Elmer Pallister was frightfully injured in a runaway accident here Monday afternoon. The horse he was driving got scared at something and ran directly in front of a south-bound Keweenaw car. When the car struck the rig the horse got away and the car pushed the rig ahead of it for rods. When it was brought to a stop Mr. Pallister was found caught in the rig which had under the fender of the car. His jaw was broken and he was badly cut and bruised on other portions of his body. It is thought he will not recover.

The large apartment house of Mrs. H. Carew, corner Third and Central Streets caught fire from a defective chimney about 9 o'clock Monday morning, and burned to the ground despite the heroic efforts of the fire department and the citizens of the town. W. G. Burk's lumber yard was in the same block and within four rods of the burning building, and was filled with lumber and shingles. Had the wind been blowing to any great extent the whole block would have burned. The sheds of the lumber yard and an adjoining house were covered with blankets and kept soaked with water and were saved. Only two families were living in the place at the time—William Wilson and Mrs. McFarland, a widow lady. The people worked hard and succeeded in carrying out all the furniture of the two families excepting a crock stove. The building was an old one, having been built over 50 years, but about a year ago was fixed all over. The loss is approximately about \$3,000. It is not known whether there was any insurance carried on the building or not.
