House cleaning is the order of the day. Anyone driving across country on any bright or moon will mostly see a cloud of dust over the road from the rear of many homes and sailing up over our tree tops and washing its atoms on the distant hillsides to be driven back by the winds to try the temper of the weather.

Life is full of many pleasures and joys in life. While the good man biases himself away from the distant town only to return to a cold dinner, sad is his fate to let him tell the story.

PARTRIDGE & BLACKWELL

This Is As Much a Store for Men As for Women

Women come here in preference to the exclusive houses. Men are getting to be of the same notion. Our assortment of Men's Wear are larger and better than those of the exclusive men's apparel stores. We have destroyed many illusions during the years we have been doing business here. One of them is the old-fogy idea that a dealer who carries only a limited quantity of merchandise carries better quality.

Time was when there was foundation for this opinion, but now a-days the big dealer gets the preference with the manufacturers. We go to the same sources of supply as the small hatter, haberdasher, clothier, or shoe dealer.

The difference is that we go DIRECT while they buy through middlemen. We buy in 100-dozen lots while they buy in small quantities. Furthermore, the rental of the exclusive store, and other expenses, is an enormous tax upon profits necessitating higher prices. Here the percentage of selling expense is reduced to the minimum because our total rental is divided among a great many departments.

We state a fact when we say that Men's Clothing, Hats, Shoes and Furnishings of every kind cost on an average a third more than is necessary, and that the man who wishes to economize to this extent, and yet dress as well as his fellows, can do so by trading at Partridge & Blackwell's.
