of these classics of the light harness cut turf. While the M. & M. has attracted most attention the Chamber of Commerce is entitled to consideration as the greatest slow pacing event ever held in this country. Last week Walter Cox, the astute New England trainer, paid \$13.00 for Jerry B., one of the eligibles for this stake, which shows the esteers in which it is held by the owners themselves. The Chamber of Commerce pace has grown in recent years to be an event in which the winner has to beat 20% to win the money. Generally there have been one or two that could do this, but on July 22nd, when the field lines up for the word at Grosse Pointe there will be from 6 to 8 that can pace a mile with the which which would have won a free-for-all, which would have won a free-for-all, which would have won a free-for-all, which who was the great improvement in these has been among the correct of the country of the control of the country of the coun es in a decade, as well as the slow stake at Detroit would as the fastest at the ordinary
