We would call the attention of our delinquent subscriber to the following poetic appeal from an editor in the wild and wooly west:

> We need the money, 'deed we do.
> To buy our wife a dress or two;
> Domestic storms are nearing us,
> Please help avoid a family fuss.

A check for $195,057.04 has just been paid to the U. S. government by the Louisiana Purchase Co., it being 40 per cent of the gross gate receipts from the day of the opening, April 30, to midnight of June 15. This is the first payment on the federal loan.

A large crowd greeted Wixom Bros.' show Wednesday. Those who saw the show on its last visit here remembered what they saw for 25c and were only too willing to go again. The show is much improved this year. If it comes your way don't miss it.

Mrs. C. Ellenwood gave a farewell party for Mrs. Sherman Tuesday afternoon. Mrs. Sherman, accompanied by her daughter, Mrs. E. C. Fish, and little Florence, will spend the summer at their old home in central New York.

Levi Goodwin preached his first sermon to a large and appreciative audience last Sunday in the Campbell Ave. church, Detroit. It was a sermon filled with helpful thoughts and deep study, and many were the words of praise spoken of our young friend and his work.

Franklin will celebrate the 4th this year in an appropriate manner. Fun all day long. Scottish games, greased pole, greased pig, horse race, etc., etc. Dance both afternoon and evening. Supper will be served. Don't fail to witness the grand display of fireworks. A good time for all.

Mrs. Mary B. Cooper announces to her many friends that she will not be at home Monday next, the 4th of July, as she departeth the day previous for Fraser, Macomb county, where all is of a delightful "sleepiness," to avoid the carnage of a Birmingham 4th. After the 4th—at home as usual.

The weather observations began by Prof. Walde in September, 1900, and continued by Prof. Field until now, have been transferred to the Hulbert boys on Woodward Ave. While the work is a thankless task, the records are of increasing value to our community as the length of time covered becomes greater.

Next Sunday, July 3, the Grand Trunk Railway System gives another of its popular excursions. You can go to Grand Rapids and return for $2.10; Battle Creek, $1.75; Lansing, $1.25; Saginaw and Bay City, $1.55. Train leaves Birmingham 7:52 a. m., returning at 11:10 p. m. No baggage checked on Sunday excursions.

All lovers of base ball should turn out and see the game of ball between the High School team and the old team that made our town famous in '95. Daniels and King will be the battery for the "Old Boys." Game will commence at 2 p. m. on July 4. A hot game is promised as both teams are out to win.

The Pontiac, Oxford & Northern Railway will sell round trip tickets at single fare commencing July 2, good to return up to and including Tuesday, July 5. This will be a rare opportunity to visit the thumb of Michigan and should be taken advantage of by those contemplating the purchase of a farm. You will see some nice crops up there right now.

Mr. Prescott Cogswell, of El Monte, Cal., a rancher of fame and wealth in his home life, has been the welcome guest of Mr. and Mrs. M. H. Bartram the past few days. Mr. Cogswell's specialty is the raising of English walnuts in which he is very successful in quantity and quality and satisfies himself as to the money gained by the pursuit.

The public banquet given by the old members of the W. C. T. U. of Birmingham to the new members was held Tuesday evening in the Baptist church. Refreshments were served from 6 to 8 o'clock. Toasts and responses were given at the tables. The public reception of new members, recitations and music followed, closing with the historic catechism of the union. All report a good time.

Visitors with Miss Mattie Baldwin this week are enjoying Birmingham's best air and comfort are Mrs. A. W. Adams and Mrs. Sepey, both of Elgin, Ill. The ladies are delighted with their entertainment and side trips to Orion, Chatham, Palmer Park, Orchard Lake and a few other places keep the good ladies guessing as to what Mattie will propose next.

A Texas editor hits the right spot when he says: "The sorriest fellow on earth is the fellow who will set around and cuss his own town. If I lived astride the north pole, I would call it 'home,' and be ready to boost it up. If I could not say anything nice about it, I would say that my ice bill didn't 'come high.' I would not stay in a town I had to cuss, not while the world is as big as it is now."

