GHOSTS OFTEN SEEN AT SEA, SAYS A SAILOR.

Come Aboard, Seemingly, to Visit, and Not to Do Harm—Their Appearance Looked Upon as a Warning.

"An old sailor told me that ghosts are common aboard at sea," says a writer in the Manchester Guardian. "He says that he has seen many ghosts on the ocean are full of spirits, and that others have none."
"They are not often seen. Only common ghosts are seen according to the old sailor." He says that they often come aboard ships, but not to do harm; that the early morning is the best time to see them, a little before turn-to time, before the ship's cook has the coffee ready.

"There is an old story of a ship which carried an extra hand who had never signed articles.—The crew discovered, when they were in blue water, that one watch had a man too many.
"I once knew a sailor who had sailed in a haunted passenger steamer." She was one of the ships plying between the Philippines and England, but I cannot mention her name, as she is still afloat. She has one peculiarity, a poop as big as the poop of an East Indiaman.
"This poop is haunted. The sailor who told me of the ghosts was one of the ship's quartermasters. On a passage, when the vessel was in the tropics, he had the middle watch below. The fore-cabin (which happened to be aft, under the poop) was so hot that he could not sleep."
"At last he turned out of his bunk, took a blanket and a pillow and went out on deck to sleep. He was up and tied on the poop to leeward of one of the boats, and settled down to rest at about three in the morning, just as the dawn had begun to chase the color of the sky."
"He did not know how long he slept; but he woke up with a start to see a line of light appearing in front of the boats, swilling buckets of water on the deck as they worked aft. He saw them as plain as if he had his dinner on his plate, some three or four yards away, all working hard. They were so near that he sprang to his feet at once, thinking up his greatest idea should be what.

"He had hardly taken his gear in his hand when he thought with a shock that he had been talking for at least an hour and a half; that it was now half past five, since they were washing decks; that he hadn't been asleep at all, but that he had been in a boat in the water, working his dinner on his plate, some three or four yards away, all working hard. They were so near that he sprang to his feet at once, thinking up his greatest idea should be what.

"I only saw him."
"And the fellow, he went on being engaged. To establish the principle that a man is not responsible for the number of his wives unless he himself does the courting, would be plainly against public policy. "Barkis is willin'," that at once puts all the responsibility on him, no matter how he managed the preliminaries.

"There is talk of the Sudan."
There is talk in England of the proposed development of the natural resources of the Sudan through scientific exploration. Immediately west of the banks of the Blue Nile along its upper reaches, extending to the Abyssinian frontier. The white Nile met with along that river and also near the Sobat. Along the White Nile the India rubber creeper, a valuable source of rubber, abounds. There are large forests in the Sudan. The province and gold has been mined in some of the mountains. Search will be made for fuel.

BRING GOOD HEALTH

Dr. Williams' Pink Pills. Used After the Grip, Arrest Fatal Decline and Recovered the System.
Any bodily weakness caused by a deficiency in the blood can be cured by the use of Dr. Williams' Pink Pills because these pills actually make new blood. After attacks of the grip the blood is generally run down and the patient continues to decline.
"About three years ago," says Mrs. Jennie Cowan, of 115 West 22d Street, West Bay City, Mich., "I caught a severe cold, ran into the grip. I was confined to my bed for two weeks. At the end of that time I was able to be about, but I was utterly run down, and I could hardly stand, my cheeks had no color and I felt faint. My heart would flutter and it was difficult for me to breathe at times. Neuralgia settled in the back of my head and stomach and I suffered from rheumatism in my shoulders.
"I had the care of the best doctor there but because to better my condition I took one of your pills and I was cured by Dr. Williams' Pink Pills and I feel better than I have for two weeks."

TERRIBLE TO RECALL.

Five Weeks in Bed With Intensely Painful Kidney Trouble.
Mrs. Mary Wagner, of 1397 Kensington Avenue, Bridgeport, Conn., says: "I was so weak and worn with kidney trouble that I was in bed for five weeks. There was agonizing pain in my back, my sides, my head, my neck, my stomach, and my bladder. At times dizzy spells were common. I was a wretched creature. The passages of the kidney secretions were irritating and painful, and there was considerable tenderness and color in my face. I don't know what I would have done but for Doan's Kidney Pills. I could see an improvement from the first box, and five boxes brought a final cure." Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

No Longer Novel.

