An Oxford man sneeze'd out his false teeth while in his hay-loft throwing down hay for his horse the other day and the most exhaustive search failed to locate the molars although every place in the barn has been minutely examined except the interior of the equine. The horse couldn't tell if he chews whether he has two sets of teeth or not and altogether the situation is not at all pleasant.—Northville Record.

"The Helpful Hen" is the subject of an interesting essay by one of our country newspapers. It is an excellent subject. Promote the hen and she will help you. She never goes on the strike; she doesn't begrudge the time she sets on her eggs. Intensify the hen and watch over her brood. They will put your boys through college, keep your girls in finery and pay your debts. Nothing more helpful than the helpful hen.

Pontiac's Chamber of Commerce Business Men's Association as announced by the Evening News is about as dead as a thing can be. Not long ago a meeting was called to talk over and receive propositions from representatives of factories wishing to locate at our county seat and it is said that there were more candidates looking for locations than members of the association Wouldn't that surprise you for the banner town of Oakland county?

Birmingham telephone service is growing. The Michigan State Telephone Company have located in our little city, a "trouble man" to care for all the phones in the Birmingham and Royal Oak exchanges. Mr. G. F. Thayer is the new man and as he is an expert electrician, pleasing, agreeable and accomodating, that branch of the business will now always be in good shape. He is boarding at Mrs. Nellie Camp's and expects to become a Birminghammer all the rest of his life.

When a man is known to be capable of performing certain things 600 miles from home it follows that he is possessed of talents to a certain degree, and thus our nurseryman and landscape architect, R. J. Coryell, was sent for to visit Marquette Normal School and superintend and lay out the grounds belonging to that institution. He is making a flying visit home, and reports snow from four to eight inches deep. He says they have about 16 acres capable of making a beauty spot for the school.

A. J. Fisher, a Pontiac real estate agent, has branched out as a publisher, having issued from the office of the Michigan Printing Company a neat little booklet of about 100 pages, entitled "Jiggers." The work is copyrighted and tastfully illustrated by Allen, the Detroit Free Press cartoonist. Mr. Fisher is the author of 501 jokes—original and otherwise. Five hundred are in the book—the other he perpetrated on the office devil by giving his satanic majesty a copy of the book. Invest a quarter and get your money's worth.

A great many of our contemporaries have been spending much time and much space in an attempt to explain bucket-shop gambling. How ridiculous! Gambling is a participation in a game of chance. A bucket-shop keeper never was guilty of that crime because the patrons of bucket shops, at no stage of the game, ever have a chance; therefore they do not participate in a possibility to win. A bucket-shop proprietor is not a gambler—he is a thief. Indict him as such, and we might see a conviction. His patrons are good fellows, a polite term for suckers.

Orders are, from time to time, issued that all must be vaccinated who do not possess the proper scar, as a prevention against small pox. This is very sensible, and the reason orders are not issued for all to insure their property is that makers of laws do not consider it necessary, as self-protection and preservation is a natural trait in all. Neglect and thoughtlessness may prove disastrous and burdensome, and to ease the burden insure your property in the Old Hartford and your wages in the Ætna. JOHN ALLEN BIGELOW, Agent.

Last week Bigelow went fishing. Nothing strange about that you will say but just wait a minute. Before he went he told Frank Blakeslee a tale like this; "Now Frank, I've been fishing many a time and almost every time I've promised you a good string of fish. But things look different to a man when he gets in at night, and I've neglected you sadly, but this time I give you my word of honor, every fish I catch today I'll bring you." Next morning he brought in two smoked herring. Now Blakeslee is wondering how long a line ie takes to get to salt water to catch herring.

The following is good enough for any city and we congratulate Royal Oak on her good fortune: Articles of association were filed Thursday in the county clerk's office by the Mitchell Shoe Lining Company of Royal Oak. The capital stock of the corporation is $150,000 and is sold at $100 a share. The stock is divided among three stockholders, who hold each 50 shares. They are: Jacob Mitchell and Lewis C. Waldo, of Detroit, and Hugh McCormick, of Royal Oak. The main office of the corporation will be in Royol Oak. The firm will manufacture all shoe linings and back stays for shoes.

A five-number entertainment course will be among the attractions for Birmingham and environs. The Epworth League has undertaken to make it a success. The talent is all paofessional, and new to Michigan. The Hossler Concert Concert Company (4), of Pittsburg; The Dickson Jubilee Company (6 people); Jno. G. Scorer, lecturer, of Philadelphia; and Milton W. Brown, lecturer, of Cincinnati. One number, an entertainment, has not been definitely chosen. Every Birmingham family that has the welfare of its home town at heart ought to patronize this course and encourage the League.

No town will become a good business center so long as its business men rely on a few merchants to make the effort to bring trade to town. Too often the men in a few lines of trade are about the only ones that reach out after custom. Other merchants wait until these men induce the people to come to town and content themselves with trade that naturally drifts to their place. A public spirited man should ask himself if he is doing his part to attract people to come to town to trade in helping the entire business community, and no town is a success unless all lines are working to extend the trade as far as possible and trying to bring a larger territory in the territory in the circles in which the town is the business center.

A very sad and very sudden death startled all the citizens of Royal Oak when Andrew P. Campbell suddenly and without a moment's warning dropped dead in the post-office and store of Jacob Erb, last week Thursday night at 9 o'clock. He was one of Royal Oak's prominent citizen's, was an ex-supervisor and a friend to every one. The deceased was born in Royal Oak, 55 years ago, and for years has been one of its most influential farmers and business men. He made a comfortable fortune at farming and retired some years ago from active farm work. He spent the latter years of life building cement sidewalks. The deceased is survived by his widow and one daughter, Mrs. Thomas Bell, of Royal Oak, and by two brothers, Dr. J. L. Campbell and Justice Albert W. Campbell of our village.
