Virtues of the Apple.

IAn apple enter is 'rarsiy either disposite or bifloss. The apple is an excellent distellent emedy and corrective acting beneficially upon the liver. It will correct a sour stouchs, almost intellectual to the sour stouchs almost in the bladder and liver. It is a good preventive of sore throat, and because of the abundant anount of phonous that it contains, possessing thore of this element than any other feut or vegetable. It is refarded as a waisable brain and narve (red. HADDY OPCEADD

Evolution of Tools Slow.

The stack of tools heregard slowly
the the slowly growing needs. As
ease multiplied, and the natural supof raw material chimished, the
time was supplied by the manufacre of artificial fakes—when the
supplied the slowly slowly slowly
implements with denife, towes was
arred, special Types arose, notably
c almond shaped implement and the
soland. Then came the transition
our the collithe to the palcolithic,
d man is on at least prehistoric
count.

EVIDENCE OF GHOST

CONSIDERED SUFFICIENT

yer Saved Client.

The testimony of a "ghost" would be now count for much in a copirt of the control of the con

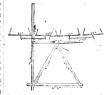

world.

A farm servant declared that in the night a spirit had appeared to him declaring liself to be the ghost of the solder, whose bones it said lay still annual relative to their decent interment and have the more decreased in the control of t

e sergeant turned away immedi-put his squad in motion. After had advanced a dozen yards.or bawled out at the top of his "Squad, halt Whoa, Fitzger-

ras described and illustrated in your sediumas. Will you give the dimensions of the same?

Single withflettees of three horse eveners are 28 inches in length and double trees between the outside plas are 32 inches in length, allowing is a play of 5 inches between the single play of 5 inches between the single quadruple tree should be twice the length of the double tree, that is 66 inches. In the illustration it is evident that the brace unfaints at right angles to the pole should be of the inches. In the brace unfaints at right angles to the pole should be of the innew, 66 inches. If the proportions are carried out, the three braces behind the long the first proportion with the proportion of the pole inches in length. It may be, however, that these proportions would be finely in length. It may be, however, that these proportions would be finely in length. It may be, however, that these proportions will be first the summary of the first proportion. It is not the first proportion will be first the summary of the first proportion. It is not the will be should be about the pole behavior in the authority of the pole but should lag, then the pole team would be drawing the whole load, and vice very and the pole team would be drawing the whole load, and vice very and the pole team would be drawing the whole load, and vice very and the pole team would be drawing the whole load, and vice very and the pole team would be drawing the whole load, and vice very and the pole team would be drawing the whole load, and vice very and the pole team would be drawing the pole team would be the p

How Sir Joshus Tepnoich, Made Success of Huyden Port'Alt.
Sir Joshus Reynoids, Made Success of Huyden Port'Alt.
Sir Joshus Reynoids was once commissioned to paint a portrait of Hayda, the celebrated composer.
Hayda went to the residence of the positor and gave him a sitting, but, soon grew tired. Sir Joshus would repaint a man of such genitus with a stund countecance and adjourned the string. The same wearlness of extent, The same wearlness of externit. Sir Joshus communicated the cricumisance to the commissioning prince, who contrived a stratagem. He sent to the pointer's house a