When James P. Magenis was chief deputy in the Internal Revenue service he was stricken with a severe attack of typhoid fever, and it was some weeks before he was able to resume his duties.
Before his illness his hair was luxuriant, but after it a bald spot began to show, which was noticed by a deputy, who spoke to him about it.
"Pardon me," they said, "but you are getting bald, and you know a head of hair like yours is quite a novelty these days."
Magenis, "I have been told my hair was quite a novelty, but do you know," he said, "a claim of mine was in my eye, 'I notice since my illness, that every time I run my hand over the top of my head the novelty is wearing off.'"

AWFUL EFFECT OF ECZEMA.

Covered with Yellow Sore-Grow. Mothers and Parents discouraged—Cuticura Drove Sore Away.
"Our little girl, one year and a half old, was taken with eczema of the face. I called the doctor for her. He said that the doctor called her. We called in the family doctor, and he gave some tablets and said she would be all right in a few days. The eczema grew worse and we called in doctor No. 2. He said she was weeping, as soon as the doctor was through she would be all right. But she still grew worse. Doctor No. 3 said it was eczema. By this time she was nothing but a yellow-green sore. When he said he would help her, so we let him try it about a week. One morning we discovered a little yellow pimple on her forehead. We called in doctor No. 3. He came over and looked her over, and said 'that he could not do anything more for her. It was his better take her to some eye specialist, since it was an ulcer. So we went to Oswego to doctor No. 4, and also said the eye-sight was gone, but that he could help it. We thought we would try doctor No. 5. Well, that proved the same, only he charged \$10 more than doctor No. 4. We were nearly discouraged. I saw one of the Cuticura advertisements in the paper and thought we would try the Cuticura. Treatment, so I went and purchased a set of Cuticura Remedies, which cost me \$1, and in three days our daughter, who had been in bed for eight months, showed great improvement, and in one week all sores had disappeared. Of course it could not restore the sight, but I would use Cuticura in time I am confident that it would have saved the eye. We think there is no remedy so good for any skin trouble or impurity of the blood as Cuticura. Mr. and Mrs. Frank Abbott, R. F. D. No. 9, Fulton, Oswego Co., N. Y., August 17, 1906."

BUILT OF FOSSIL BONES.
Queerest House in the World is in Wyoming.
The "queerest house in the world," said a zoologist, "is undoubtedly the famous Bone cabin of Wyoming, near the Medicine Bow River. This cabin's foundations are built of fossil bones.
Bones of dinosaurs, jaws of the diplotosaurus, teeth of the brontostrous knuckles of the Ichthyosaurus, vertebrae of the camarasaurus, hanks of the barosaurus, the cellosaurus, the brachiosaurus, the stegosaurus, the ornithomylus or bird-catching dinosaur, and also the bones of the mammoth, form the foundations, making it the most curious and the most costly edifice, not excepting the Pennsylvania capitol, in America.
"This but was built by a Mexican sheep-herder, who had happened chance on the "granite extinct animal bones" in this region. This was a site of about 50 yards square wherein lay in rich profusion the bones of all the animals of the reptilian age. The smallest and the largest, the largest and the smallest, the most tranquil and the most ferocious lay side by side.
The place was evidently once a river bar, and the dead bodies that floated down the stream were here arrested, and the bones of the largest animals of the reptilian age, the largest and the smallest, the most tranquil and the most ferocious lay side by side.

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance.
How many women do you know who are perfectly well and young? How many can be easily trusted to do a minute's domestic work which manifests itself in depression of spirits, general nervousness, headache, or anything, backache, dragging sensation, flatulency, nervousness, or any other ailment?
These symptoms are but warnings that there is danger ahead, and unless relieved as soon as they occur, a serious operation is the inevitable result. The best remedy for all these symptoms is...

Keeps Young by Outdoor Exercise.

Although James Bryce, the new British ambassador to this country, is 59 years old, he has not by any means exhausted his physical energies or his fondness for exercise in the open. His favorite recreation is mountain climbing, and he is president of the English Alpine Club.

How's This?
Priscilla's Revenge.
It was in the days of old when knights were bold and dressed in gleaming armor.
"Dearest Priscilla," he said, softly, "I will thus put a few patches on my dress suit."
"But," George replied, Priscilla, sweetly, "You haven't a blacksmith for a wife."
And the bold knight was so humiliated he went over to Ysion Heart tavern and stood the tavern keeper off for a tanhard.
