Automobile scorches sometimes take their punishment for violating the speed law when there is not a officer in sight. The latest to pay the penalty is Gladrich, Chiera, owner of the Oriental hotel, Detroit. Monday, while making record time down the hill at City Circle, he lost control of his machine, which he turned turtle, wrecking it, and throwing Mr. Chiera 10 or 15 feet in the air. The insect is new to the farmers who have suffered from its ravages, and much concern is being felt over its appearance.
