HOW TO MAKE BAD BOYS GOOD; PROBLEM SOLVED AT DAYTON

Childrens Gardens at National Cash Register Factory Teach Youngsters Valuable Lessons, Keep Them Out of Mischief and Boost Property Values.

The "Boy in Summertime" has always been a serious problem. Usually he has a good deal of time to trifle away, and when the work for the day is done, he is usually bored. The "Boy in Summertime" is often a bad boy. During several months of illness and purposeless play he forgets all that he learns at school and acquires instead much of undesirable knowledge that makes him a source of annoyance to his teachers when fall comes round. This is especially true of boys raised in the cities. The country boy, although he would not admit it—is more fortunate in having certain duties to perform each day before he can enjoy his games and larks.

PRIZES ARE GIVEN FOR BROADEST KNOWLEDGE AND MEDALS

Down in Dayton, Ohio, the problem of the boy in summertime has been solved. The solution has come through giving the boy pleasant work to do which interests him while he is about as much as he can play. Dayton is the home of the Boy Gardeners whose work is now being held up as a model in all the manual training schools of the country. The Boy Gardeners of Dayton enjoy summer vacations as much as other boys do, they get more out of them in knowledge and experience, and their teachers say they return to school in the autumn fully rested, better prepared to begin the new school year.

Pattern Makers Investigate. John H. Patterson, the President of the Company, asked one of his foremen several years ago why he built his house on a \$2000 lot three miles from the factory, when he could have bought a lot near the plant and equally good for \$500. The reply was: "I don't like the neighborhood."

Upon investigation, Mr. Patterson found that three boys gave the neighborhood its bad reputation. He made an estimate of the value of the land these boys influenced within a radius of four blocks of the factory. His estimate showed that the three boys cost the property owners in the district \$100,000. Ten thousand dollars for a bad boy! Studying further the cause of the trouble, he soon found that the boys were made bad by idleness. Nothing to do was the secret of their difficulty. At once the Company decided to establish the Boys' Gardens.

EACH BOY HAS A SEPARATE PLOT AND OWNS ALL HIS PLANTS

Near the factory was a plot of ground adapted to the purpose. Two acres of "caching" the small boy, or rather "kicking the small boy to catch" the idea. But this obstacle was overcome, and, with the forty boys started, interest in the Montgomery County Fair, recently held in Dayton, the Boy Gardeners had an exhibit of their products which rivaled in excellence and attractiveness those of the most experienced agriculturists of the country.

Full of Tragic Meaning. One of these lines from J. H. Simmonds, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes, "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly

developed rapidly. By the time the seeds began to sprout, the young gardeners had become enthusiastic. Even a dry season and the necessity of carrying water did not diminish their interest.

Boys are Enthusiastic. Only two or three dropped out of the class during the summer, and so the results of the first year were highly satisfactory. The next season there was no difficulty in forming the class. On the contrary, applicants were far in excess of the garden plots available. Results, too, were more marked. Crops were larger and the influence of the work on the conduct of the boys was greater. Since then the project has grown continuously.

The boys are encouraged to make a beginning on home gardening at the same time that they are receiving the benefits of the Company gardens. For this purpose additional seeds and plants are furnished to those who want them. This helps to get the garden habit firmly established at a time when the interest in such work is predominant over interest in all other occupations.

Money Prizes and Medals Offered. To stimulate the boys in their work, the Company offers annually \$50 in medals to the boys whose gardens are designed in France on Mr. Patterson's orders.

The entire product of the gardens belongs to the boys. Many of the little farmers realize a good profit out of the sale of their produce besides keeping the table at home supplied with fresh vegetables all summer long. This year the boy gardeners have had greater success than ever before, and generally "have been better kept and are more productive." A few improvements introduced this year were: posting of a current bulletin giving the prices of vegetables; planting

HOME NEWS GOOD AGAINST THE LAW

Burglars Rob Deputy Sheriff, Theo. Blumberg's House.

