Rapid changes of temperature are hard on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion **strengthens the body so that it can better withstand the danger of cold from changes of temperature.**

It will help you to avoid taking cold.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe that Dr. Shoop tells mothers everywhere to give it without hesitation even to very young babes. The wholesome green leaves and tender stems of a lung-healing mountainous shrub furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough and heals the sore and sensitive bronchial membranes. No opium—no chloroform; nothing harsh used to injure or suppress. Simply a resinous plant extract that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses "The Sacred Herb." Demand Dr. Shoop's. Take no other. Charles J. Shain.

AT THE THEATRES.

LYCEUM.

That effervescent musical cocktail, "Piff Paff Pouf" which B. C. Whitney will present to the patrons of the Lyceum for one week, commencing Sunday matinee, comes with a record of an eight months' run at the Casino in New York City, where it was pronounced one of the cleverest musical attractions ever presented in the American metropolis, while the lavishness of the scenic and electrical effects and the gorgeousness of the costumes were the talk of New York. This was four seasons ago. From the Casino, it went to the Garrick, Chicago which delighted the theatre goers of the Windy City for three months; it also played the Majestic Theatre at Boston for seven weeks to phenomenal business. Since then it has toured all the leading cities of the United States and Canada playing all the big-priced houses only.

This season's production is that of the original and the company engaged for the presentation is an exceptionally clever one.

The engagement opens with a Sunday matinee, in addition to which the regular Wednesday and Saturday matinees will be given.

WHITNEY.

What will undoubtedly prove one of the greatest melodramatic sensations of the present season, and which will contribute to the theatre patrons a positive revelation in stage craft will be seen at the Whitney all next week. In presenting this new and thrilling melodrama, Manager B. E. Forrester has not chosen the strongest acting company obtainable, but has expended his money lavishly for the scenic equipment, which is absolutely required and is most essential in a play of this calibre. The title of this new offering is "A Fighting Chance," from the pen of that well known sentimental writer of fiction. Theodore Kremer, whose plays have caused thousands to laugh and cry in every state of the universe. The acting company will muster more than twenty-five artists, who have become identified strongly in the melodramatic atmosphere.

The engagement is for one week with matinees daily except on Wednesday.

COAL

Don't take any chances this season. Do not be at the mercy of either labor or capital in the matter of fuel.

Coal that produces the greatest amount of heat; Coal that burns to the last ounce; Coal that is all Coal and the ash of which is evidence of its heat energy—that's the kind of Coal we sell. Anthracite and bituminous Coal in all sizes.

Cole's Hot Blast

WILL SAVE $25.00 IN FUEL THIS WINTER

Shows Stove Burning Soft Coal

Cole's Hot Blast is a great value. We sell it under a positive guarantee. It burns soft coal, lignite coal, coke, hard coal, wood or **any fuel** without any change in the stove. You only need one stove for the entire year, Spring, Fall or dead of Winter. Strikes or coal combines cease to be a terror if you have a **Cole's Hot Blast.**

Fire Never Out

It is the only stove that keeps the house warm all night and gives the family a warm breakfast room in the morning without kindling a new fire. Guaranteed to hold fire from Saturday night to Monday morning.

Saves the Dollars

If you feel poor it **saves half your fuel bill,** while giving the above beautiful results. It will even make a ton of cheap slack soft coal, do more work and hold fire better than your neighbor gets out of a ton of hard coal in his $50.00 stove.

Scientific and Air-tight construction throughout. A **patented steel collar** connects the elbow draft to the stove body and cannot open by action of the fiercest heat. The **patented compound hinge** on the lower draft cannot warp and the draft door closes air-tight by its own weight. The **guaranteed smoke-proof feed door** prevents smoke, dust or gas escaping when fuel is put in the stove. Perfect results, therefore, from any fuel. The **heavy fire brot** protects the points where other stoves burn out first, and insures great durability.

Ask to see the patented dustless ash cover for removing ashes. Our method is the only clean way.

Cole's Hot Blast makes $5.00 worth of fuel give more heat than $10.00 worth in any other stove. Sold on a positive guarantee. Investigate today.

CAUTION

See the words, **"Cole's Hot Blast from Chicago"** on the feed door of each stove. None genuine without it.