Supervisor Vowles of the court house building committee says that they are expecting to keep the total expense for the building and furnishings within the $100,000. Schmidt of Toledo, who has the main contract, is to get $91,450, which includes everything but electric wiring and furniture. The architect is to get $4,750 and the committee expects to save $600 on the best bid for wiring and furniture which was $4,400.

It is not generally known why the space was left in the wide sidewalk on the Johnston-Shaw property between the hardware store and the bakery. We've been let into the secret but you must not tell anyone. A number of our townspeople have their mindseye on that spot on which to erect a copper-gold-lined drinking fountain with solid gold cups. This will not occur until the different mines, in which they are interested, come in. Watch for it.

THE ECCENTRIC acknowledges the receipt of the handsomest boquet of most beautiful roses of all shades and colors we have yet seen. They were the gift of R. Peterson of the Birmingham Greenhouses and show in one way what can be done by a man who knows his business from A. to Z. The Birmingham Greenhouses are able to supply at all times almost everything in this line and the quality and fineness of their goods is of the best.

County Treasurer Sibley stated that the orders for temporary relief which had come in to him for payment during May amounted to about half the amount expended from this fund in April, $1,800.30. Mr. Sibley says that of the orders which have come in for May nearly all have been from the five wards of the city of Pontiac, but a very small number coming in from outlying townships. The amounts for the month have not yet been footed and the exact amount is not known.

And now comes a proposition from Clay C. Cooper, of Detroit to light the town with acetelyne gas at a cost far below city gas or electric lights. Mr. Cooper guarantees to give us a perfect lighting at a nominal cost, and the village board will consider the matter in the near future. There is no doubt that such a plant would be a good thing for the town if everything worked as Mr. Cooper claims, but the members of the council prefer to see a plant in operation before they grant a franchise. All stores and dwellings that are piped for gas are in shape to use these lights from the start. If it turns out to be a good thing we say "push it along."

Died, at Royal Oak, Mich., Thursday June 23, 1904, Mr. Robert Mageehan. The deceased was born in County Down, Ireland, on July 10, 1832. He came to this country in 1856, and was married 42 years ago to Asie Harbison, who with three sons and two daughters still survive him. Mr. Mageehan lived at his late home in Troy for 42 years, having moved to Royal Oak a few weeks before his death. He was highly respected by his friends who knew him to be a man of worthy qualities. He was for nearly half a century a member of the Troy, U. P. church. The funeral was on Saturday, June 25, the service being conducted by his pastor, Rev. M. B. Maxwell, and was largely attended.

Secretary Butterfield of the Michigan State Agricultural society announces that a feature of this year's state fair will be demonstrations in the judging of live stock by Prof. R. S. Ross of the M. A. C. The demonstration will be conducted three days of the fair in a tent for that purpose. Meetings will be held in the evening for the benefit of the stockmen. Plans have been made for enlarging the big grandstand at the race track, which is already the largest grandstand at any half-mile track in the state. The stand will be built further down in front and additional seats for 1,000 people will be provided. The seating capacity of the stand will be 6,000 people when the enlargement is made.

When a farmer appears in the bankruptcy court it will always be found that he has been monkeying with something outside of his legitimate business. He has either been buying $5,000 bulls, taken a flyer on the board of trade, speculating in Dakota or Canada lands, bitht at some fake scheme and trying to beat a man at his own game, raising a worthless set of boys, or going surety for some friend. Crops may fail for a year or even two years, prices for farm products may be unremunerative for a time but men pull through these troubles all right and are soon on their feet again, and it should be said, and said again and again, that if a man will do his whole duty by the farm he will never go into the list of the busted. Ten merchants and more go all to pieces where one farmer does, anyway. Whatever may be said against farming, it remains as the safest business in all this country.—Rochester Era.

WING LAKE.

The fishing in Wing Lake this year seems to be better than ever, in spite of the fact that it is becoming more popular as a fishing resort. It has been suggested that it might be necessary to stock the lake on account of the number of bass that are taken out, but the supply seems to be inexhaustible.

Of course it is necessary to know how to fish and have good luck in order to get a good string.

As a case in point, Messrs. A. Whitehead, H. C. Wilson, M. O. Bigelow, all of Birmingham, and R. C. Whitehead, of Lansing, were up here the other day. Whitehead and Wilson are fishermen in an amateurish way but they soon gave it up and went ashore to tell of the fish they had caught in other days.

