HOME NOTES

New Advertisements. S. B. Merritt—Shaw—Pontiac.

Food sale for Village Improvement Society May 7.

The Eastern Star Lodge has planted a fine elm tree on one of our streets.

For Sale—Early and late seed potatoes. Inquire of H. F. Daniels.

Frank Simpson, of Goodison, was in town last week calling on old friends.

Wanted—About 40 acres with buildings near car line. Nelson Shattuck.

Over 900 packages of flower seeds were given out in our school one day last week.

Five dollars fine for spitting on the sidewalks or in public buildings in Detroit now.

Pure bred Pekin ducks and ducklings for sale at Hupp farm. See notice in first page ad.

For Sale—One cook stove, base burner, small heater, gasoline stove with oven and sideboard. J. A. Trend.

Mrs. B. F. Ward, nee Belle Smith, is home for a short visit among old friends and her father and mother.

Visitors at Mrs. Elizabeth Randall, recently: Miss Carrie Kimball and Mrs. Delia Phelps of Pontiac.

For Sale Eggs—Thoroughbred Plymouth Rock eggs for hatching. \$1.00 for 15 eggs. Inquire of Volney B. Miller.

For Sale—Good hickory mill wood, \$2.00 per cord, delivered. Inquire of W. L. Miner at handle factory.

Early and late potatoes for sale. Early Everett and New York Rurals. Inquire of Thos. Cook, Birmingham, Mich.

I. Lee Truax will store your heating stoves for the summer for \$1.00. Drayage extra. He guarantees against rust.

Four year old brown gelding for sale. For particulars inquire of E. P. Halsey in Troy, or write R. F. D. 4, Birmingham, Mich.

For Sale—Trio of Silver Wyandotte chickens, and a pair of tame coons—male and female. John Wilkinson, Birmingham, Mich.

The W. C. T. U. will meet with Miss Mary Miller, Southfield Ave., Tuesday, May 9, at 3 p. m. A full attendance is requested. Sec'y.

Property for sale on Saginaw street. Terms reasonable. For particulars inquire at Exchange Bank or of Mollie G. Smith.

Our drinking fountain has been planted and put in order by the village, and the horses whinny forth their thank you's when they come in sight of it.

There will be a special meeting of Birmingham Chapter, No. 250, O. E. S., Friday evening, May 15.

The Rev. M. H. Bartram of South Lyon, former pastor of the M. E. church here, was in town on Tuesday last enjoying a chat with his many old friends and they with him. Come again, Elder.

Jack Baldwin, one of Birmingham's disciples of Isaac Walton, wants to hire a small boy to "shin" the Methodist church spire and grease the weather vein so he can tell which way the wind blows.

Mr. Jenks, Mgr. of the W. W. Collier farm, passed through our city Tuesday morning bright and early with a barn on wheels 20x36 and the horse trotting at a 2:10 clip. It was a sight worth seeing.

A drive of eight miles in 25 minutes by Dr. Guillot of Pontiac and the prompt use of the stomach pump saved the life of Clarence Warner, a West Bloomfield young man, who had swallowed a dose of lauanium by mistake.

Don't forget that the Ladies' Aid of the M. E. church will meet with Mrs. C. H. Hoffman this afternoon. Supper will be served from 5 to 7 and if Frank Blakested don't show up with his ten cents there's going to be trouble.

A bright, healthy, husky boy, weight 10-12 pounds, arrived at the home of Mr. and Mrs. Hiram Parks of Troy and signaled his intention of staying right on the farm and growing up with the country. Everybody doing nicely.

The verdict of the coroner's jury over the remains of Geo. J. Karlin, found in the Trowbridge woods recently, was that deceased came to his death by strychnine poisoning, the drug being administered by his own hand.

If you did not plant a tree last Friday, (Arbor Day), you failed in doing your duty. The only man we saw doing his christian duty a week ago today, was Mr. Charles Dickinson, of Elm Crest, who, true to nature, set out a beautiful elm tree.

Pontiac & Bay City Traction Co. may lose their franchise by a lapse, owing to litigation. This is the company that is to build the proposed line down past Franklin and through Southfield. We certainly hope they will make a go of it.

Miss Helen Shaw has been on a visit with the family of R. C. Cummings at Franklin (Aunt Mat's). While there she wrote to her brother Harold. "Come over and see me with Papa and I'll wait for you at the creek."

Birmingham Chapter, No. 220, will hold a special meeting May 12 to entertain the Worthy Grand Matron, Margaret T. Moore, of Bay City, and do other work. Refreshments will be served. By order of the Worthy Matron.

D. C. Nale, the optician from Pontiac, has been here the past two days and will come here two days each week, Wednesday and Thursday, to test eyes and fit eye glasses. He is well known and gives satisfaction in work and quality of goods.

