

THE REVEREND HEAD OF THE CHRISTIAN SCIENCE CHURCH A RECLUSE

GATES OF HOME CLOSED TO THE WORLD

Following Published Story That Mrs. Mary Baker G. Eddy Was at the Point of Death, Reporters Have Interviewed with Her at Her Home—Sensational Allegations of Fraud and Deception Denied—Aged Woman in Comparatively Good Health.

New York—The World, of this city, recently published a sensational story to the effect that Mrs. Mary Baker G. Eddy, the revered founder and head of the Christian Science church, was extremely feeble, physically and mentally, and seemingly in the shadow of death.

The affliction was made the daily drive recently taken by Mr. Eddy through the streets of Concord, N. H., her home, was a fraud. The World stated that ostensibly Mrs. Eddy makes this daily public appearance, dressed in velvets and ermine, to show her followers that she is in perfect health. It is not Mrs. Eddy, but an impersonator, trained and costumed for the part, who appears in the exhibition drive.

The article contained: "Mrs. Eddy is now known to be Mrs. Pamela J. Leonard, of Brooklyn, head of the Christian Science church in that borough."

"Mrs. Leonard has been an inmate at Mrs. Eddy's home at Concord for the last three years.

"She has been perfected herself as an understudy to Mrs. Eddy, and has impersonated the head of the Christian Science church in the daily exhibition drives when to move the real

thing was to show the world that Mrs. Eddy was in perfect health."

thing was to show the world that Mrs. Eddy was in perfect health."

"The article contained: "Mrs. Eddy is now known to be Mrs. Pamela J. Leonard, of Brooklyn, head of the Christian Science church in that borough."

her family. It is practically certain that the cancer specialist, whose name is known to the world, is now in constant attendance at Pleasant View."

Reporters See Mrs. Eddy. Following these charges the New York Sun printed the following account of an interview granted by Mrs. Mary Baker G. Eddy to a party of newspaper representatives at her home October 30.

"Mary Baker Eddy is alive, but old and feeble, and suffering from some complaint like paralysis which makes her head and hands shake. She gave probably the last interview of her life this afternoon to 11 reporters from Boston and New York, and now, in the words of one of her household, 'is closed forever.'"

"Since the publication of the story to the effect that Mrs. Eddy was under the control of the household and that Mrs. Pamela Leonard, dealer of Brooklyn, was impersonating the leader of Christian Science on her

last day, the city (Concord, N. H.) has been full of reporters.

H. Cornell Wilson, Christian Science correspondent for New York and vicinity, arrived Monday morning and stood between the reporters and the household at Pleasant View. Archibald McLellan, editor of the official Christian Science publications, came up to help, and L. C. Strang, the local man, also was on the job.

"We didn't like the tone of your story yesterday," said Mr. Wilson to one man. However, they fought it out until all but two were left in the interview. The reporter for the paper which published the original story and a magazine man were not forgiven.

"A woman reporter went up to Pleasant View and had herself appointed spokesman. She came back with three questions, which she had asked with the Scientists, were to be asked of Mrs. Eddy. In their conclusion the reporters added a fourth. There were 11 reporters altogether. Wilson lined them up in the big reception room of Pleasant View. This opens from a main hall and is a roomy, bright, airy place. Members of Mrs. Eddy's household, including Mrs. Pamela Leonard,

Mrs. Eddy at 45

Mrs. Eddy from her bed would have almost certain death to the effectual woman.

Powerless in Strong Hands.

Mrs. Eddy is powerless in the hands of designing persons. They absolutely control her, and their assignment of Mrs. Leonard's services is for a deep purpose. Just what that purpose is may be easily guessed.

"The World has collected a mass of facts bearing directly upon the surprising conditions that surround the hidden life of Mrs. Eddy."

"These facts are quite apart from the tenets of Christian Science, so called, and will appear as forcibly to uninitiated members of the public as to the general public."

"Many millions of dollars—just how many the records fail to show—have been expended by Mrs. Eddy's religious profession since the founding of the Christian Science cult. Millions of her books have been sold, and each book has yielded her a royalty of one dollar."

"From the mother church in Boston yearly receive a great sum, contributed by devotees in all parts of the world in the form of annual dues. One of her closest friends and followers in the world is Mrs. H. H. H. of \$10,000,000; and her annual income is \$1,000,000."

"For this vast sum there is practically no trace. There is no public record of its investment, no show to its disposition."

"Her financial agent, and cousin, Frederick Ladd, secretary of the Loan and Trust Savings bank of Concord, while refusing details, has said that Mrs. Eddy's estate is surprisingly small, she having 'expended' the bulk of her fortune in charities."

DOUBT FACTS OF HISTORY. Persons So Fond of the Miraculous That Questions Are Easily Raised.
