

IN GREAT DISTRESS

VOMITING SPELLS LONG RESISTED EVERY EFFORT TO CHECK.

Mrs. Brooks became so weak she thinks she would have died but for Dr. Williams' Pink Pills.

Mrs. Sarah L. Brooks, of No. 45 Lincoln Park, Chicago, Illinois, gives the following account of her cure from distressing spells of vomiting.

"For five years off and on I was treated in vain by different doctors which showed itself in frequent severe trying spells of vomiting. Part of the time I was able to work, and again I would be confined to bed for three or four days in succession.

"My stomach was at times so delicate that it would not retain even plain water. The spells would sometimes occur at intervals of half an hour, and would leave me so weak that I would be compelled to lie down between them. I would vomit several times during the night following a day of such attacks. Finally I became so weakened that I had to give up working altogether. I weighed only ninety-four pounds.

"Last January I read about Dr. Williams' Pink Pills for Pale People in one of the Chicago daily papers and bought a box and began to use them. After I had used half a box I found that I could keep up my stomach the food I ate. I was encouraged by this and kept on using the pills for four months. At the end of that time the vomiting spells had ceased altogether and my weight went up to 142 pounds and is still gaining.

"I think I surely would have died if it had not been for Dr. Williams' Pink Pills, for I sometimes vomited clear blood, and for three or four days at a time I could not eat a bite of anything. One doctor said I had an inflammation of the stomach, and another said my difficulty was a cancer, but none of my medicines did me any good at all. Finally I concluded that I did not have blood enough to digest my food, and I began the treatment that has cured me. I am feeling well now, and have strength for all kinds of work. I always keep Dr. Williams' Pink Pills on hand, and I recommend them to my friends, and certainly I will recommend ALLEN'S FOOT-EASE to my friends, as it is a wonderfully remedial remedy.—Mrs. N. H. Gulliver, New Orleans, La."

Look Cheerful. No matter how depressed you feel, look cheerful. A gloomy face is unattractive. Look cheerful! Nobody cares about your woes. Each has his sorrow, goodness knows. Why should you show your grief to others? Look cheerful! You're better than you appear to be. You're prettier when you smile, you know. Look cheerful! The world abhors a gloomy face. And takes of you are commonplace. No one will take a beam—Look cheerful!—Magazine of Mysteries.

The Sheriff's Daughter by Henry Q. Barber. "About five years ago I was staying in a little town on the Pacific coast, partly for health and partly for pleasure. I was acquainted with a girl named Tom Charters. Tom was a great favorite in the neighborhood, as his face, form and manners were so irresistibly attractive. He was a fair and true friend. We were called the twins by the girls of the town, for we were inseparable, and many a lonely night we spent together, camped on the hillside under the twinkling stars. But Tom had a buried past, and no matter how jovial he was, no matter how much he loved life, so I concluded he had suffered some bitter disappointment and had buried himself away from civilization in the rude but hospitable west.

FEAR DAMAGE BY VOLCANO.

Latest Eruption of Vesuvius More Threatening Than Heretofore. The most beautiful gateway of approach from the New World to the Old is in danger of irreparable mar through the eruption of Vesuvius, even if no lives are lost in the well-earned villages about its base. The whole mountain has shifted forward since the great eruption of 1900 years ago buried Pompeii. What is left of the earlier mountain, now known as Monte Somma, curves like a broken shield part way about the newer and higher cone, which is the very foreground of the matches picture presented, with Ischia to the left and Capri to the right, as a steamer thrusts her prow into the Bay of Naples. From seventy miles away the tall mountain with its pillar of smoke is the navigator's landmark. The eruptions of 1878 did not proceed from the main summit, but burst new and smaller craters through the side wall of the mountain toward Naples, from which the dull glow of the fire was visible at night. But now the main or western crater, which for months has gleamed at intervals with blue fires and which overlooks one of the most populous seacoasts in the world, seems to be misbehaving. This obviously may be a more serious matter.

FINED A BRITISH DIPLOMAT. Massachusetts Justice Unwittingly Transgressed Law of Nations. Associate Justice H. C. Phelps of the U. S. District Court at Boston, who required unenviable international notoriety for imposing a fine upon Hugh Gurney, third secretary of the British

embassy, stationed at Lenox, for exceeding the speed limit in an automobile. The secretary is not amenable to the statutes laws of the United States, and although he pleaded exemption the justice was inexorable. An apology was made later, and the fines remitted.

