WE ARE at last able to offer our readers the opportunity for a new education and entertainment for which they have been long waiting. For many years this country should have been the home of a complete library of the world's standard books. It is now possible to secure a complete library of the world's standard books for a very little money. We have secured the rights to these books and are now offering them to our readers at a price that is truly remarkable. This is a chance that will not be repeated.
