

CALUMET Baking Powder

Received Highest Award
World's Pure Food Exposition
Chicago, November, 1907

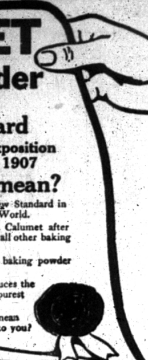

What does this mean?

It means that Calumet has set a new standard in Baking Powder—the standard of the World. Because this award was given to Calumet after thorough tests and experiments, over all other baking powders.

It means that Calumet is the best baking powder in every particular in the world.

And this means that Calumet produces the best, most delicious, lightest, and purest baking of all baking powders.

Doesn't that mean everything to you?

What Is Nicer?

FOR A CHRISTMAS GIFT
THAN AN

Edison Phonograph

IT LASTS THE WHOLE YEAR, AND THEN SEVERAL MORE, AND IS ENJOYED BY EVERY MEMBER OF THE FAMILY.

COME IN AND LET US TALK IT OVER WITH YOU.

TOGETHER

FASHIONS IN FURS

COMBINATIONS NOW FORM THE CHIEF MOTIF.

Neckpieces, Muffs and Hats Combine with Ribbon Bows and Rosettes—Good Reason for Seemingly Over-Elaboration.

Fortunately the woman who has a piece of fur too worn about the edges to be worn in its present shape, yet not unworthy of recutting, for she may imitate at very slight expense the novelties that bring so high a price in the shops. A very little piece of fur will do for a neckpiece, muff or hat, for the style is now to combine with ribbon bows, rosettes and ruffles, and even with inset lace.

A most elaborate combination, you will say—but think—how can we protect our throats from winter's chill and yet have our huge incroyable revers and other directive motifs uncut and admiring gaze? As for the muffs, they must assuredly not present an unbroken expanse of fur in opposition to the much befringed stoles

above them. Then why should not My Lady Dainty sport a hat to match?

The note of novelty in the simple ruffled bands of fox fur, sable, mink and martin is this, that almost without exception they are joined to the head of the crown on the side instead of in front or back. The ends, moreover, if there be ends, are made to hang over the back of the left shoulder, for the new coats all protect the throat.

There are also little chokers of mink, martin and other soft furs that fasten in back with a knot of ribbon. These may or may not have separate pellets set on the bottom of the collar at the sides with tails and heads overhanging front or back.

But more attractive still are the little folded collars of velvet banded at the top with a bit of short-haired fur, which is in turn completed by a platted ruche of double-faced satin ribbon. Colors are often used in this combination, moss green with a touch of gold being employed to brighten up the lighter furs, white also being seen with black.

The muff, foremost in favor are the large pillow affairs made up of alternate strips of fur and inset lace, or of fur set off by ribbon with a touch of the fur of the winter's vogue are the richest, glossiest things that ever an animal grew for woman's adornment. Sable and phenixia take the lead, though their great expensiveness makes them prohibitive to more ordinary mortals. Black lynx and pointed fox rank second in favor, the glossy lynx in particular setting off the satin coats and hats to advantage.

Our drawing shows a fancy neck piece of ermine with platings of chiffon and lace. It is made with a high ruche around the neck, and the fur bands are finished with the ermine tails.

The hat on this figure shows a combination of lace, fur and paradise plumes for trimming. Just below are two fancy neckpieces, one of platted chiffon and ribbon, and the other of fur finished by a bow.

SALT AND ITS VARIED USES.

Minor Ills and Discomforts Vanish Before Its Kindly Offices.

Salt can almost be regarded as a panacea, so many and varied are its uses.

It cleanses the palate and furred tongue and a gargle of salt and water is often efficacious.

A pinch of salt on the tongue, followed ten minutes afterward by a drink of cold water, often cures a sick headache. It hardens gums, makes teeth white and sweetens the breath.

Cut flowers may be kept fresh by adding salt to the water.

Wash ankles should be rubbed with a solution of salt, water and alcohol.

Bad colds, hay fever and kindred affections may be much relieved by using fine dry salt, like snuff.

Dyspepsia, heartburn and indigestion are relieved by a cup of hot water in which a small spoonful of salt has been melted.

Salt and water will sometimes revive an unconscious person when hurt. If other remedies are not at hand, interchange from tooth pulling is stopped by filling the mouth with salt and water.

Weak and tired eyes are refreshed by bathing with warm water and salt.

Many public speakers and singers use a wash of salt and water before and after singing, as it strengthens the organs of the throat.

Salt rubbed into the scalp or occasionally added to the water in washing prevents the hair falling out.

Feathers uncurled by damp weather are quickly dried by shaking over a fire in which salt has been thrown.

Salt should always be eaten with nuts, and a dessert fruit should be specially made.

A charming suggestion for a bridal costume is made from ivory white liberty satin. The draped robe is trimmed with bands of pearl passementerie, and where it crosses a tulle to left side there is a long sash falling to below knee depth and also trimmed with passementerie and finished with silk fringe. This is caught at bust line with a bunch of orange blossoms and the sleeves are alternate bands of tulle and satin and passementerie. Plastron and high stock are tucked tulle.

DESIGNED FOR THE BRIDE.

What You Can Get at Halsey Bros' Royal Oak

Fancy Apricots, 15c per lb.

Put Your Money In a New Country

The Pacific Coast extension of the Chicago, Milwaukee & St. Paul Railway now under construction, opens to the settler thousands of acres of excellent agricultural land. The new country in Adams, Hettinger, and Bowman Counties, North Dakota, and Bette County, South Dakota, is now reached by the new track. The soil is a dark loam with clay subsoil, and produces in abundance wheat, oats, barley, speltz, flax, corn and potatoes. The land is well adapted to farming, good water is found at a depth of from twenty to fifty feet, and the whole country is underlaid with lignite coal that outcrops along the streams, and in most cases can be hark for the digging.

The climate is healthful, the air is dry and invigorating, and the percentage of sunshine days is high. Outdoor work can be done almost every day in the year. Rainfall is amply sufficient to raise the crops. Regular rail service has been established, the roads are good, rural telephone lines traverse the country, and automobiles are in common use. The deeded land in this district sells for from \$10 to \$15 per acre. There are many instances this year where the crop equalled in value the cost of the land.

In Bette County, South Dakota, there is considerable government land open for homestead entry. Government land offices are maintained at Lemmon, Hettinger and Bowman, where filings and final proofs may be made. All of these towns are on the new line of the

Chicago Milwaukee & St. Paul Railway

In Montana, the new railroad traverses good farming land. It has been demonstrated that big crops of grain may be raised. Along the Yellowstone and Musselshell rivers, the water is used for irrigation, and phenomenal yields of alfalfa, sugar beets, and grain, are always certain. In the Judith Basin near Lewistown, Montana, is one of the most remarkable sections to be found on the new line. Under natural rainfall, the famous bench lands produced this year an average of 35 bushels of hard wheat to the acre, and the price was 94 cents per bushel. The basin contains about 150 square miles and is sparsely settled. Some government land still remains open for settlement. A government land office is maintained at Lewistown. In Fergus County, outside the Judith Basin, is one of the greatest stock countries in the world, and good ranches can be purchased at a reasonable figure.

The Chicago, Milwaukee & St. Paul Railway Co. has established an immigration department for the purpose of assisting in the settlement and development of the new lands now being opened. Pamphlets descriptive of its resources will be forwarded free on request.
