

Embroidery Done in China. Crepe de chine naturally suggests Chinese embroidery, and there are some really exquisite examples of this work shown in the suits that are supposed to be available for almost any season. One in white shows a slight cravos all across the front, the whole thing worked in white on the white ground, the blouse fastening in the back so that the fronts are left whole and unbroken for the display of the exquisite needlework.

Another in a dull blue one shows crepe de chine has a dado of flag leaves in the natural tones of purple and green rush leaves, on a combination of soft blues and purples being extremely good, while a similar one in pale green is decorated with water lilies. Since all of this work is executed by hand, one can guess that the price demanded runs close up to three figures for the finished blouse.

Velvety Green Gravies. Corn starch is better than flour, and it is well to know that the yolks of two eggs are equal to a tablespoonful of flour for thickening sauces. Sauces may be very easily varied in this way. French and German gravies, and the American way of thickening so often with flour and so seldom with eggs.

There is the loveliest tea gown of champagne liberty satin in empire style, covered with fluffy billows of champagne velveteens. The popular velveteens have a soft chiffon finish. Fur coats will not be quite as long as those of last year, according to early models.

The chiffon veil has a new use. It is tied to the hat and tacked to the side of the hat, with floating ends. A funny little round white hat of corded silk, for a child, has the straight brim edged with a band of pink fur. One of the new hats has a huge crown of gay-colored black silk and not a hair of scarlet of this antique material.

Delicate Macaroni Custards. The very name makes the "mouth water." Make ready one quart of milk, two eggs, an even tablespoonful of corn starch, two tablespoonsful of sugar and fourteen macaronis. Scald the milk, beat the yolks of the eggs well and add them to the milk. Then in the corn starch, rubbed smooth in a little milk; then the sugar. Stir until it thickens, when remove from the fire and flavor with vanilla. Crush the macaronis with a rolling pin and divide the quantity equally into six cups. Fill the cups with the custard to within an inch of the top, stirring the crushed macaronis through the custard. Beat the whites of the eggs to a stiff froth, add a little sugar, and spread on the top of each custard, then place on top a whole macaroni. Brown slightly in the oven and set away to get cold.

Apple Rings. These make a nice dish for breakfast and are sure to be appreciated. They are quickly and easily prepared. Peel some large and rather tart apples, remove the cores, cut them into slices across about a quarter of an inch thick, so as to make "rings." Lay these in very cold water for ten minutes, take them out, drain lightly, dip in fine sugar and then fry a few at a time in smoking hot fat to which you add them. When done, which will only take a minute or two, take up, drain from fat on paper. Pile up on a very hot dish, dust a little sugar over and serve.

Care of Our Best China. Yes, there is science in it. Do you forget when washing gilt edged china or any delicate china with gilt designs that it must not be wiped dry? It should merely be placed on the table or in a large pan to drain until dry. Wiping such china will wear off the gold. China of this kind should never be washed in water containing borax, ammonia or soap. A piece of flannel-ette should be placed over each of the gilt plates and saucers, and that piled together in the china closet. This protects the gilt from scratches.

Hint for Fitting Collars. When putting on a collar make neck of bodice or blouse slightly smaller than base of collar band and notch bodice here and there while putting collar on. By so doing you avoid wrinkles.—Exchange.

Model of Satin Beaver. There seems to be an evenly divided opinion as to the popularity of large and small hats, so one may wear either in the fashion. A happy medium is offered and sure to win high favor. It is black satin beaver, with a wide underbrim and the semi-high crown is encircled with soft black satin ribbon. The intricate ties artistically arranged at the back are white.

White and Black. Now that the time has arrived that a coat or wrap of some sort is a necessity as well as a luxury, the woman who neglected this item of her wardrobe is busy making up for her deficiency. There is nothing surprisingly novel in this line and the newest coats are all of simple design, which promise to be so extensively made and worn for winter wear. A charming and practical wrap of this sort is in white cloth with a double collar and fancy same material and inset collar and cuffs of black velvet. The latter is headed by a hand of Oriental embroidery, which also makes the reverse down front of coat. Two fancy buttons effect a closing for the belt.

Useful Velveteen Skirt. The velveteen skirt is considered quite the correct accompaniment for separate bodices of all sorts and descriptions. It is pared, it is of circular cuts; it is shown in, flounced and striped designs, and it is displayed trimmed and untrimmed in the new fast days, is far and away the favorite, since reasonably so, since a black skirt will carry any shade of color, with good effect. But dark

short, graceful skirt is made with groups of plaits. The jacket, with double basque, has note-like reverse of the material, to which is attached a rippled shoulder collar of the same. The turnover collar is of taffeta, matching the gown, and the bodice is striped with bands of taffeta and tulle. The plain coat sleeves are slightly full at the top.