Mrs. Miles Dewey, one of Troy's best known pioneer women, died Monday night at some time. Her husband, and one daughter, Mrs. Mack Shain survive her. The funeral was held Thursday afternoon from her late home.

J. A. Linabary after 33 years continuously as hotel clerk, 16 of which have been at Hotel Hodges in Pontiac, has resigned. Before taking up any other occupation Mr. L. will enjoy a much needed and a well deserved vacation.

About 40 youngsters aged from five to eight years, playmates of Edward Smith, helped the young man celebrate his 7th birthday anniversary Saturday last. Very many presents from the young friends proved Edward's great popularity among his friends.

Billy Duff lost his damage suit against Postmaster Wyckoff, of Pontiac, having sued for the price of a buggy burned in a shed in the rear of the postoffice. Duff claiming the shed caught fire from some burning papers which Wyckoff had ignited. Judge Smith said "No cause of action."

Nelson Shattuck has moved into his new home, the Sawyer place on Woodward Ave. Pretty soon there will be seen on these premises two fine, separate dwellings, besides a four-family terrace, which ought to supply the demand for homes in Birmingham for at least a month.

The Village Improvement society has painted the seats, painted and

put the fountain, taken tags off several buildings and marked with "Post No Bills," painted some new street signs, repaired the fountain at the depot, put out trees, and fixed things up generally.

Mrs. Zilpha Simonson spent part of last week visiting her three grandchildren in Detroit, children of her daughter Lucy A. Simonson, of this place, whose sad death left three motherless. She was accompanied by Mrs. Bertha Wilde, of Mt. Clemens.

Richard, whose pet name used to be "Dicky," is dead. He was buried Tuesday of this week and had a most elaborate funeral as fine as any F. F. B. canary bird ever had. Two chief mourners of Brown street did the honors and tears flowed most copiously and freely. R. I. P.

Next Sunday, May 7, the Grand Trunk Railway System gives one of its popular excursions. You can go to Grand Rapids and return for \$2.10; Battle Creek, \$1.75; Lansing, \$1.25; Saginaw and Bay City, \$1.55. Train leaves Birmingham 7:45 a. m., returning at 11:10 p. m. No baggage checked on Sunday excursions. Don't forget this is the first excursion of the season. Why not go?

The baseball season will open here on Saturday, May 6, with a game between the Walpole Indians and the home team. Good grounds have been fitted up and new uniforms purchased, the merchants and citizens coming forward and subscribing generously to aid the boys. The games this year will be conducted by the Birmingham Athletic club, and order will be maintained at the grounds. A good team has been organized and strong teams will be played throughout the season. Come to the opening game as the opponents are genuine red men and a fast team of ball players. The boys are under big expense so admission will be 25c for gentlemen, ladies and children 15c.

The fight that has been on at Pontiac, and a hot affair, too, between the doctors and supervisors of Oakland county over the fees to be charged by doctors for post mortems is over. At a recent meeting held in Dr. C. D. Morris' office the following schedule was adopted: External examination, \$5; opening any or all cavities, \$30. If the distance to be traveled in the first case is more than one mile from the center of the city, mileage will be charged. The supervisors claim the doctors' charges are exorbitant and the doctors claim the supervisors are unreasonable. The Pontiac society further decided to place on their schedule of fees \$25 per day or fraction thereof, for appearance in court as a medico-legal witness.

THESE WERE SMART FOXES. They "Spelled" Each Other and Fooled a Pack of Hounds.

I have a near neighbor who is a close and intelligent observer of the ways of wild animals and a truthful and reliable man, says a writer in the New York Times. He says that on one occasion he and his dog went in Maryland, standing on one side of a very high hill, while the dogs and fox were across a deep gulch about half a mile wide. The foxes went up the high hill, for a good deal of the time in plain view.

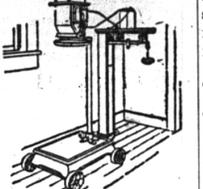

As the chase proceeded he noticed a second fox seated on a log and apparently interested in the outcome. After some time, as the dogs were heard approaching, this fox ran down at right angles to the direction they were coming and met the running fox and took his place ahead of the bounds, while the third animal sprang to one side and trotted directly up the hill and seated himself on the log for a rest.

The fresh substitute then led the dogs a lively chase for a long circuit and finally the pack again were heard approaching. This time for No. 1 was fresh and ready and ran down and met his fatigued brother and put himself before him where the foxes and pack are kept scrupulously bright and clean, the latter saving is by no means the least desirable feature of the device.