HELD DIPLOMATIC POST LONG. Record of Late Mexican Consul General at New York. It is seldom that a man holds a diplomatic post for almost forty years. Such is the record of Don Francisco Navarro, the Mexican consul general at New York, who died at his home there a few days ago. When war was declared between the United States and Mexico Dr. Navarro enlisted in the Mexican army. After the war he resumed the practice of his profession and made a profound study in the medical college in the City of Mexico. Later he was elected senator, and when Mexico was invaded by the French he was appointed surgeon in chief of the Mexican army. He was captured by the French, but escaped. At the end of the struggle Dr. Navarro was appointed consul general at New York.

Which is True Civilization? Says Mr. Hayashi, a distinguished citizen of Japan: "To-day we Japanese have battled ships, torpedoes, canoes. The China sea reddens with the blood of our killed and of those we kill. Our torpedoes roar, our shrapnel shriek, our cannon breathe slaughter and we die and are the cause of death. And you occidentals say to us, 'You have your rank; you have civilized your manners; your virtues upon centuries we have had artists, painters, sculptors, philosophers. In the sixteenth century we had published in Japanese the printed matter of Aesop. Were we then barbarians?'"

GOING TO FIND MOTHER.

Pathetic Story of Henry Ward Beecher's Childhood. William James, an starved physiologist, was illustrating the connection between children's minds may be thrown by the reception of different ideas about the same subject. "Henry Ward Beecher," he said, "frustrated us in his childhood with a good example of the thing I mean. On the death of Beecher's mother the little fellow was told by some that she had gone to heaven, and by others that she had been laid in the ground. He brooded over these contradictory ideas until they were reconciled in his mind. Then, one morning, he was found 'digging in the garden very busily.' 'What are you doing?' they asked him. 'Why,' said the child, 'I am going to heaven to find mother.'"

Fish Fighting in Siam. Fish fighting is the most popular sport in Siam. The two fish, trained from the age of six months to fight, are placed in a large glass bottle. It is most curious to note each fish's attitude when it becomes aware of its adversary's presence in the bottle. Swelling with rage and pride, they call around and around in narrow space, protruding not to notice each other, until suddenly one fish makes a savage dart at its unwelcome companion, biting its tail and body. The contest, until the referee sees that the issue is no longer in doubt, when the contest is stopped.

Straining the Air. A woman living in a smoky city helps to keep her house clean by straining the air. It is drawn into the cold air register or box to be sent up through the pipes into the different rooms, says Good Housekeeping. The register is taken out, a piece of cheesecloth a trifle larger than the opening is spread over the pipe and the register is replaced. Its edges holding the cheesecloth in place the particles of soot and dust which accumulate on the cheesecloth soon prove how much the wall paper and furniture have been saved.

Don't Finish the Dishes. The P's had given an impertinent bad notice, and in consequence were obliged to assume the duties that she pointed out by an expert. The Katie's stay, as one of the ladies of the family was neglected to answer a ring at the front door, was arrested by an explosion of anger from the rear of the hall, where the irrefragable ex-aid, Katie, in most unpleasing disabille, was established. Many women are denied the happiness of children through derangement of the generative organs. Mrs. Beyer advises women to use Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered with stomach complaint for years. I got so bad that I could not enjoy my children but five months, then would have a miscarriage. The last time I became pregnant, my husband got to take Lydia E. Pinkham's Vegetable Compound. After taking the first bottle I was relieved of the sickness of stomach, and began to feel better in every way. I continued its use and was enabled to carry my baby to maturity. I now have a nice baby girl, and can work better than I ever could before. I am like a new woman."—Mrs. FRANK BEYER, 22 S. Second St., Meriden, Conn.

Another case which proves that no other medicine in the world accomplishes the same results as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I was married for five years and gave birth to two premature children. After that I took Lydia E. Pinkham's Vegetable Compound, and it changed me from a weak, nervous woman to a strong, happy and healthy wife within seven months. Within two years a lovely little girl was born, who is the pride and joy of my household. If every woman who is cured feels as grateful and happy as I do, our world as a whole would be a better place. I bless you for the light, health and happiness Lydia E. Pinkham's Vegetable Compound has brought to my life. Sincerely yours, Mrs. MRS. P. WHARTY, Flt. 31, The Norman, Milwaukee, Wis."
