up and its health can easily suffer on account of neglect to keep the house clean.

It is very natural to think that the cold weather will freeze the droppings as fast as they accumulate, assumed the control of the c

with humans.

Money from Fesd.

One man feeds hens at a coat of 30 cents per hen may think that he is making money by his economy. Very often this will prove not to be the case. The man that has taken the trouble to feed his fowls on a mixed ration with consideration of the control of 75 cents per hen may think that he is making money by his economy. Very often this will prove not to be the case. The man that has taken the trouble to feed his fowls on a mixed ration with consideration of the control of 75 cents per year will be to get the cost of the ration under a dollar a year.

The man that feeds his fowls at a cost of 75 cents per year will be found to be feeding a very large all through the winter begins to melt sive ration is generally getting eags all through the winter begins to melt sive ration is generally getting eags all through the winter begins to melt from the feed the more expensive ration is cheeper. The real question is how to make the feed fed pay for than that feeds the more expensive ration makes money, and the other man does not.

It is not a question of which ratio is cheeper. The real question is how to make the feed fed pay for which we call profit. The hen is but a machine to take the feed we raise or buy and change it into a product that is worth more than the raw product.

Production of Hogs.

Production of Hogs.

There is little danger of an overproduction of hogs. The difficulty is
to get enough of them. Curtailing
the production will not send up the
price correspondingty, as people will
pay only just abort so much for any
ne kind of mest red them will turn to
something else. There should be millions more hosp produced every year
life as the hog there is no reason
why the supply should not be adequate to mer? "he demand. It is
doubtful if the famer can raise any
naminal that is move profitable than
the hog.

For a number of years prices for turkeys all over the country have been good. Wholesale prices have been good. Wholesale prices have ene steadily going up, and in New York for the past ten years they have been steadily going up, and in New York for the past ten years they have holesale prices in the same time have ranged from \$ to 12 cents per food, but lower in Chicago, where the have ranged from \$ to 18 cents. The best stock can always be sold high, while poor stuff is always a hard thing to get rid of. Even a turkey, should be the stock of the stock of

FOLEYS HONEY AND TAR

BEWARE OF IMIT

On account of the great merit and popularity of FOLEY'S HONEY AND TAR for Coughs, Colds, and Lung Trouble, several manufacturers are advertising imitations with similar sounding names with the view of profiting by the favorably known reputation of FOLEY'S HONEY AND TAR.

DO NOT BE IMPOSED UPON

We originated Honey and TAR as a Throat and Lung Remedy and unless you get FOLEY'S HONEY AND TAR you do not get the original and genuine.

Remember the name and insist upon having Foley's Honey and Tar. Do not risk your life or health by taking imitations, which cost you the same as the genuine. FOLEY'S HONEY AND TAR is put up in three sizes -25c, 50c and \$1.00.

Prepared only by FOLEY & CO., 92-94-96 Ohio Street, Chicago, Illinois.