Sunday morning last at six o'clock, Neil Blumberg made a record breaking run for the telephone office to call up sheriff Greer and notify him that some disreputable, unwholy law breaker, without fear of the law, to say nothing of Sabbath breaking, entered the home of Theo Blumberg very early Sunday morning, entered through the pantry window, and here left with him went Neil's 7 jeweled Elgin watch with gold case and \$8 in cash, mostly silver. The bold thief went into the bedroom where Theo, was sweetly dreaming of capturing Jesse James gang, went through his trousers' pockets and left no trace of his presence. With Neil's watch went a beautiful job chain with a dancing sea and his monogram, N. B. Does it mean he notes?

HARK!

To the Shril Trumpet Calling, for the Michigan Brigade was There.

At Lansing Mich., Oct. 19, 1905. Welcome by our Oakland County boy governor of the great state of Michigan, Fred M. Warner in Representative Hall.

Called to order by the President of the Brigade, W. O. Lee of Port Huron, Causters' old brigade, with whom he was his star and the regiments' fame.

This was the anniversary of an engagement at Buckland Mills, Va., Oct. 19, '63 where a double surprise was executed—as the Jubones entered the Brigade to drive them across the river in the face of their own guns, and captured Major Clark's squadron of the 8th and in turn the Johnnies drove the Brigade and chased them back across the river, when we turned, swooped around their rear and captured 1643 and rushed them into northern quarters.

It was also the anniversary of Oct. 19 '64, where Cedar Creek the Brigade held capture 33 canons from Jubal Early after Sheridan had made his famous ride from Winchester. Many were the songs they sang, many were the stories told.

Wm. O. Lee of Port Huron was re-elected President of the Brigade and Capt. John Allen Bigelow of Birmingham was re-elected President of the 5th Cavalry, Capt. Jacob Bristol of Detroit, vice-president and R. F. Johnson of Albany, Sec'y. and Treas.

A resolution was passed asking the Michigan Legislature to erect a monument in memory of Gen. Custer to be placed near the capitol building. Several addresses were delivered and one exceptionally interesting was by Mr. Barry, Commissioner of Insurance. Fame of meeting next year was left with the executive committee.

Our Brigade had the distinction and honor of being the only Brigade in the army composed wholly of regiments from one state.

OUR NEW COURT HOUSE. Every resident of Oakland County is tendered a special invitation to attend the dedication of Oakland's beautiful new county building, on the afternoon of Thursday, Nov. 2nd, 1905. The dedication ceremony will be the occasion for the grandest military parade seen in the county since the days of the civil war.

Gov. Wood's salute to the military and will be escorted by companies of the State National Guard, from Detroit and Pontiac. The full cadet corps from Orchard Lake Military Academy and the G. A. R. Posts of the county will take part in the parade. The only civic bodies represented will be the Board of Supervisors, the Oakland County Bar Association and the Common Council of Pontiac.

Captain Cress of the Orchard Lake Military Academy will be Chief Marshal and will be assisted by competent aides. The parade will begin at Jackson Street promptly at 11:30 o'clock, standard time, and will march north as far as Oakland Avenue, where it will turn back to High Street and disband in front of the Howard Theatre. Pontiac's new \$40,000 play house, where the dedicatory exercises are to take place.

All surface cancers are now known to be curable, by Buckle's Arnia Salve. Jas. Walters, of Dulheim, Va., writes "I had a cancer on my leg for years, that would not heal. The Buckle's Arnia Salve healed it, and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at Whitehead & Mitchell.

The "Good Fellow's" Way. It is curious that so many men find it easier to be generous downtown than at home.—Indianapolis News.

Hope Good Filling for Pillows. Hope may be used to fill pillows. They often prove beneficial in cases of insomnia.

FUNERAL OF R. G. CUMMINGS WAR WELL ATTENDED. On Sunday afternoon, agreeable to the call of the W. M. A., Birmingham Lodge No. 44 F. & A. M. assembly, the lodge rooms to attend in a body the last rites of the burial service of the order for their departed friend and brother, Richard C. Cummings of Franklin, Mich., who suddenly appeared in these columns last week.

The brotherhood accompanied the remains from the late residence of the deceased to the church in Franklin where Rev. W. H. Jamieson, assisted by the resident pastor of the church conducted the services and the former delivered a sermon which was one of the ablest efforts we have ever heard. Replete with the beautiful lessons of Masonry, it appealed alike to the mourning family of the deceased and the brethren of the order who had assembled to do the last honors to their departed friend.