The other Whitehead from Lansing and Bigelow by exercising a little patience and some good judgment were able to bring in a nice string.

But fishing is the same as farming, patience and a little intelligence will do the trick.

It is very dry here and we need rain.

One day last week the children and grandchildren gathered around Mrs. Viletta White and celebrated the good lady's 90th birthday in a right royal manner. There were four generations present and a bountiful lunch was served. The old lady told a few stories of early Michigan life, and when a dance was proposed Mrs. White took the arm of her granddaughter, Viletta Douglas, and indulged in a two-step, much to the surprise of all. They don't all dance at the age of 90. Everybody wishes Mrs. White many happy returns of the event

BIRTH RATE IS LOWER IN THE UNITED STATES

Foreign-Born Residents Only Add 12 Per Cent to Population, While Native Increase Is 22 Per Cent.

Washington, June 29.—That there has been a steady decrease in the foreign-born population of the United States in the last ten years is one of the interesting things shown in an abstract of the tenth census which has just been published by the department of commerce. In the ten years covered by the report the native born births increased 22 per cent, while the foreign-born births increased only 12 per cent.

The actual number of English, Irish, German and French residents of the United States has decreased in this period, while the Poles, Russians and Italians have increased by a large per cent.

Hard times is the principal cause given for the comparative decrease in the foreign-born population.

In view of the immense throngs of immigrants that settle in New York one of the surprising facts of the statistics is that the per cent of increase in the native-born in the ten years slightly exceeds the per cent of increase of the foreign-born. The showing is contrary to nearly every other populous Eastern state.

The statistics show that the average number of persons to a family in the United States is 4.7.

In 1900 the percentage of married among all persons 15 years and older was 55.5 per cent, of single 36, of widowed almost 8 per cent, and of divorced four-tenths of 1 per cent.

Judged from the statistics, the Pacific coast states are the best for marriageable women, 60 per cent being wives, against 50 in the central West, and 54 in the East. In the matter of contrast, the Pacific coast states show the smallest percentage of married men, 45 per cent against a general average of 55 in the East and middle West.

TWO DROWN WHILE FISHING

Companion on Outing Trip and Boat Are Also Missing.

Morris, Ill., June 29.—The bodies of Harry E. Jacobs and Harry Brooker of Joliet were found floating in the Illinois river Tuesday near here. The young men left Joliet last Thursday afternoon in company with John W. Bloom, for a few days' outing on Desplaines river and it is believed they were drowned while fishing. The body of young Bloom has not yet been found and the boat is also missing. The two bodies were identified by John H. Staley, superintendent of the Economy Light and Power company of Joliet, for whom Jacobs had worked for eight years.

It is well that there is no one without a fault, for he would not have a friend in the world. He would seem to belong to a different species.

DYSPEPSIA ON THE DECLINE

Whitehead & Mitchell and Cobb & Cobb Claim Pepsikola Cures 30 Cases Out of 40.

Why anyone in Birmingham should continue to suffer with indigestion when a 25 cent box of PEPSIKOLA will cure is certainly a mystery.

The above druggists have been selling PEPSIKOLA for some time now, and they know from actual experience right in their own stores just what this famous little chocolate coated dyspepsia tablet will do, and if you make inquiry these druggists will tell you they never knew a remedy to prove so decidedly beneficial in the treatment of indigestion, dyspepsia, palpitation, sleeplessness and other forms of stomach trouble. It certainly ought to give you confidence when you know that every box of PEPSIKOLA contains 10 days treatment, and at the end of that time if you are not decidedly benefitted all you need do is go back to the druggist and get your money. PEPSIKOLA is sold right on its own merits. It cures indigestion simply by toning up the stomach and digestive organs so that the food will assimilate and give strength to the system just as nature intended. And PEPSIKOLA is such a grand nerve tonic, too. Just try a 25 cent box and see if it don't give you new energy, new ambition and new courage to carry out your plans and daily work. If it doesn't, your money back.

Central African Beer.

Central Africans make a kind of sweet beer which is effervescent, and tastes a good deal like champagne. It is made by mixing water and banana juice, and allowing this to turn sour. It is said to be wholesome, but it is drunk only by women and children.
