THE YOUNG MAN

BY BELLE BONVILLE

(Copyright, 1905, by Daily Story Pub. Co.)

Mayne Winslow had a decided aversion to seeing the "localities" of a strange city, and always declined emphatically to "go through" any institutions by way of sight-seeing.

Mayne walked into the family dining room, where she saw that covers were laid for the commandant, his wife, a major connected with the institution, her father and herself.

"I have to go to the city now," he said, "but of course you will be here on my return, Miss Winslow, and should like to take you for a drive with your father and the colonel en route."

"I suppose you were in Cuba, Lieut. Loranger?" "Yes, and later in the Philippines. I have recently come from there."

YACHT CLUBS AND HOUSES.

Investment in Pleasure by Devotees. A. F. Aldridge, in an article recently published in Pearson's Magazine, estimates that the yachting industry is invested in yachts, \$6,000,000 in clubhouses and yachting boats...

One of the comical errors that at times appear in print was furnished some time ago, and is recalled by a recent electrical disturbance in the city.

Everybody was puzzled at what the phrase meant, and there was much speculation as to the meaning of it.

It is who should apologize and explain. When I dined upon some beefsteak, I decided to make a most natural inference—I was so taken by surprise I did not explain.

GOOD WORK OF SCIENTISTS.

Monograms always, pigeons have given us not a few of their best. Pigeons are so much more intelligent than we are that they have been found that pigeons in captivity, even in the artificial atmosphere of a city, are more intelligent than we are.

Great sums are saved for the agriculturists of this country by the efforts of the government bureau of entomology. The cotton worm before it was studied and the method of control was known, the use of arsenical dust was made common.

Curse to Stay Cured.

Wapello, Iowa, Sept. 11th (Special).—One of the most remarkable cures ever recorded in Louisiana County is that of Lydia E. Pinkham's Vegetable Compound, and then written to Mrs. Pinkham, Lynn, Mass., for further rec-ommendation.

Plan to Study Birds.

For the purpose of studying the habits of birds of passage a "wild bird club" has been organized in eastern Prussia, where birds are to be caught and liberated again after a few days.

Noises in Her Head.

Sir Walter Scott's writing was as true as the proverbial saying. Taking advantage of this cunning rascal by some means obtained possession of a note of unquestionable illegibility, he had the note written, and presented it to Sir Walter's tailor as for a couple of suits of clothing.
