There is one satisfaction in being a farmer, it cannot be said that he "wins" whatever money he gets; he earns every dollar of it, and when he gets it, he does not take a cent of it from some other man. It comes to him from the hand of the soil, and his money is the cleanest in all the world.

Ten years ago the advertising expenditures of the New York department stores were less than one-half of what they are today. Twenty years ago it was less than one-tenth. Thirty years ago it was a minute fraction. Note how these stores have broadened and prospered. Does advertising pay?

As soon as this is finished Manager Mitchell will issue a telephone directory of all the subscribers at the Royal Oak and his office. G. B. Burhans Testifies After Four Years.
 G. B. Burhans, of the Citizens Center, N. Y., writes: "About four years ago I wrote you stating that I had been severely cured of my kidney troubles by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the kidney ailment, and today I feel as well as I have ever had, and I have never had any of those agonizing pains that I had for the four years that I have suffered. I am an evidently cured to stay cured. I heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble. All druggists."

A man was heard to remark one day last week that he would as soon believe that he sprang from a cannon, or that he were sprang from a monkey. The camel will work seven days without drinking. If one is to be judged by habit he might be led to believe that he sprang from goats. They are not only animals that prefer to be near whippers and are inclined to butt in.

The name of Birmingham stands for a picture in the minds of all who have lingered even for a few fleeting days within the charm of its wondrous beauty, but as the future ideal to its own loyal citizens. It is unique among its sisters in this county as an ideal city for the masses, even as the country is unique for its wealth, fertility and manifold attractions.

The Michigan State Telephone Company has been doing great work at Northville, Plymouth, Saff Hill and Farmington. These towns are all connected with Birmingham by a new line. A new 300 drop switch has been put in at Northville. A new 200 line switch board is soon to be placed in Plymouth. Nearly 1,000 subscribers will then be in connection. A rushing business for the county towns.

Do not forget to examine your stove pipes, your stoves and all fire appliances. Never light an oil stove and go away and leave it, as it is dangerous in doing so. Never take risks of breaking arms or legs when there is nothing to gain only notoriety. In fact, remember all things hang by a thread. Hence, protect your property from loss by fire by insurance and loss caused by accident and health insurance.

J. ALLEN BIGELOW, Agent.
 Eight loaded freight cars were smashed to kindling wood, Sunday morning last, on the D. & G. H. M. railway, caused by a broken axle. The train was going to Detroit, with two engines, and in sweeping around the big curve at Bloomfield Center crossing, three miles north of Birmingham, came to rest by a broken axle.

It took one day for the wrecking gang to clean up the wreckage of the cars, seven of which were loaded with gravel and one with cement.

The regular monthly meeting of the Troy Farmers Club will be held Saturday afternoon at the home of Wm. Harbison, of Troy. After a beautiful dinner, for which the club is noted, all business matters were considered.

The following officers for the coming year were elected: President, John Harper; first vice-president, J. J. Snook; second vice-president, Louis Becker; secretary, Miss Clara Bailey; corresponding secretary, Miss Jemima Niles; treasurer, Mrs. S. W. Watkins.

R. B. Watson, district manager, and C. E. Gardner, superintendent of maintenance, for the Michigan State Telephone Company, arrived in town Tuesday, looking over the ground covering the townships of Bloomfield, Escalante, Royal Oak and Troy. By January 1, 1907, all this new work will be completed. It is estimated that the cost to the company will exceed \$5,000.

Two lines are to be constructed over a large force of men to cover territory that in a very short time will give the Birmingham Exchange 500 subscribers.

Farmers, as a rule, are kind-hearted and sympathetic and abuse of the heads of horses is a crime in the eyes of the people. In the city they are often seen, after being driven, tied to a post, exposed to wintry winds and cruelly neglected. Society exists for the prevention of cruelty to animals in one form or another, and the duty of the village marshal is to house and care for neglected animals. Our town has ample stabling accommodations and mercy and good care bestowed upon the dumb brutes brings returns.

A Thanksgiving family dinner party, out of the usual run of these gatherings, was held at the home of H. C. Pool last week. Four generations of the family were at the dinner, and all were thankful for the blessings enjoyed. These four representatives were all of the feminine side of the house and all Birmingham residents.

They were Mrs. William Tom, aged 89 years, great-grandmother; Mrs. Henry Benedict, grand-mother; Mrs. H. C. Pool, mother; and Miss Elizabeth Pool, daughter, aged four months. Truly a good and unusual Thanksgiving feast.

Willard Stearns, a staunch member of the Eastern Michigan Press Club, and our veteran editor, lawyer, essayist, alderman, member of the Adrian school board where he resides, ex-postmaster, and then who has been no better known or more aggressive figure in democratic state conventions, was married at Adrian November 20th.

The bride is Mrs. Belle Burgess, who has for some 15 years been an official in the administrative department of the Industrial Home for Girls. Mr. Stearns is a civil war veteran and has long been a widower. He has four adult children.

It does not cost so very much to own a home in Birmingham. Lots, splendidly located and of ample size, can be purchased for little money, while building lots sell at little more value. Building material is as reasonable here as at other points. Able architects and contractors are ready to satisfy every demand, hence to own a home here is within the range of possibility, no matter how meager the salary or limited the means. If a man is honest, upright and displays a willingness to help himself, there are people here, many who will give him whatever help is needed, so long as it is within the bounds of reason.
