CHEAPER FARM LANDS

Southwest Offers' Best Opportunities for Securing Homes.

Many farmers in the Northern and Eastern States are seelling their high-priced lands and locating in the Soutnwest. Many who have been unable to own their homes in the older country are buying land in the new country. Unusual opportunities exist along the lines of the Missouri Pacific-Iron Mountain Route. The rich alluvial delta lands and river-bottom lands of Southeast Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 60 bushels of corn, a bale of cotton, 4 to 6 tons of alfalfa, 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$15 per acre. When cleared and slightly, improved will rent for \$4.00 to \$6.00 per acre cash.

Lylands, more rolling, lighter soil, adapted to fruit groxing—peaches, pears, plums, graces, berries—also melons, tomatoes and other vegetables, can be bought for \$5 to \$10 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap. This is a fine stock country. No long winter feeding. Free range, pure water, mild climate. A healthy growing country, with a great future.

Write for map and descriptive literature on Missouri, Arkansas, Louisiana, Texas and Kansas. Very cheap rates on first and third Tuesdays of each month. Address, H. D. Armstrong; T. P. A., or H. C. Townsend, G. P. & T. A., Detroit, Mich.
