Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The Kidneys, like the Heart, and the Brain, find their weakness, not in the organs themselves, but in the nerves that control and guide and strengthen them. The shock of a sudden cold, a medicine specifically prepared to reach those controlling nerves to doctor the Kidneys alone, is sufficient to doctor the Kidneys alone, in 10 to 15 days. It is a waste of time, and of money as well.
