Why Suffer?

If you suffer pain from any cause, Dr. Miles' Anti-Pain Pills will relieve it—and leave no bad after-effects. That's the important thing. Neither do they create a habit. More often the attacks become less frequent, or disappear altogether. Dr. Miles' Anti-Pain Pills have no other effect except to relieve pain and quiet nervous irritation.

"We are never without Dr. Miles' Anti-Pain Pills," says a husband and son, aged 15, who were always subject to such headaches until we began using these Pills, and they have broken them entirely. I don't think they have had to use them for six months. I remember that I used to see her, nearly every day, with her head bent nearly double with awful headache, and left another for her to take in away and she says she will never be any more troubled. Last week my husband was taken with pleurisy on both sides, and he died. I was so afraid if it had been for the Pills, I don't think I could have seen him dead, and I want to be and alert."

Your druggist sells Dr. Miles' Anti-Pain Pills, and will authorize him to return the price if it does not benefit you. If it fails to benefit you, return the price if it does not benefit you.
