pertant commercial cities of our spin, while Kansas City, Kansas, a prohibition town, has gone down, down, until its nearly out. Recently if was unable to pay its Police Force and they had to resign. You can buy, if you want to take a chance, nearly any soliding in Kansas City. Kansas, for-less than it cost to-slig the cellar, and Stati includes the churches, for a trange data includes the churches, for a trange data includes the churches, for a trange of the commercial control of the control of the commercial control of the d other towns in dear old Oakland, local option would prevail, which ard forbid.

if local option would prevail, which Lord forbid. Roadhouses that now exist on Wood-drawene, end-six and Seven Mile Foads and others that would be built would. largety increase their business. Trayel on electric railway would be receedingly unpleasant, especially for the ladies. Boys and young men would learn to drink in a clandestine manner, and in my humble opinion drunkenness would be largely increased, for they would buy at wholease instead of from a requirally likensed, government inspected, properly conducted retail dealinger, many of whom are high classed, patriotic citizens, of whom the county wight well be proud and does hoper and respect.

Yours respectfully.

Yours respetfully, TAXPAYER