Uniform Setting of Concrete. California has instituted a novel method of constructing concrete walls which uniformly in strength, cost, and unusual freedom from cracks are obtained. Between the framing forming the outer and inner surfaces of the wall are placed hollow cylinders, smaller in diameter than the thickness of the wall, and the spaces between the cylinders are filled with several holes, with the idea of draining water from the fresh concrete as it is poured into the form. The concrete is allowed to set during the night, and in the morning the water that has collected on the cylinders is pumped out. From two to six inches of clear water is withdrawn at the end of ten or twelve hours. The cylinder is then extracted and the space left with concrete.

Automatic Sprout Cut-Off.

Always in demand, as the manufacturer and producer are continually on the lookout for machines that will increase the quantity of material produced and at the same time lessen the cost. Machines which can also do work more accurately and more quickly than can be performed by hand also find a ready sale. In the illustration is shown an apparatus of the type used for weighing products of other similar substances, an automatic spout cut-off regulating the desired quantity. It is

Cuts Off Flow of Material. Adapted to be placed beneath the mouth of a thrasher, rice mill, flour mill or elevator and connected with the ordinary platform or other electric mechanism is connected from the scales to the mouth of the hopper, and is so arranged that when the flow is full the electric circuit closes and the material automatically stops the flow of it.

The construction is such that the parts will not readily get out of order, nor is skilled labor required to operate the device, the results obtained being accurate. A means for holding the legs in position while the scales filled is also provided. The scales naturally can be of any desired pattern, the detailed parts of the device being in the automatic circuit closer, which is actuated by the raising and lowering of the scale beam as the material is emptied in the bag.

Lighter Motors for Cars. By the use of worm gearing between the motors and axles on the new motor cars on the Zurich-Oberkorn electric line in Germany the weight of the motors has been reduced 50 per cent. The reduction ratio of the gearing is 12 to 1, the worm having a triple thread with a pitch of 120 millimeters and an angle of 20 minutes. The little worm wheels are of phosphor bronze. In trial tests the gear has shown an efficiency of 96 per cent in transmitting the power. The worm is lower and a little less at higher and lower loads. The worm gearing weighs only 300 pounds, which with motors mounted on 500 lbs. and running at 1,200 revolutions per minute, is a substantial reduction from the weight of the ordinary spur gearing of equal capacity, 650 pounds.

Aid to Revolver Shooting. Possibly as an aid to the man who is looking for trouble comes the invention of an electric light attachment to revolvers by means of which the user may illuminate the object at which he is pointing his revolver. At the same time screen himself in darkness. The inventor places a miniature dry cell in the handle of the revolver, which is electrically connected with the cell is located at the under side of the barrel of the weapon.

Sectional Frying Pan. The sectional cooker made its appearance in various forms during the past few years shows that a demand exists for the introduction of room and fuel in the household. Perhaps the most successful of the gas stove with its limited number of burners has emphasized the sectional labor and better economy. A frying-pan in which two operations can be conducted at the same time should be a great boon to the domestic order cook, as well as to the dirt

very tiny that presides in the kitchen of the smallest household. It means that the meal can be hastened, that it can be amplified in variety without much additional labor, and that the saving time in the cooking, it means less fuel, when gas is used, and one less pan to be cleaned. In the modern operations, where the hot and cold pans are kept scrupulously bright and clean, the latter saving is by no means the least desirable feature of the device.

Uniform Setting of Concrete. California has instituted a novel method of constructing concrete walls which uniformly in strength, cost, and unusual freedom from cracks are obtained. Between the framing forming the outer and inner surfaces of the wall are placed hollow cylinders, smaller in diameter than the thickness of the wall, and the spaces between the cylinders are filled with several holes, with the idea of draining water from the fresh concrete as it is poured into the form. The concrete is allowed to set during the night, and in the morning the water that has collected on the cylinders is pumped out. From two to six inches of clear water is withdrawn at the end of ten or twelve hours. The cylinder is then extracted and the space left with concrete.

WILLIAM H. ELLIOTT CO.

GROW SUGAR BEETS FOR Mt. Clemens Sugar Co.

Not owned or controlled by the Sugar Trust. HAVE SPECIAL INDUCEMENTS TO OFFER. Don't contract with anyone until I call on you J. F. Rundel.

VERY UNLUCKY

The Whole Planetary System Must Be Out of Whack with our Village. A VARIED CHAPTER OF ACCIDENTS. Everybody Advised to Watch Out—Perhaps It is Standard Time, Who Knows? Mrs. WILLIAM POOLE. Over a week ago Mrs. William Poole, an early settler in these parts and quite an old lady, met with a severe accident. She fell from a chair and fractured a hip bone, making a bad break and one that has kept her in bed for many a day. Besides this bone fracture she sustained many bruises, being quite feeble besides her advanced age, it makes her case more than pitiful.

