

Rapid changes of temperature are hard on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion strengthens the body so that it can better withstand the danger of cold from changes of temperature.

It will help you to avoid taking cold.

All the one-eyed owls are leaving the country a month earlier than usual, and the bobolinks are laying in the sweet potatoes, as well as corn, for the winter provisions. In presenting "The Girl Who Looks Like Me" nothing has been spared to make the production complete. Specially built scenery of massive proportions, perfect electric accessories, a company of clever players are utilized to make the play a success. Matinees will be given on Wednesday and Saturday.
