TRUSSES

THE RIGHT KIND TO BUY.

You can buy Trusses for almost nothing, or you can pay a very high price for them; but the price of a Truss does not prove that it is going to be the Truss which you need.

Every case has to be fitted individually. That is where we have our big success with Trusses. No one goes out of our store with a Truss that does not fit perfectly.

Therefore a great many people are wearing our Trusses and sending their friends to see for Trusses. If you are wearing a Truss and it does not feel right or stay in the right place come in and see us about it. We will tell you whether it is the right Truss for you to wear.

SOME NEW FACTS ABOUT APPENDICITIS

Why Appendicitis is so Deadly. Hospital records show that nearly one-third of all surgical operations are for appendicitis, and the unfortunate feature is that eighty per cent. could have been avoided altogether.

The old theory about grapes and other acids has been discarded, and any good doctor will tell you nowadays that constipation causes appendicitis almost without exception.

The opening into the appendix is no larger than the head of a pin, and if the least foreign matter enters, inflammation ensues, and there is sure to be trouble.

Constipation and appendicitis will never trouble you if your bowels are regulated with Laxakola.

Constipation: Its Cause and Cure, a little treatise worth golden dollars, is wrapped around every 25 cent bottle.