Seven months ago Mrs. Hattie McBride sprained her ankle and is still confined to her room—a severe case. She has the sympathy of a host of friends who wish her a safe and speedy recovery. WILLIAM MILLS. This is where William the First went real mad. While peacefully wending his way along the highway Saturday last riding a drilite his farm, young Angus son of his father Newton Annis, the farmer of Detroit, bumped into William with his auto. The bump was serious, not to William who landed on his head in a ditch—his horse ran away and the car rolled over considerably. The driver Blumberg at the toll-gate stopped the runaway horse. It cost the young chauffeur nearly \$15 in cash besides plenty of worry. The steering gear not working, is said to have caused all the trouble.

John Wier of Rochester spent Sunday here. Don't forget the social at Maccabee hall tonight, May 5. Gospel meetings at the school house every night from 7 to 9 o'clock. D. Harris and family spent Sunday with Clark Harris and family. Mrs. Lowe and Mr. Pallister visited relatives at Highland Park last week. Mr. and Mrs. August Shults spent Sunday with their son Fred at Rochester. L. L. Houghton and family move to Birmingham this week, he having sold out to Will Lamb.

CLAWSON. Arthur Grove's little girl is improving. Born recently to Mrs. Frank Bowman, a boy. Ed McBride and family visited with James McBride Sunday. Lee and Mark Halsey work at the Watkins farm this year. Ell Phillips and family are expected home from North Carolina this week. Mrs. O. A. Hunt and little daughter, Christine, were laid up with measles last week.

Mrs. Hattie Rice of Toledo, Mrs. S. Cook and Mrs. C. Cassimer of Orion visited Mrs. E. E. Avery last week. Blood poison creeps up towards the heart, causing death. E. S. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica ointment cured his hand. Best in the world for burns and sores. 35c at Whitehead & Mitchell's and Cobb & Coble's drug stores. Trial bottle free.

Well! Well! Sir William W. Balfour says that "An ounce of Sam Weller is worth more than a pound of drugs." Even if you are well Dickens will make you feel better.

Whitehead & Mitchell and Cobb & Coble say Louisiana Tonic Tablets Work Wonders for the Skin. It is hard to tell just why these little tablets have become so popular with Birmingham ladies but considering the short time they have been advertised, the demand for them has been cause for wonder. They are so different in appearance from other laxative tablets, but they really must possess unusual merit for from our own personal observation we know that they in every way just what is expected of them. Their action upon the skin and complexion is remarkable for the principal ingredient in them is extract of Cascarella, and your own doctor will tell you that cascarella is one of the greatest skin alternatives known to the profession. If your bowels are inactive, your skin sallow, your tongue coated, your breath foul, and if you are troubled with pimples, bilious spots and sick headache, a 25-cent package of Louisiana Tonic Tablets will clear up your complexion, tone up your liver, encourage the action of your bowels and make you sweet, clean and healthy, inside and out, or these drugs will gladly pay back your money.

SOUTHFIELD. Mrs. Charles Youngs is on the sick list. Robert Fallam is working for James Parks. Miss Lowe and wife visited friends here Sunday. Miss Verne Beckworth was home one day this week. Clyde Hooper is working part of Robt. Gamble's place. Mrs. Jenks has been visiting relatives and friends in Detroit this week. Robert Churches planted 15 acres of corn Monday. He looks for a good crop. Matched team for sale. Write or inquire of Robert Church, Sand Hill, Mich. Elmer Klett and a lady friend were visitors at the home of the former's grandparents last Sunday. Arthur Simmons spent Sunday with his uncle and aunt, Mr. and Mrs. Charles Simmons, of this place. For thoroughbred Black Minorca roosters inquire of Chas. Simmons, Birmingham, Mich., R. F. D. No. 5. A new store is started here under the name of the "Star" grocery. Your trade solicited. The proprietor thanks his friends for their kindness.

Mrs. Dan Hughes is under the doctor's care. Miss Ruth Stephens and Helen Clark have both been sick. Master Leon Miller spent two days at Birmingham last week. Mrs. Kate Nell, of Royal Oak, visited Mrs. E. R. Brooks' last Sunday. Mr. and Mrs. Bert Wood, of Franklin, spent last Sunday at V. B. Miller's. The Cleaner society will meet next Wednesday with Mrs. Justin Jenks. The Willing Workers were pleasantly entertained at the home of Mrs. J. M. Biddow.

The Southfield F. M. S. of the U. P. church will meet on Thursday afternoon, May 1, with Miss Mary Miller at Birmingham. Miss Mary Harmon is home for the summer. She will lead the Young People's meeting next Sabbath evening. Services at 7:30. An invitation is extended to all. Saved by Dynamite. Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite could cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took King's New Discoverer for Consumption, Coughs and Colds, which cured her cough, gave her sleep, and finally cured her." Sincerely complimentary for bronchitis and Croup. At Whitehead & Mitchell's and Cobb & Coble's drug stores, price 50c and \$1.00; guaranteed. Trial bottle free.
