

**Judge Got His Answer.**  
Judge Graham, of the San Francisco supreme court, said, as much fun as possible out of life, even extracting an occasional laugh from trials over which he presides. Not long ago he indulged in his favorite propensity and came off second best. An applicant for naturalization was before him, the French chef of a big hotel, satisfied with the answers to the formal questions, Judge Graham suddenly and unexpectedly put a final question: "You say you are a chef? What is the difference between a teal duck and a pheasant?" Just as quickly and fully as seriously came the answer: "Pheasant, your honor."

**GOVERNOR HAD LAUGH ON THE WOULD-BE JOKERS.**  
Fact That Guest "Knew Champagne and Had No Prejudices Against It" Disconcerted Their Shrewdly Laid Plans.  
The government of the new territory of Nevada was an interesting management. Gov. Byrd, an old and a successful politician from New York—a politician, not statesman. He had white hair; he was in fine physical condition; he had a winningly friendly face and deep lustrous brown eyes that could talk as a native language; the tongue of every feeling, every passion, every emotion. His eyes could out-talk his tongue, and this in saying a good deal, for he was a very remarkable talker, both in private and on the stump. He was a shrewd man; he generally saw through surfaces and perceived what was going on inside without being suspected of having an eye on the matter.  
When showmen indulge in practical jokes, the fact gauges them. They have lived narrow, obscure and ignored lives, and full members of their still retain and cherish a job lot of left-over standards and ideals that would have been discarded with their boyhood if they had been moved out into the world and a broader life. There were many practical jokes in the new territory. I do not think I liked those people, but what I am saying is true. I wish I could say a kinder thing about them instead of that they were bargains or back-bits, or something like that, that wouldn't be utterly uncomplimentary. I would prefer it, but I can't say those things, they would not be true. The jokes were practical jokes, and in other respects they were plenty good-nough people; honest, generous, respectable, likeable. They played practical jokes upon each other with success, and got the admiration and applause and also the envy of the rest of the community. Naturally, they were eager to try their arts on big game, and that was what the governor was. But they were not able to score. They made several efforts, but the governor defeated these efforts without any trouble and went on smiling his pleasant smile as if nothing had happened. Finally, the joker chiefs of Carson City and Virginia City conspired together to see if their combined talent could win a victory over the governor. Finally, the joker chiefs of Carson City and Virginia City conspired together to see if their combined talent could win a victory over the governor. Finally, the joker chiefs of Carson City and Virginia City conspired together to see if their combined talent could win a victory over the governor.

She is gaining every day and does her own housework and cooking."

**MADE HIS MEANING PLAIN.**  
Indian's Answer a Real Triumph of Quiet Sarcasm.  
George Vaux, Jr., of Philadelphia, has been appointed a member of the board of Indian Commissioners. Mr. Vaux told a reporter the other day an Indian story.  
"There was a certain commission-er," he said, "who treated the Indians with rude scorn. One day a chief entertained this man in his tepee, telling him over the tobacco smoke quite freely of his feelings."  
"One legend concerned a plague of grasshoppers. The chief told eloquently how grasshoppers overran his land, and caused his people to die of hunger. He said that he had offered the Great Spirit, whenever all that deluge of grasshoppers disappeared."

**STOP WOMAN AND CONSIDER**  
First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as nervousness, irritability, and indigestion, and other ailments of the system. Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female illness than any other medicine known. It regulates the system and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life. Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound, and Mr. Pinkham's advice.

**NEVER OVERLOOKED A CHANCE.**  
When Elizabeth Talbot, of the central Pennsylvania diocese, was the co-widow of Idaho and Wyoming he never overlooked an opportunity of securing a contribution for the missionary work in which she took such delight. On one occasion, while attending a meeting of church dignitaries at the Fairview Hotel, with some other clergymen on the steps of his hotel when several boys came along. One of them approached and asked for aid. Elizabeth Talbot took him aside and after a short but earnest conversation the other tramps saw something pass from her hand. "What did he give you?" asked the other boys when they all started away. "Didn't he give me nothing?" was the disgusted reply. "I gave him a dollar for his blazed new cathedral in Laramie."

### Two Crops per Year

Corn Eight Feet Tall  
Texas Gulf Coast Country  
Two crops are raised each year in this wonderful land and the richest, biggest crops of corn you ever saw. The farmers of this section market from 40 to 70 bushels per acre with very little irrigation.  
Why not take a trip to see where and see this land which you can buy now for \$25 an acre?  
Talk to owners who clear from \$300 to \$500 per acre per year in vegetables—who net \$90 per acre in alfalfa—who raise 24,000 pounds of Onions from one acre and sell at 1-2 cents per pound.

### Perpetual Summer

The Winter Vegetable Garden of America  
Texas  
One great advantage the Southwest has is its equable climate. Here farmwork goes on practically the year round and there is rarely any need of providing shelter for stock. The growing season is longer and another crop is frequently grown on the same land after the first has been harvested. Go Southwest Now!  
On March 19th, April and 16th you can see the Southwest very cheaply. Tickets are good 30 days and permit stop-overs. One very desirable feature of the trip via the M. K. & T. Ry. is the diverse route through Oklahoma—you can go through Indian Territory and return through Oklahoma City, or vice versa.  
Why not investigate the possibilities of this new trip? Write us for a free trip in the Southwest and we will send you a copy of "The Southwest".
