

Wanted, For Sale, For Rent.

Don't make any mistake, but remember the name. Swamp-land, Dr. Kilmore, Swamp-land, and the address, Birmingham, N. Y. an every bottle.

PRIVATE HOME FOR AGED WOMEN. Located at Third Ave., Detroit, Mich.

FOLEY'S KIDNEY CURE... CHILDREN'S MONEY... CHILDREN'S SHIRT...

Funny

That you leave the stable door unlocked until the horse is stolen... but it's history and human nature.

Peculiar

and lock the door NOW by renting a safe deposit box in the Exchange Bank for \$1.00 per year?

But Correct

TRUSSES

THE RIGHT KIND TO BUY.

You can buy Trusses for almost nothing, or you can pay a very high price for them; but the price of a Truss does not prove that it is going to be the Truss which you need.

DO YOUR KIDNEYS ARE THEY WELL? Unless they are, good health is impossible. Every drop of blood in the body passes through and is filtered by healthy kidneys every three minutes. Sound kidneys strain out the impurities from the blood, diseased kidneys do not, hence you are sick.

FOUR PER CENT INTEREST PAID ON DEPOSITS FROM AND AFTER JUNE 1, 1903. PONTIAC SAVINGS BANK Capital and Surplus \$68,000.00 Assets \$600,000.00

A wet morning, walk, but he won't catch cold! He drank Seal Brand Coffee for breakfast. Sold by WHITEHEAD & MITCHELL

Markings on the Saw. An invention pertaining to compound tools of the saw type has for its object a design as simple and efficient as the ordinary saw and almost, if not quite, as cheap, and provides the amount of rise per foot of run of blades means by which the various angles are resorted to in carrying out what would be expeditiously and easily found and marked.

Painted Paper for Steel. As a result of ten years' experimenting on the durability of paints an eastern railroad has now introduced a system of protecting smooth steel surfaces in its stations with painted paper. Of all the paints tried none was found which could be relied upon to protect a clean steel surface more than eight months under the extremely severe conditions of the test.

Rocking Chair Cradle. Every mother who has a preference over everything else, and who will invariably make every sacrifice she can to add to its comfort and ease. A baby takes a great deal of care and watching, and this always falls on the mother in addition to the regular household duties. If she puts it to sleep upstairs in a cradle, it means a run up and down steps to attend to it and her work also.

Aluminum Detects Mercury. The power of aluminum has for absorbing mercury vapor has been proved by H. Targui to constitute a delicate method of analyzing the presence of mercury in the atmosphere and furnishes a means of prevention against poisoning by the mercury fumes which are produced by the burning of chloride of mercury.

Submarine Telephone. Great things are expected from the submarine telephone by officers of the United States Navy. The devices underlying it are very different from those of wireless telegraphy. In the latter the telegraphic impulses are transmitted through the air or ether by electricity. In the submarine telephone sound waves travel through water unaided by any electrical force. Water, being denser than air, acts as a better sound conductor. It transmits sound four and a half times as fast as air, 1,100 feet per second, being the rate in air or ether, while in the water it is 4,712 feet, or almost a mile a second.
