**15% More Efficiency Than Uncle Sam Demands**

Is the tested record of Egyptian Portland Cement. The U. S. Gov't requires only 70% to pass through a screen having 40,000 meshes to the sq. in. The most particular engineers require only 75%. Yet from bags on the work, Egyptian ran as high as 88% through a 40,000- and up to 97% through a 10,000-mesh screen.

Fineness determines quality in cement. But the fineness must be even. It must not vary. To make everlasting Egyptian Cement always the same, every modern device known to chemists and mechanics is employed in our works.

This accounts for the confidence of all users—contractors, builders, architects, farmers, home owners—whether experienced or not.

To learn the many economical uses to which it may be put, write the manufacturers or ask for booklets and complete information as to the many uses of Egyptian Cements.

### Would Mortgage the Farm

### AT THE THEATRES.

LYCEUM.

The two popular comedians and composers, Cole & Johnson, will offer at the Lyceum next week, commencing Sunday afternoon, their latest offering in the musical comedy line, "The Red Moon." The humor of the Negro blended with the picturesqueness of the Indian furnishes the theme of the comedy, and provides laugh-provoking situations, well adapted to light musical treatment. The melodies are daintily pretty, while the production has been staged with the most elaborate scenic and costume effects ever presented in a production of this kind. A host of beautiful colored girls, noted especially for their sweet singing voices, comeliness of form and face and graceful action, make up a chorus of dusky beauty. Then there is the "Watermelon Ballet," beautifully costumed in rich red, green and black, while the weird and fantastic Indian war dance affords a dashing and effective spectacle.

The engagement opens with a Sunday matinee, in addition to which the regular Wednesday and Saturday matinees will be given.

WHITNEY.

"The Montana Limited," a play of the west written by Charles Ulrich and W. L. Roberts, under the astute management of Messrs. Klimt and Gazzolo, will be offered at the Whitney next week, commencing Sunday afternoon. The scenes are all laid in the great West and the theme—the holding up a train and a romance—is prolific of all the elements that appeal to human nature. The story of the play deals with twin brothers, Bob and Jack Morely, whose resemblance brings about complications that tend to a serious effect when Jack holds up a train and on account of the resemblance Bob is accused of the deed. As several different types of characters are introduced, including Mexicans, cowboys and Indians, the auditor is sure to be satisfied. The comedy element keeps apace with the romatic, both of which are only exceeded by the sensational.

The engagement is for one week with matinees daily except on Wednesday.

# Are You Sick?

Much sickness is due to a weak nervous system. Yours may be. If it is, you cannot get well until you restore nerve strength Your nervous system is nature's power house; the organs of your body get their power from it. If the power is not there, the action of the organs is weak, and disease (sickness) follows. Dr. Miles' Nervine cures the sick because it soothes the irritated and tired nerves and gives the system a chance to recuperate. Try it, and see if you do not quickly feel its beneficial effect.

"I was given up to die by a leading doctor. Got one of Dr. Miles books and found that Dr. Miles' Nervine fit my case. From the very first dose I took I got better. I am better now than I have been for years, and do all my own work on the farm. That's what Dr. Miles' Nervine has done for me, and I am glad to recommend it to others."
