Cordura, which was subjected to the Cravenette process, making the cloth absolutely water proof. 28 inch size women's, 34 inch size men's, all fitted with handsome handles. In assorted shades, see special advertisement. \$1.00

Furs In the Fur Section are shown some of the most beautiful novelties ever made up. We invite you to come and see the new things, even if you do not intend to buy Furs this season.

Separate Skirts A Collection of New Ideas in Dress and Walking effects worthy the reputation of being shown in the leading style stores. Your question of "what is going to be worn?" will be best answered when you visit our store and see the splendid stocks with their hosts of exclusive styles. We have never before been able to offer you the selection we can this fall.

HUMOR OF THE HOUR

A FEW MERRY MOMENTS WITH THE JESTERS.

Why Algy Thought Miss Cayleigh So Strange—Gritty Grege Emulates the Great Opera Singer—Supreme Happiness.

Sally and Willie. "Stranger about Sally young girl, isn't it Sally?" "How so, Willie?" "Why, there's a girl in town who used to meet that she was liked by President Grant when she was a baby, but she now declares it was President Hayes who kissed her. In a few years she will be claiming that President Roosevelt kissed her when she was a mere child."—Roller Monthly.

Fortunate Reminder. "Noah," explained the kind old sailor's wife, "what are you stopping at?" "I'm confused that moment," he answered. "I'll catch it yet, see if I don't." "Henry W. Noah, what do you mean? Have you forgotten that we have only two mosquitoes in the ark?"—New York Herald.

Another Prediction. "Yes," sighed the young in purple suspenders, "the old gentleman caught me hugging his daughter," and then there was a storm." "You should have sent a report to the weather department," chided his friend in duck trousers.

What should I have said? "The storm was caused by heavy local pressure."

Not That Kind of a Storm. "The storm was caused by heavy local pressure."

Unappreciated. "Do you believe," said the lady with the serene and yellow, "that the good die young?" "How could I?" exclaimed the father. "How could I and you so good—er—that is it."—Baltimore News.

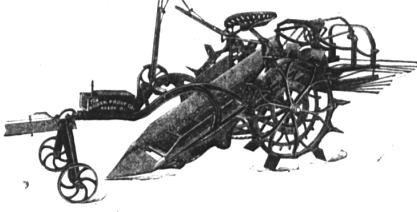

An Appropriate Pen Name. "Author Algy—What an absurd creature that Gayleigh girl is. When I told her I was down here noting round for material and local color she asked me if by any chance my pen name was Pigg." "Supreme Happiness. "If you could choose, which would you rather be, Rockefeller, J. Pierpont Morgan or John W. Gates?" "Oh, Gates, by all means. I understand that Rockefeller and Morgan sometimes worry what the world may be thinking of them."

"The only good soil Digger manufactured. We guarantee it to do all that is claimed. The Hoover Digger is the only one that separates successfully the stems from the potatoes and other soil matter. The potatoes being directed behind the machine in a narrow row on down stream, while the stems are carried to the left side, the super set of belts doing this work with the aid of constantly moving links. Growers should give this improvement a trial when buying a digger. If you wait a machine that will run over rocks, straw, weeds and potatoes over together, like straw over the straw carrier, don't get the Hoover."

Coins Many Centuries Old. J. P. Bruce of Billerica, Mass., has just received from a missionary who is principal of an academy in Kiang-Chin, China, eight historic old coins. The oldest of the coins bears the date of 221 B. C. while the others range between 159 A. D. and 1270 A. D.