Old rose broadcloth coat robe, with bow and buttons of a darker red.

Fall Girdles. The girde will be all the style this coming winter and this is good news for the woman who likes to wear a girde and who can make the article for herself. The winter girdles are made of velvet, which is gathered and boned and made to fit the waist line. The deeper the girde the better, providing it fits well; and if it be cut to a point in front and trimmed with the knots of velvet and a few buttons, so much the better for its general style.

Handsome Fall Costumes. The first costume is of green cloth and green velvet. The skirt is of velvet encircled at the bottom with wide bands of cloth stitched at the edge. The blouse is also of velvet, with stole collar, center plait and girde of the cloth bordered with stitching and embroidered with soutache. The sleeves are of velvet, finished with cuffs of the same and last wrist ruffles. The other gown is of deep violet cloth. The

Douair Confidences

Buckles of peacock blue and green are liked. The popular velveteens have a soft chiffon finish.

IDEA CAME FROM SHEFFIELD. "First Commercial Traveler Sent From That City"

It has generally been supposed that the commercial traveler is a product of our own busy days, but as early as 1757 a Sheffield cutlery manufacturer conceived the idea of sending to the continent glib talkers to convince the merchants that the English-made cutlery was superior to that of local manufacturers, and so started was his success that it was not long before the same idea was put into practice in other lines.

As early as 1765 the term "bagman" had become common, the word being defined in Murray's Dictionary of that year, the example being quoted from "The Commercial Traveller." The title "commercial traveler" is the only modern part of the idea, the ancient bagman lasting until the improvement came to be termed the "traveler."

In earlier years the salesman traveled with his samples in a bag slung over his shoulder and strapped to his horse's back and moved from place to place, and it was not until the passing of the stage coach days that the sample trunk became the feature of the traveler's outfit.

Colorado Schoolman is Sure Death to Reptiles. Mrs. Emma Hickey Meyer felt a glow of pride as she gazed at a respectful distance—at the trophies of the chase brought her office by her pupil Miss Rachel Hitchman, schoolman at Hale, Republican, river, Kit Carsoo county, Colo.

Miss Hitchman killed a big rattler that appeared among her pupils one day and threatened damage. She took a club. The snakes were skinned by her, too, and she sought Mrs. Meyer to accept one of the biggest to be made into a belt.

Miss Hitchman is a city-bred girl and a year ago appealed to Mrs. Meyer to get her a position as teacher away out on the prairie. This was done. After nine months' experience she returns to Denver delighted with her adventures. Her education included snake killing and snake skinning, (snarl throwing and riding a cowboy. —Denver Republican.

SUFFERED TERRIBLY FOR 66 YEARS

Mr. J. W. Cotton, of Winchester, Ind., Tells of his Awful Suffering From Constipation and Points out the Road to a Sure Cure for all those who Suffer From This Dread Disease. Another Triumph for Iron-Ox Tablets.

One of the most extraordinary cases on record is that of J. W. Cotton, of Winchester, Ind., who was cured of chronic constipation by Iron-Ox Tablets after sixty-six years of suffering. He writes as follows: "I am suffering from chronic constipation by Iron-Ox Tablets and have been astonished by the results. I am almost 86 years of age and have been constantly constipated since I was 20 years old, being compelled to take medicine to move my bowels. After using Iron-Ox a short time I have daily evacuations. J. W. Cotton, Winchester, Ind."

Remember there is a vast difference between curing constipation and giving temporary relief. There are many harmful preparations sold that relieve the oppressed bowels for a time, but consider at what a cost! The lining of the bowels, more delicate than almost any other part of the body, is shocked and urged to violent action, but the harm is so great that the disease is made worse instead of better. Iron-Ox Tablets are gentle but sure in action, toning up every organ to a state of health and normal activity. Write to Dr. J. W. Cotton, Winchester, Ind., at your druggist's, or write direct to The Iron-Ox Remedy Co., Detroit, Mich.

Constipation Cured

Chronic Constipation means a life full of pain and misery. No human constitution on earth is strong enough to allow of either good work or enjoyment of any kind while this foe to health is present.

Iron-Ox Tablets

Cure the most Stubborn Cases of Constipation. Remember this point, Iron-Ox Tablets are different from any other medicine for constipation that is sold. They do not act so quickly as some, for quick action means violent action, and violence means danger.

Remember this point, Iron-Ox Tablets are different from any other medicine for constipation that is sold. They do not act so quickly as some, for quick action means violent action, and violence means danger. Farsh purgatives rack the delicate system, weakening it so that after a time it refuses to respond to even this drastic treatment, leaving the victim ten times worse than before. Iron-Ox Tablets in a handy aluminum packet cost 25c at your druggist's, or write direct to the Iron-Ox Remedy Co., Detroit, Mich.
