Irving H. Wilson had a recent call to go to St. Johns, Mich., to see the call the contractors and builders, of that bustling city, why their Toledo pulp plaster, would not work satisfactorily. The Toledo Pulp Plaster Co. were in trouble there, on a big job, because the plaster would not work. Our townsmen, settled the matter, in a jiffy, by demonstrating to the users, that they were trying to use it too cold. The pulp was all right, and so was Irving's salary from the delighted contractor, for his successful expert testimony.

Friday March 8th, was a great day for the bees of the Birmingham Mary D. H. who, under his guidance to a membership of over 250,000 with a surplus of \$11,000,000. As head of the Foresters, Dr. Oronhyatka received a salary of \$15,000 for which his emoluments were raised in 1905, the previous sum being \$10,000. In addition, his connection with Forestry, he was prominent in Missouri, being a member of the Mystic Shrine. He was a past president of the National Fraternal congress, and a prominent member of the Episcopal church. He was a personal friend of Elliott G. Stevenson, who lived here a few years ago and who succeeds him in his office at a salary of \$10,000 per annum.

A friend sends us a communication about "knockers," and what he says is, alas, too true. While Bert Bell was selling his Woodward Avenue lots a customer had about closed a deal, price settled on and all that remained to be done was to sign the contract. The buyer came up town and engaged in conversation with a Birmingham man, engaged in business right here in town. During the conversation the Birmingham man remarked, "I don't see how you can have a cellar on this lot, unless you put it on the top of the house you propose building." This settled the deal. The buyer returned to Detroit without ever seeing Mr. Bell again, and he has a cellar on the lot. He has cost at least \$3,500. What do you think of that for knocking?
