**HOW CHILDREN MAKE A HOME**

ESTIMATE BIRMINGHAM COUNCIL HAS PROVED THE APPOHISM.

Six Paucities Children Taken for Adoption; Some Sad Chapters in the Story.

**BIRMINGHAM, Mich., Jan. 18.**—Mr. and Mrs. Edwin Miller, who live about two miles directly west of this village on the Franklin road, in a magnificent home that would grace Woodward avenue, inside the two-mile limit, are very happy and contented after going down the hill of life, conscious that they have done all in their power to make the world better and in many instances have caused the unfortunate and distressed ones to rise up and call them blessed. Mr. Miller is a grand good man, and his pleasant good nature beams out from his countenance at all times.

He is a great believer in pure-bred Guernsey cattle, and annually saves some many first prizes that his home is overclouded with silverware and blue and red ribbon, which he takes in making good in stock raising. His large farm is fully stocked with thoroughbred stock—purebred and poddy, but his hobby is Guernsey.

Mr. Miller is a delightful little man to visit with. He is a sister of Mrs. J. P. Munk, of the village. Mrs. Miller's initiative for the moral and financial aid of the poor and needy is always manifest. In other words, he is the head of the Franklin street G. M. M. church of Franklin street. Her help in all its undertakings, and she is a gifted orator, and her farm home often receives with the joyous faith of many visitors, and it is the pleasure of the society of many.

**THEir life.** Mr. Miller is a delightful little man to visit with. He is a sister of Mrs. J. P. Munk, of the village. Mrs. Miller's initiative for the moral and financial aid of the poor and needy is always manifest. In other words, he is the head of the Franklin street G. M. M. church of Franklin street. Her help in all its undertakings, and she is a gifted orator, and her farm home often receives with the joyous faith of many visitors, and it is the pleasure of the society of many.

On the 13th day of September, 1879, they took the first one from the state public school at Coldwater. This little six years old, named Berta. This little one grew and brightened their home, but there was a longing for more than one child, so on the 6th day of August, 1882, they opened their hearts and home to another one. It was a 7-year-old boy, named William. He yearned to make their home bright and happy.

## Heart Strength

Heart strength, or Heart Weakness, means Nervous strength. It is a condition of the system that makes the heart and lungs unable to do their work properly. It is a condition of the system that makes the heart and lungs unable to do their work properly. It is a condition of the system that makes the heart and lungs unable to do their work properly.

**MR. AND MRS. EDWIN MILLER.**  
One term, his parents started him in business in Birmingham. He is still unmarried, being in Detroit, and is a successful business man, representing J. P. Munk & Co. dealers in coal and oil.  
He has now only one child in the Miller home, it began to be known when John, the boy, of nine years, Mrs. Miller again called on the school at Coldwater, and this time brought back with her two more children, one a sturdy bright little boy aged five years, named John, and the other a baby girl of two years, named Edith. The little one, named Edith, was born on Oct. 15, 1891, and was named for her mother and Mrs. Miller's love for the child was Mrs. Miller's study, strong, healthy young man of ten years, a great help to the foster father on the latter farm, and a great promise of making a good practical farmer. His foster parents are sending him through the Michigan Agricultural college at Lansing. The present year he is coming to see his foster father and mother, and his foster mother will stand at the father's feet most obediently in all his life.  
**Another Sad Chapter.**  
And now comes another and sadder chapter of this story. Edith, the baby, the youngest of the family, of 12 years, was met with a great affliction, a calamity that will afford a terrible loss to the

## COUNCIL PROCEEDINGS

## Put Your Money In a New Country

The Pacific Coast extension of the Chicago, Milwaukee & St. Paul Railway now under construction, opens to the settler thousands of acres of excellent agricultural land. The new country in Adams, Hastings, and Bowman counties, North Dakota, and Butte County, South Dakota, is now reached by the new track. The soil is a dark loam with clay subsoil, and produces in abundance wheat, oats, barley, spelt, flax, corn and potatoes. The land is well adapted to farming, good water is found at a depth of from twenty to fifty feet, and the whole country is underlain with lignite coal that outcrops along the streams, and in most cases can be had for the digging.  
The climate is healthful, the air is dry and invigorating, and the percentage of sunny days is high. Outdoor work can be done almost every day in the year. Rainfall is ample sufficient to raise the crops. Regular mail service has been established, the roads are good, rural telephone lines traverse the country, and automobiles are in common use. The deeded land in this district sells for from \$10 to \$15 per acre. There are many instances this year where the crop equalled in value the cost of the land.  
In Butte County, South Dakota, there is considerable government land open for homestead entry. Government land offices are maintained at Lemmon, Hottel and Bowman, where filings and final proofs may be made. All of these towns are on the new line of the

## Chicago Milwaukee & St. Paul Railway

In Montana, the new railroad traverses good farming land. It has been demonstrated that big crops of grain may be raised. Along the Yellowstone and Musselshell rivers, the water is used for irrigation, and phenomenal yields of alfalfa, sugar beets, and grain, are always certain. In the Judith Basin near Lewistown, Montana, is one of the most remarkable country to be found on the new line. Under natural rainfall, the famous bench lands produced this year an average of 35 bushels of hard wheat to the acre, and the price was 94 cents per bushel. The basin contains about 1500 square miles and is sparsely settled. Some government land still remains open for settlement. A government land office is maintained at Lewistown. In Fergus County, outside the Judith Basin, is one of the greatest stock countries in the world, and good ranches can be purchased at a reasonable figure.  
The Chicago, Milwaukee & St. Paul Railway Co. has established an immigration department for the purpose of assisting in the settlement and development of the new lands now being opened. Pamphlets descriptive of its resources will be forwarded free on request.
